beth israel pain management clinic: *Heal the Pain, Comfort the Spirit* Dorene O'Hara, M.D., 2016-11-11 Specialists estimate that as many as 60 million Americans suffer from chronic pain, and approximately 20 percent of the population in most developed countries reports having chronic pain. According to one study, chronic back pain alone afflicts more than four million Americans, and nearly 50 percent of these are disabled by it. In *Heal the Pain, Comfort the Spirit* Dorene O'Hara, an anesthesiologist with extensive training in pain management and clinical pharmacology, explores treatment techniques developed over many years of studying, treating, and lecturing on chronic pain. She also examines the important contributions made by other clinical professionals and by practitioners of alternative medicine. Combining a general survey of the forms of pain therapy with suggestions for how patients can find the most appropriate treatment plan for themselves, *Heal the Pain, Comfort the Spirit* provides needed answers for pain sufferers as well as practitioners.
