**1 world financial center: Report from Ground Zero** Dennis Smith, 2003-02-25 The tragic events of September 11, 2001, forever altered the American landscape, both figuratively and literally. Immediately after the jets struck the twin towers of the World Trade Center, Dennis Smith, a former firefighter, reported to Manhattan's Ladder Co. 16 to volunteer in the rescue efforts. In the weeks that followed, Smith was present on the front lines, attending to the wounded, sifting through the wreckage, and mourning with New York's devastated fire and police departments. This is Smith's vivid account of the rescue efforts by the fire and police departments and emergency medical teams as they rushed to face a disaster that would claim thousands of lives. Smith takes readers inside the minds and lives of the rescuers at Ground Zero as he shares stories about these heroic individuals and the effect their loss had on their families and their companies. "It is," says Smith, "the real and living history of the worst day in America since Pearl Harbor." Written with drama and urgency, *Report from Ground Zero* honors the men and women who—in America's darkest hours—redefined our understanding of courage.

**1 world financial center: Saved at the Seawall** Jessica DuLong, 2021-05-15 Saved at the Seawall is the greatest 9/11 story you've never heard. Jessica DuLong's impressive, vital work has preserved one of 9/11's most dramatic and least-known stories. Now future generations will forever know of the courage and spirit of New York's mariners. — Garrett Graff, author of *The Only Plane in the Sky* Saved at the Seawall is the definitive history of the largest ever waterborne evacuation. Jessica DuLong reveals the dramatic story of how the New York Harbor maritime community heroically delivered stranded commuters, residents, and visitors out of harm's way. Even before the US Coast Guard called for all available boats, tugs, ferries, dinner boats, and other vessels had sped to the rescue from points all across New York Harbor. In less than nine hours, captains and crews transported nearly half a million people from Manhattan. Anchored in eyewitness accounts and written by a mariner who served at Ground Zero, *Saved at the Seawall* weaves together the personal stories of people rescued that day with those of the mariners who saved them. DuLong describes the inner workings of New York Harbor and reveals the collaborative power of its close-knit community. Her chronicle of those crucial hours, when hundreds of thousands of lives were at risk, highlights how resourcefulness and basic human goodness triumphed over turmoil on one of America's darkest days. Initially published as *Dust to Deliverance*, this edition, released in time for the twentieth anniversary, contains new updates: a preface by DuLong and a foreword by Mitchell Zuckoff.

**1 world financial center: Tower Stories: An Oral History of 9/11 (20th Anniversary Commemorative Edition)** Damon DiMarco, 2021-08-17 Damon DiMarco's *Tower Stories: An Oral History of 9/11 (20th Anniversary Commemorative Edition)*, eternally preserves a monumental tragedy in American history through the voices of the people who were in New York City on that fateful day. At the same time, the individuals featured in the book speak to the myriad ways by which Americans rose to meet the challenges presented by 9/11, and celebrates the many heroes that are found within its pages. In the tradition of Studs Terkel, DiMarco's literary time capsule includes a wide variety of viewpoints, including: The small group of people who miraculously made it safely down from the 89th floor of Tower 1, the New York Times reporter who desperately fought her way through the fleeing crowds to get back into Lower Manhattan, the paramedic who set up a triage area 200 yards from the base of the Towers before they collapsed, and the bereaved citizens of New York City who struggled to get on with their lives in the days and months following the tragic event, among dozens of others. The original edition of *Tower Stories* was one of the best-selling and most critically acclaimed books on 9/11 ever published, and for this 20th Anniversary Commemorative Edition, DiMarco has conducted additional interviews that offer a contemporary perspective on the 9/11 tragedy. The individuals DiMarco interviewed for the new edition include: • Alice Greenwald (President and CEO of the 9/11 Memorial & Museum) • Father Jim Martin (New York Times bestselling author) • Tom Haddad (survivor of the 89th floor, Tower 1) • Stephen Adly Guirgis (Pulitzer Prize-winning playwright). The 20th Anniversary Commemorative Edition of DiMarco's moving oral history preserves all of the voices from the original edition for generations to come, while offering new insights that benefit from twenty years of reflection on the world-shattering event. The voices in *Tower Stories* are in turn haunting and heartbreaking, always emotional, yet ultimately heroic. It's no wonder that MSNBC called *Tower Stories* "Arguably the most successful attempt at capturing the enormity of the events of 9/11," while Publishers Weekly wrote that "DiMarco's contribution to the memory of that horrific day is enormous; the testimonies collected here form a one-of-a-kind account."
