bexar county sheriff history: Wanted Edward A. Blackburn, 2012-01-18 Along with the settlement of the Texas frontier came rustlers, public drunks, gunfighters, and other outlaws. A jail in which to incarcerate the lawbreakers was thus often the first public building raised in a new town. Later, as government developed, public buildings—notably county courthouses and jails—assumed not only practical but also symbolic importance. The architecture of these buildings in the nineteenth century reflected the power and status with which the community imbued the government; many of the same architects applied the aesthetic standards of the day to both. In later years, the safety and at least limited comfort of the prisoners became concerns and jails were remodeled or abandoned to other uses in favor of modern, more utilitarian structures. In this heavily illustrated guide to the historic county jails of Texas, Ed Blackburn Jr. takes readers to each of the 254 counties in the state, presenting brief histories and of the counties and their structures that housed their criminals. He provides general information about the architecture and location of the buildings and, when possible, describes the present uses of those that have been decommissioned. Interviews with local officials, historians, and newspaper publishers have yielded colorful anecdotes for many of the jails. Revealing photographs of many of the old jails have been gathered from local

and archival sources, and Blackburn himself has taken pictures of extant buildings. Together, these words and images not only provide a survey of the way Texans have housed their criminals, but also, with the aid of thumbnail maps of county locations, offer residents and tourists throughout the state a guide to a fascinating aspect of architectural and cultural history.

Among the 365 stories are the anti-Communist riot at Municipal Auditorium led against Emma Tenayuca, the segregation of cinemas and swimming pools, and the 1955 integration of San Antonio schools. A lively essay introducing each month underscores the important ways that history is never just about the past. As Kurt Vonnegut said, "History is merely a list of surprises. It can only prepare us to be surprised yet again." *San Antonio 365* brings to life more than three hundred years of surprises, highlighting both historical moments that have been overlooked and those told again and again—and the compelling characters who shaped the city.

bexar county sheriff history: Ben Thompson Thomas C. Bicknell, Chuck Parsons, 2018-08-15 Ben Thompson was a remarkable man, and few Texans can claim to have crowded more excitement, danger, drama, and tragedy into their lives than he did. He was an Indian fighter, Texas Ranger, Confederate cavalryman, mercenary for a foreign emperor, hired gun for a railroad, an elected lawman, professional gambler, and the victor of numerous gunfights. As a leading member of the Wild West's sporting element, Ben Thompson spent most of his life moving in the unsavory underbelly of the West: saloons, dance-houses, billiard halls, bordellos, and gambling dens. During these travels many of the Wild West's most famous icons—Wyatt Earp, Doc Holliday, Bat Masterson, Wild Bill Hickok, John Wesley Hardin, John Ringo, and Buffalo Bill Cody—became acquainted with Ben Thompson. Some of these men called him a friend; others considered him a deadly enemy. In life and in death no one ever doubted Ben Thompson's courage; one Texas newspaperman asserted he was "perfectly fearless, a perfect lion in nature when aroused." This willingness to trust his life to his expertise with a pistol placed Thompson prominently among the western frontier's most flamboyant breed of men: gunfighters.
