

20 duke medicine cir durham nc 27710

20 duke medicine cir durham nc 27710 is a prominent address located in Durham, North Carolina, known for housing some of the leading medical facilities and healthcare services in the region. This location is integral to Duke University Health System, offering advanced medical care, research opportunities, and educational resources. Patients and visitors seeking specialized treatments, consultations, or health information frequently come to this address for its comprehensive healthcare solutions. The area is well-equipped with state-of-the-art medical technology and staffed by experienced healthcare professionals dedicated to patient care and innovation. This article delves into the significance of 20 duke medicine cir durham nc 27710, exploring its facilities, services, accessibility, and the impact it has on the local community and beyond. Below is a detailed overview of the main topics covered in this article.

- Overview of 20 Duke Medicine Cir Durham NC 27710
- Medical Facilities and Services Available
- Research and Educational Opportunities
- Patient Experience and Accessibility
- Community Impact and Outreach Programs

Overview of 20 Duke Medicine Cir Durham NC 27710

The address 20 duke medicine cir durham nc 27710 is situated within the Duke University Health System campus, a globally recognized center for medical excellence. This location serves as a hub for a variety of specialized clinics, outpatient services, and administrative offices. The area is strategically positioned in Durham, a city known for its medical innovation and research. This address is essential for patients seeking expert care, as it offers a centralized point where multiple specialties converge. The infrastructure supports both clinical and academic activities, blending patient services with cutting-edge medical research. Overall, 20 duke medicine cir durham nc 27710 represents a focal point in North Carolina's healthcare landscape.

Medical Facilities and Services Available

At 20 duke medicine cir durham nc 27710, patients have access to a broad spectrum of medical facilities and services. These include outpatient clinics, diagnostic imaging centers, specialty care units, and patient support services. The location is designed to provide comprehensive care under one roof, minimizing the need for patients to travel between

multiple sites.

Outpatient Clinics

The outpatient clinics at this address cater to various medical specialties such as cardiology, oncology, neurology, and orthopedics. These clinics offer consultations, follow-up appointments, and minor procedures without requiring hospital admission. Patients benefit from personalized care plans developed by multidisciplinary teams.

Diagnostic and Imaging Services

Cutting-edge diagnostic tools including MRI, CT scans, X-rays, and ultrasound are available on-site. These imaging services are critical for accurate diagnosis and treatment planning. The integration of advanced technology ensures timely and precise results, facilitating effective patient management.

Specialty Care Units

Specialty care at 20 duke medicine cir durham nc 27710 includes services for complex conditions such as cancer treatment, cardiovascular care, and neurological disorders. These units are staffed by highly trained specialists who use evidence-based protocols and innovative treatments to improve patient outcomes.

Support Services

Additional patient support services such as pharmacy, nutrition counseling, social work, and rehabilitation are readily accessible. These services play a crucial role in holistic patient care, addressing physical, emotional, and social needs.

Research and Educational Opportunities

20 duke medicine cir durham nc 27710 is not only a center for clinical care but also a major site for medical research and education. Duke University's commitment to advancing medical knowledge is evident through the presence of numerous research labs and teaching facilities within this location.

Clinical Trials and Research Programs

Patients at this location often have the opportunity to participate in clinical trials, contributing to the development of new therapies and treatment approaches. Research programs focus on a wide range of medical fields, including cancer, cardiovascular disease, infectious diseases, and neuroscience.

Medical Education and Training

The site serves as a training ground for medical students, residents, and fellows, providing hands-on experience in a real-world healthcare environment. Educational programs are designed to foster clinical skills, research expertise, and patient-centered care methodologies.

Collaborative Research Initiatives

Interdisciplinary collaboration is a hallmark of the research environment at 20 duke medicine cir durham nc 27710. Scientists, clinicians, and educators work together to translate laboratory discoveries into clinical applications, ensuring rapid advancement in medical treatments.

Patient Experience and Accessibility

Patient-centered care is a priority at 20 duke medicine cir durham nc 27710, with efforts focused on making healthcare services accessible, efficient, and comfortable. The location offers numerous amenities to facilitate a positive patient experience.

Location and Transportation

This address is easily accessible via major highways and public transportation routes in Durham. Ample parking is available for patients and visitors, including designated areas for disabled access. The site's proximity to downtown Durham makes it convenient for local and out-of-town patients alike.

Appointment Scheduling and Patient Support

Advanced scheduling systems and patient portals streamline appointment booking and medical record access. Support staff are available to assist with insurance verification, financial counseling, and language interpretation services to accommodate diverse patient needs.

Facilities and Amenities

The medical complex includes comfortable waiting areas, cafes, and wellness spaces designed to reduce patient stress. Attention is given to creating a healing environment that promotes well-being throughout the care journey.

Community Impact and Outreach Programs

20 Duke Medicine Circle Durham, NC 27710 plays an influential role in the local community through various outreach and health promotion initiatives. The commitment to public health extends beyond clinical care, addressing broader social determinants of health.

Health Education and Prevention Programs

Community health education workshops and screenings are regularly organized to raise awareness about chronic diseases, preventive care, and healthy lifestyle choices. These programs aim to reduce health disparities and improve population health outcomes.

Partnerships with Local Organizations

Collaborations with schools, non-profits, and government agencies help extend the reach of healthcare services and support vulnerable populations. These partnerships foster a network of resources that enhance community resilience and access to care.

Volunteer and Support Services

Volunteer programs at this location engage community members in supporting patients and families. Services include transportation assistance, emotional support, and resource navigation, all contributing to a compassionate care environment.

- Comprehensive medical care with multiple specialties
- Access to cutting-edge diagnostic and treatment technologies
- Opportunities for participation in clinical research
- Patient-focused amenities and support services
- Active community engagement and health promotion efforts

Frequently Asked Questions

What is located at 20 Duke Medicine Circle, Durham, NC 27710?

20 Duke Medicine Circle is part of the Duke University Health System, housing various medical offices and clinics.

How do I schedule an appointment at 20 Duke Medicine Circle, Durham, NC?

You can schedule an appointment by calling the specific clinic or physician's office located at 20 Duke Medicine Circle or by using Duke Health's online appointment system.

What medical specialties are available at 20 Duke Medicine Circle?

20 Duke Medicine Circle hosts multiple specialties including primary care, cardiology, oncology, and more, as part of Duke Health services.

Is there parking available at 20 Duke Medicine Circle, Durham, NC?

Yes, there is visitor parking available near 20 Duke Medicine Circle, including patient parking garages and surface lots.

What are the visiting hours for clinics at 20 Duke Medicine Circle?

20 duke medicine cir durham nc 27710: Prostate Cancer Genetics: Changing the Paradigm of Care, An Issue of Urologic Clinics, E-Book Leonard G. Gomella, Veda Giri, 2021-07-06 In this issue of Urologic Clinics, guest editors Leonard G. Gomella and Veda Giri bring their considerable expertise to the topic of Prostate Cancer Genetics: Changing the Paradigm of Care. - Provides in-depth, clinical reviews on Prostate Cancer Genetics, providing actionable insights for clinical practice. - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews.

20 duke medicine cir durham nc 27710: Testosterone, An Issue of Urologic Clinics, E-Book Kevin R. Loughlin, 2022-10-29 In this issue of Urologic Clinics of North America, guest editor Dr. Kevin R. Loughlin brings his considerable expertise to the topic of Testosterone. With about 2 out of 10 men older than 60 years having low testosterone (American Urological Association), coupled with an aging population, this issue is an important resource for all urologists for effectively treating men and improving outcomes. It provides a current update on testosterone in men from top experts in the field, covering prostate cancer treatment, the use of anabolic steroids, hypogonadism, testosterone replacement, and more. - Contains 15 practice-oriented topics including current management and controversies surrounding andropause; testosterone and male sexual function; the interplay of testosterone and dihydrotestosterone in prostate cancer; and more. - Provides in-depth clinical reviews on testosterone, offering actionable insights for clinical practice. - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.

20 duke medicine cir durham nc 27710: Lung Cancer PART II, An Issue of Clinics in Chest Medicine M. Patricia Rivera, Richard A. Matthay, 2020-06-04 This issue of Clinics in Chest Medicine, guest-edited by Dr. M. Patricia Rivera, is the second of two issues focused on Lung Cancer. Topics discussed in this issue include but are not limited to: Lung Cancer TNM Staging: The 8th Edition; New Surgical Approaches in the Treatment of NSCLC; Alternatives to Surgery for Early Stage Non-Small Cell Lung Cancer: Stereotactic Radiotherapy; Alternatives to Surgery for Early Stage Non-Small Cell Lung Cancer: Thermal Ablation; Advances in the Treatment of Stage III NSCLC; Advances in Treatment of NSCLC: Targeted Therapy; Advances in the Treatment of NSCLC: Immunotherapy; Treatment of Oligometastatic Disease in NSCLC; Management of Malignant Pleural Effusions; Advances in the Treatment of Small Cell Lung Cancer; Palliative Care and the Role of the Primary Care Physician in Lung Cancer Care; Pulmonary Complications of Immunotherapy; and Pulmonary Complications of Chemotherapy and Radiation Therapy.

20 duke medicine cir durham nc 27710: Melanoma, An Issue of Hematology/Oncology Clinics of North America F. Stephen Hodi, 2020-11-25 This issue of Hematology/Oncology Clinics, Guest Edited by F. Stephen Hodi, is devoted to Melanoma. This issue is one of six selected each year by our series Consulting Editors, George P. Canellos and Edward J. Benz. Topics discussed in this important issue include: State of Melanoma, Biology of Melanoma, Epidemiology of Melanoma, Surgical Management of Melanoma, Melanoma Adjuvant Therapy, Targeted Therapies for Melanoma, Non-cutaneous Melanomas, Immune Checkpoint Therapies for Melanoma, Resistance Mechanisms to Current Therapies, Cellular Therapy and Cytokine Treatments for Melanoma, Combinatorial Approaches to the Treatment of Melanoma, and Melanoma Future Directions.

20 duke medicine cir durham nc 27710: Clinical Trials in Surgical Oncology, An Issue of Surgical Oncology Clinics of North America, E-Book Syed A. Ahmad, Shishir Maithel, 2022-11-23 In this issue, guest editors bring their considerable expertise to this important topic. Provides in-depth reviews on the latest updates in the field, providing actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize

20 duke medicine cir durham nc 27710: Personalizing Breast Cancer Care, An Issue of Surgical Oncology Clinics of North America, E-Book Melissa Pilewskie, 2023-09-19 In this issue, guest editors bring their considerable expertise to this important topic. Provides in-depth reviews on the latest updates in the field, providing actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews.

20 duke medicine cir durham nc 27710: Surgical Perspectives on Cutaneous Oncology, An Issue of Surgical Clinics Waddah B. Al-Refaie, Georgia Beasley, 2025-06-09 In this issue of Surgical Clinics, guest editors Drs. Waddah B. Al-Refaie and Georgia Beasley bring their considerable expertise to the topic of Cutaneous Oncology for Surgical Oncologists. Top experts provide a comprehensive review of the epidemiology, pathology and dermatopathology, surgical and medical management of every major skin cancer, sentinel lymph node biopsy, adjuvant therapy, disparities in care among certain populations, clinical trials, and more. - Contains 17 relevant, practice-oriented topics including essentials of pathology and dermatopathology evaluation for melanoma; management of early stage melanoma and Merkel cell carcinoma; evolving role of sentinel lymph node biopsy for melanoma, Merkel cell carcinoma, and squamous cell carcinoma; the role of surgery for metastatic melanoma in the era of checkpoint blockade; disparities in melanoma and skin care in the US: elders, minorities, and rural health; and more - Provides in-depth clinical reviews on cutaneous oncology for surgical oncologists, offering actionable insights for clinical practice - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews

20 duke medicine cir durham nc 27710: Minimally Invasive Urology: Past, Present, and

Future, An Issue of Urologic Clinics, E-Book John Denstedt, 2021-11-17 This issue of Urologic Clinics provides the urologist with important updates to better manage patients requiring minimally invasive procedures. Top experts in the field cover key topics such as Focal Therapy in Urology, Advances in Ureteroscopy, New Stent Technologies, and more. - Provides in-depth, clinical reviews on minimally invasive urology, providing actionable insights for clinical practice. - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews. - Contains 12 relevant, practice-oriented topics including New Lasers for Kidney Stone Treatment; New Technologies for Treatment of BPH; Technology for 3D Printing and Simulation; Artificial Intelligence: Applications in Urology; Disposable Endoscopes in Urology: Current State and Future Prospects; and more.

20 duke medicine cir durham nc 27710: Intraoperative Challenges, An Issue of Orthopedic Clinics, E-Book Frederick M. Azar, 2023-11-29 In this issue of Orthopedic Clinics, guest editors from the esteemed Campbell Clinic bring their considerable expertise to the topic of Intraoperative Challenges. Eleven top experts discuss a wide variety of potential surgical challenges that require the surgeon to make important judgment calls and decide the proper course of action. Areas covered include knee and hip reconstruction, hand and wrist, foot and ankle, shoulder and elbow, spine, trauma, and pediatrics. - Contains 14 relevant, practice-oriented topics including challenges with intraoperative imaging for pelvic and acetabular surgery; neuromonitoring changes in spinal deformity surgery; intraoperative challenges in hand surgery; managing intraoperative fractures during total ankle replacement; intraoperative vertebral artery injury: evaluation, management and prevention; and more. - Provides in-depth clinical reviews on intraoperative challenges, offering actionable insights for clinical practice. - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.

20 duke medicine cir durham nc 27710: Patient Surveillance After Cancer Treatment Frank E Johnson, Yoshihiko Maehara, George P Browman, Julie A. Margenthaler, Riccardo A. Audisio, John F Thompson, David Y. Johnson, Craig C. Earle, Katherine S. Virgo, 2013-03-12 Patient Surveillance After Cancer Treatment covers the history of cancer patient surveillance after curative-intent treatment, the rationale, the methodologies used in the past and at present, the methodologies that will probably emerge in the future, the costs of surveillance, the definitions of various terms used in the field, and how those who are interested in the topic can get more information about it from the internet. The secondary focus of the book is to publicize the need for well-designed, adequately powered randomized clinical trials comparing two (or more) surveillance strategies for each type of cancer. The audience includes all oncologists, cancer researchers, medical economists and policy makers in government and insurance companies, and finally, interested patients. This book is part of the Current Clinical Oncology series, which provides cutting-edge knowledge of cancer diagnosis, management, and treatment. World renowned experts share their insights in all the major fields of clinical oncology. From the fundamentals of pathophysiology to the latest developments in experimental and novel therapies, Current Clinical Oncology is an indispensable resource for today's practicing oncologist.

20 duke medicine cir durham nc 27710: *Cosmetic Dermatology for Men, An Issue of Dermatologic Clinics* Neil S. Sadick, 2017-11-13 This issue of Dermatologic Clinics, Guest Edited by Dr. Neil S. Sadick, is devoted to Cosmetic Dermatology for Men. Articles in this outstanding and timely issue include: The Pathophysiology of the Male Aging Face and Body; Cosmetic Concerns Amongst Men; Cosmetic Concerns Amongst Ethnic Men; Cosmeceuticals for Male Skin Rejuvenation; Energy-based Devices in Male Skin Rejuvenation; The Use of Neurotoxins in the Male Face; Volumetric Structural Rejuvenation for the Male Face; Body Contouring in Men: Upper and Lower Body; Recent Advances in Hair Transplantation; New Generation Therapies for the Treatment of Hair Loss in Men; Combination Therapies for Male Body Rejuvenation; and Liposuction

Considerations in Men.

20 duke medicine cir durham nc 27710: *Medical and Surgical Management of Urolithiasis, An Issue of Urologic Clinics of North America* Brian Richard Matlaga, Ojas Shah, 2025-08-28 In this issue of Urologic Clinics of North America, guest editors Drs. Brian Richard Matlaga and Ojas Shah bring their considerable expertise to the topic of Medical and Surgical Management of Urolithiasis. Top experts provide focused discussions on the metabolic and medical aspects of kidney stone management as well as advances in surgical therapies. - Contains 14 relevant, practice-oriented topics, including non-pharmacologic methods of stone risk reduction: diet and supplements; laser lithotripsy strategies; robotic surgery for stone disease; quality of life measures for kidney stone patients; AI and machine-based learning for stone management; and much more - Provides in-depth clinical reviews on medical and surgical management of urolithiasis, offering actionable insights for clinical practice - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews

20 duke medicine cir durham nc 27710: *Education and Professional Development in Rheumatology, An Issue of Rheumatic Disease Clinics of North America E-Book* Karina Marianne, James D. Katz, 2019-12-03 This issue of Rheumatic Disease Clinics, guest edited by Drs. Karina Torralba and James D. Katz, will discuss Education and Professional Development in Rheumatology. This issue is one of four each year selected by our series consulting editor, Dr. Michael Weisman. Articles in this issue include, but are not limited to: From Classroom to Clinic: Clinical Reasoning via Active Learning Strategies; Self-directed Learning of Musculoskeletal Ultrasound for clinicians in practice; Enhancing the inpatient consult service with the Fellow as a Teacher; Translating Quality Improvement in Education to clinical practice; Beyond Class-Rheum: Applying Clinical Epidemiology into Practice; Ethics and Industry Interactions: Impact on Specialty Training, Clinical Practice and Research; Mind the Gap: Improving Care in Pediatric-to-Adult Rheumatology Transitional Clinics; Underserved Communities: Enhancing care with Graduate Medical Education; Turning OSCE into reality; Online Resources for Enhancing Clinical Skills; and Addressing Health Disparities in Medical Education and Clinical Practice.

20 duke medicine cir durham nc 27710: *Contractile Mechanisms in Muscle* Gerald Pollack, 2013-03-13 Prior to the emergence of the sliding filament model, contraction theories had

been in abundance. In the absence of the kinds of structural and biochemical information available today, it has been a simple matter to speculate about the possible ways in which tension generation and shortening might occur. The advent of the sliding filament model had an immediate impact on these theories; within several years they fell by the wayside, and attention was redirected towards mechanisms by which the filaments might be driven to slide by one another. In terms of identifying the driving mechanism, the pivotal observation was the electron micrographic identification of cross-bridges extending from the thick filaments. It was quite naturally assumed that such bridges, which had the ability to split ATP, were the molecular motors, i.e., that they were the sites of mechanochemical transduction. Out of this presumption grew the cross-bridge model, in which filament sliding is presumed to be driven by the cyclic interaction of cross-bridges with complementary actin sites located along the thin filaments.
