

10 duke medicine circle durham nc

10 duke medicine circle durham nc is a notable address situated in Durham, North Carolina, known for its association with the prestigious Duke University Health System. This location is a hub for medical professionals, healthcare services, and cutting-edge research facilities. The address at 10 Duke Medicine Circle offers access to a wide range of specialized medical care, patient services, and administrative offices that support the broader Duke Medicine network. Understanding the significance of this location can be vital for patients, healthcare providers, and visitors looking to navigate the comprehensive services offered within the Duke Medicine ecosystem. This article will provide an in-depth overview of 10 Duke Medicine Circle, including its location importance, services available, and tips for visitors. The following sections will guide readers through the key aspects of this address and its role within the Durham medical community.

- Location and Accessibility of 10 Duke Medicine Circle
- Medical Services Offered at 10 Duke Medicine Circle
- Facilities and Infrastructure
- Patient and Visitor Information
- Nearby Amenities and Transportation Options

Location and Accessibility of 10 Duke Medicine Circle

10 Duke Medicine Circle is centrally located within the Duke University Health System campus in Durham, NC. This strategic positioning places it near various hospitals, specialty clinics, and research centers affiliated with Duke Medicine. The address is easily accessible from major highways and is well-connected to the city's transportation infrastructure, making it convenient for patients, staff, and visitors.

Geographic Significance

The address is situated in a medical district that serves as a focal point for healthcare services in Durham. It is close to Duke University Hospital, Duke Children's Hospital, and the Duke Cancer Center, enabling integrated patient care and multidisciplinary collaboration among healthcare professionals.

Transportation Access

Several transportation options are available for reaching 10 Duke Medicine Circle:

- Private vehicle access with ample parking facilities nearby

- Public bus routes operated by Durham Area Transit Authority (DATA)
- Shuttle services provided by Duke University for patients and staff
- Ride-share and taxi services with designated drop-off zones

Medical Services Offered at 10 Duke Medicine Circle

At 10 Duke Medicine Circle, a comprehensive range of medical services is provided, encompassing both outpatient care and specialized consultations. The location acts as a center for multidisciplinary clinics and advanced diagnostics, supporting Duke Medicine's commitment to high-quality healthcare.

Specialty Clinics

The facility houses numerous specialty clinics, including but not limited to:

- Cardiology and cardiovascular services
- Oncology consultations and treatment planning
- Neurology and neurosurgery outpatient care
- Endocrinology and metabolic disorder management
- Orthopedics and rehabilitation services

Diagnostic and Laboratory Services

State-of-the-art diagnostic tools are available at this location, facilitating accurate and timely medical evaluations. This includes advanced imaging technologies such as MRI and CT scans, as well as comprehensive laboratory testing for blood work, pathology, and genetic analysis.

Facilities and Infrastructure

The infrastructure at 10 Duke Medicine Circle reflects modern medical facility design, prioritizing patient comfort, safety, and operational efficiency. The building and its surroundings are equipped to support a high volume of patients and healthcare activities.

Building Features

The facility includes multiple floors dedicated to clinical offices, conference rooms for medical education, and administrative support areas. It is designed with accessibility in mind, featuring ramps, elevators, and clear signage to assist all visitors.

Technological Integration

Advanced electronic health record (EHR) systems are implemented throughout the location to ensure seamless information sharing among healthcare providers. Telemedicine capabilities are also integrated, enabling remote consultations and follow-ups when necessary.

Patient and Visitor Information

Patients and visitors to 10 Duke Medicine Circle can expect a well-organized environment with resources to facilitate their experience. Clear guidelines are in place to assist with appointment scheduling, check-in procedures, and visitor policies.

Appointment Scheduling and Check-in

Appointments for specialty clinics and diagnostic tests can be scheduled via Duke Medicine's centralized system. Upon arrival at 10 Duke Medicine Circle, patients check in at designated reception areas equipped with staff to assist with any inquiries.

Visitor Guidelines

Visitor access is regulated to maintain patient privacy and safety. Visiting hours and policies are clearly posted, and security personnel are available to provide assistance. Visitors are encouraged to park in designated areas and to use the facility's wayfinding resources.

Nearby Amenities and Transportation Options

The area surrounding 10 Duke Medicine Circle offers various amenities that benefit patients, visitors, and staff. These include dining options, lodging facilities, and additional transportation services.

Dining and Lodging

Several cafes, restaurants, and fast-food outlets are located within walking distance, providing convenient meal options. For those requiring extended stays, multiple hotels and short-term lodging facilities are available in the vicinity, some offering special rates for Duke Medicine patients and families.

Additional Transportation Services

Beyond public transit and shuttles, the following transportation options are accessible near 10 Duke Medicine Circle:

- Bike-sharing programs with stations around the medical campus
- Accessible parking for patients with disabilities
- Long-term parking facilities for extended visits

Frequently Asked Questions

10 duke medicine circle durham nc: Stress and Addiction Mustafa al'Absi, 2011-04-28
Stress is one of the most commonly reported precipitants of drug use and is considered the number one cause of relapse to drug abuse. For the past several decades, there have been a number of significant advances in research focusing on the neurobiological and psychosocial aspects of stress and addiction; along with this growth came the recognition of the importance of understanding the interaction of biological and psychosocial factors that influence risk for initiation and maintenance of addictive behaviors. Recent research has started to specifically focus on understanding the nature of how stress contributes to addiction - this research has influenced the way we think about addiction and its etiological factors and has produced exciting possibilities for developing effective intervention strategies; to date there has been no available book to integrate this literature. This highly focused work integrates and consolidates available knowledge to provide a resource for researchers and practitioners and for trainees in multiple fields. Stress and Addiction will help neuroscientists, social scientists, and mental health providers in addressing the role of stress in addictive behaviors; the volume is also useful as a reference book for those conducting research in this field. - Integrates theoretical and practical issues related to stress and addiction - Includes case studies illustrating where an emotional state and addictive behavior represent a prominent feature of the clinical presentation - Cross-disciplinary coverage with contributions by by scientists and practitioners from multiple fields, including psychology, neuroscience, neurobiology, and medicine
