biblical words for business: The Bible at Cultural Crossroads Harriet Hill, 2014-07-16 Bible translators have focused their efforts on preparing a text that is clear, natural and accurate, with the expectation that audiences will understand the message if it is in their language. Field research among the Adioukrou of Côte d'Ivoire shows that audiences also need to have access to the contextual information the author expected his audience to bring to the text. When such information is provided, both understanding of and interest in the message increase dramatically. These findings support Relevance Theory's claim that meaning is inferred from the interaction of text and context. To the extent that the contextual knowledge evoked by the text for contemporary audiences differs from that evoked for the first audience, understanding is impaired. The Bible at Cultural Crossroads presents a model to assist translators in identifying contextual mismatches and applies it on the thematic level to mismatches between first-century Jewish and Adioukrou views of the unseen world, and on the passage level to contextual mismatches arising from four Gospel passages. In-text and out-of-text solutions for adjusting contextual mismatches are explored, with field research results showing the effectiveness of various solutions. Context is shown to be both a significant factor in communication and a dynamic one. Translations of the text alone are not sufficient for successful communication.

biblical words for business: How Jews and Christians Interpret Their Sacred Texts Charles David Isbell, 2014-08-18 How Jews and Christians Interpret Their Sacred Texts is a comparative textual study that demonstrates the connections between the Hebrew Scriptures, sacred to both Judaism and Christianity, and the Jewish Talmud and Christian New Testament, which respectively became the bases for all modern systems of the two faiths. Even as official interpretations changed from plain sense to more elaborate explications, commentators in both faith systems continued to hold to the position that their conclusions were not only based firmly upon the initial authoritative text, but were in fact the natural extension and continuation of it. To describe these classical and early post-classical appropriations, Isbell discusses the transvaluation of texts, or efforts to retain the core values of authoritative sacred texts that are bound to specific times and situations while seeking to extrapolate from these ancient documents meanings that are relevant to current faith and praxis. As Isbell shows, transvaluation presupposes both the freedom and the necessity of reinterpreting perceived timeless teachings in light of historical, theological, sociological, and political developments that occurred long after the composition of the texts themselves.

biblical words for business: A Dictionary of Christ and the Gospels James Hastings, 2004-10 The purpose of this dictionary is to give an account of everything that relates to Christ - His Person, Life, Work, and Teaching. It is in a sense complementary to the Dictionary of the Bible, in which, of course, Christ has a great place. But a dictionary of the Bible, being occupied mainly with things biographical, historical, geographical, or antiquarian, does not give attention to the things of Christ sufficient for the needs of the preacher, to whom Christ is everything. This is, first of all, a preacher's dictionary. The authors of the articles have been carefully chosen from among those scholars who are, or have been, themselves preachers. And even when the articles have the same

titles as articles in the Dictionary of the Bible, they are written by new men, and from a new standpoint. It is thus a work which is quite distinct from, and altogether independent of, the Dictionary of the Bible. It is called a Dictionary of Christ and the Gospels, because it includes everything that the Gospels contain, whether directly related to Christ or not. Its range, however, is far greater than that of the Gospels. It seeks to cover all that relates to Christ throughout the Bible and in the life and literature of the world. There will be articles on the Patristic estimate of Jesus, the Medieval estimate, the Reformation and Modern estimates. There will be articles on Christ in the Jewish writings and in the Muslim literature. Much attention has been given to modern thought, whether Christian or anti-Christian. Every aspect of modern life, in so far as it touches or is touched by Christ, is described under its proper title. James Hastings (1852-1922) was a distinguished scholar and pastor. He was founder and editor of the Expository Times and is also well known for editing the five-volume Dictionary of the Bible, as well as the Encyclopaedia of Religion and Ethics, the Dictionary of Christ and the Gospels, and the Dictionary of the Apostolic Church.
