big brother red interview: Age of the Geek Kathryn E. Lane, 2017-10-29 This collection examines the nerd and/or geek stereotype in popular culture today. Utilizing the media—film, TV, YouTube, Twitter, fiction—that often defines daily lives, the contributors interrogate what it means to be labeled a “nerd” or “geek.” While the nerd/geek that is so easily recognized now is assuredly a twenty-first century construct, an examination of the terms’ history brings a greater understanding of their evolution. From sports to slasher films, Age of the Geek establishes a dialogue with texts as varied as the depictions of “nerd” or “geek” stereotypes.

big brother red interview: The God Debaters Adrian Rosenfeldt, 2022-05-04 This book examines the post-9/11 God debate in the West. Through a close study of prominent English God debaters Richard Dawkins, Karen Armstrong, Christopher Hitchens, and Terry Eagleton, Adrian Rosenfeldt demonstrates that New Atheist and religious apologist ideas and arguments about God, science, and identity are driven by mythic autobiographical narratives and Protestant or Catholic cultural heritage. This study is informed by criticism of the New Atheist polemic as being positivistic, and the religious apologists as propagating “sophisticated theology.” In both cases, the God debaters are perceived as disassociating themselves from human lived experience. It is through reconnecting the God debaters’ intellectual ideas to their cultural and social background that the God debate can be grounded in a recognisable human reality that eludes reductive distinctions and disembodied abstractions.

battle of Little Bighorn in 1876 was the worst defeat ever inflicted on the frontier army. big brother red interview: *David King* Rick Poynor, 2020-01-01 Exploring an unjustly overlooked figure in 20th-century British visual culture This book offers a comprehensive overview to the work and legacy of David King (1943-2016), whose fascinating career bridged journalism, graphic design, photography, and collecting. King launched his career at Britain's Sunday Times Magazine in the 1960s, starting as a designer and later branching out into image-led journalism. He developed a particular interest in revolutionary Russia and began amassing a collection of graphic art and photographs--ultimately accumulating around 250,000 images that he shared with news outlets. Throughout his life, King blended political activism with his graphic design work, creating anti-Apartheid and anti-Nazi posters, covers for books on Communist history, album artwork for The Who and Jimi Hendrix, catalogues on Russian art and society for the Museum of Modern Art in Oxford, and typographic covers for the left-wing magazine City Limits. This well-researched and finely illustrated publication ties together King's accomplishments as a visual historian, artist, journalist, and activist.

big brother red interview: *Seduction of Ethics* Will C. van den Hoonaard, 2011-06-13 Formal research-ethics committees in Canada now function as an industry, costing over thirty-five million dollars annually. The *Seduction of Ethics* argues that while ethics codes are alluring to the public, they fuel moral panic and increase demands for institutional accountability. Will C. van den Hoonaard explores the research-ethics review process itself by analysing the moral cosmology and practices of ethics committees regarding research and researchers. The *Seduction of Ethics* also investigates how researchers have tailored their approaches in response to technical demands — leading social science disciplines to resemble each other more closely and lose the richness of their research. Van den Hoonaard reveals an idiosyncratic and inconsistent world in which researchers employ particular strategies of avoidance or partial or full compliance as they seek approval from ethics committees.

big brother red interview: *Building Socialism* Christina Schwenkel, 2020-09-21 Following a decade of U.S. bombing campaigns that obliterated northern Vietnam, East Germany helped Vietnam rebuild in an act of socialist solidarity. In *Building Socialism* Christina Schwenkel examines the utopian visions of an expert group of Vietnamese and East German urban planners who sought to transform the devastated industrial town of Vinh into a model socialist city. Drawing on archival and ethnographic research in Vietnam and Germany with architects, engineers, construction workers, and tenants in Vinh's mass housing complex, Schwenkel explores the material and affective dimensions of urban possibility and the quick fall of Vinh's new built environment into unplanned obsolescence. She analyzes the tensions between aspirational infrastructure and postwar uncertainty to show how design models and practices that circulated between the socialist North and the decolonizing South underwent significant modification to accommodate alternative cultural logics and ideas about urban futurity. By documenting the building of Vietnam's first planned city and its aftermath of decay and repurposing, Schwenkel argues that underlying the ambivalent and often unpredictable responses to modernist architectural forms were anxieties about modernity and the future of socialism itself.

big brother red interview: *Unexpected* Chris Thomas, 2023-03-07 The backstory of finding Elizabeth Smart and how growing up in the Mormon culture pushed the author to develop the exact kind of intuition that was needed to help manage Elizabeth's kidnapping and rescue while the world watched. Chris Thomas is not yet thirty years old when he finds himself managing the immense pressure, eccentric personalities, and extenuating circumstances of an international story, where

one small misstep could adversely impact the search for a missing teenager and the reputation of her family. Now, twenty years later, Thomas takes readers behind the scenes, providing new details, perspectives, and commentary on finding Elizabeth Smart. In the process of reflecting on Elizabeth's search and rescue, Thomas discovers how growing up in the culture of The Church of Jesus Christ of Latter-day Saints (commonly known as Mormon) helped push him to develop the exact kind of intuition needed to manage Elizabeth's kidnapping and rescue, and to do so while the world watched. Unexpected juxtaposes crucial events from the Smart case with Thomas's experience growing up in the Latter-day Saint culture, including coming to understand the secret of a broken war hero before it was too late.

big brother red interview: *Lady Dicks and Lesbian Brothers* Catherine Davy, 2023-06-20 A rich and detailed picture of a particular historical moment that has now passed . . . I found myself immersed in the world of the East Village theatre scene and its connections to the larger world of feminism, theatre, and politics. Davy's long-standing association with this world pays off handsomely--it is impossible to imagine that anyone could write a more informative portrait. ---Charlotte Canning, University of Texas at Austin After hosting two annual international women's performance festivals in 1980 and '81, Peggy Shaw, Lois Weaver, and comrades put on such extravaganzas as the Freudian Slip party and the Debutante Ball (a coming-out party if ever there was one) to raise the first several months' rent for a narrow vestibule on East 11th Street, where they could keep the creativity going year-round. There, on a stage no bigger than a queen-sized mattress, . . . artists honed their craft, giving birth to a celebratory feminist-and-tinsel-tinged queer aesthetic. By the mid '80s . . . the rent quadrupled, and WOW moved to a city-owned building on East 4th Street, where it has flourished ever since, presenting hundreds---if not thousands---of plays, solo shows, concerts, dance pieces, cabarets, and sundry performances that defy classification. ---Alisa Solomon, Village Voice Out of a small, hand-to-mouth, women's theater collective called the WOW Café located on the lower east side of Manhattan, there emerged some of the most important theater troupes and performance artists of the 1980s and 1990s, including the Split Britches Company, the Five Lesbian Brothers, Carmelita Tropicana, Holly Hughes, Lisa Kron, Deb Margolin, Reno, Peggy Shaw, and Lois Weaver. The WOW (Women's One World) Café Theatre appeared on the cultural scene at a critical turning point in both the women's movement and feminist theory, putting a witty, hilarious, gender-bending and erotically charged aesthetic on the stage for women in general and lesbians in particular. The storefront that became the WOW Café Theatre saw dozens of excitingly original and enormously funny performances created, performed, and turned over at lightning speed---a kind of hit and run theater. As the demands on the space increased, the women behind WOW organized as a collective and moved their theater to an abandoned doll factory where it continues to operate today. For three decades the WOW Café has nurtured fledgling women writers, designers, and performers who continue to create important performance work. *Lady Dicks and Lesbian Brothers* provides a critical history of this avant-garde venture whose ongoing system of anarchy has been largely responsible for its thirty-year staying power, after dozens of other women's theaters have collapsed. WOW artists were creating a wholly original cultural landscape across which women could represent themselves on their own terms. Parody, cross-dressing, zany comedy, and an unbridled eroticism are hallmarks of WOW's aesthetic, combined---importantly and powerfully---with a presumptive address to the audience as if everyone onstage, in the audience, and in the world is lesbian. Author Kate Davy's extensive research included in-depth interviews with WOW veterans; newspaper reviews of the earliest productions; and rare, unpublished photographs. The book also includes a chronology of productions that have highlighted WOW's performance schedule since the early '80s. Kate Davy is currently Provost and Vice Chancellor for Academic Affairs at the University of Michigan-Dearborn. Her previous books include *Richard Foreman: Plays and Manifestos* and *Richard Foreman and the Ontological-Hysteric Theatre*.

Based on a major study of the UK production sector as a case study, it offers a unique analysis of wider transformations in ownership affecting the television production industry worldwide and of their economic, socio-cultural and policy implications.

big brother red interview: *Paul Whiteman: Pioneer in American Music, 1930-1967* Don Rayno, 2012-12-19 In a career that spanned 60 years, Paul Whiteman changed the landscape of American music, beginning with his million-selling recordings in the early 1920s of "Whispering," "Japanese Sandman," and "Three O'Clock in the Morning." Whiteman would then introduce "symphonic jazz," a powerful blend of the classical and jazz idioms that represented a whole new approach to modern American music, influencing generations of bandleaders and composers. While some hold that at the close of the Roaring Twenties Whiteman's musical hegemony quickly waned, Don Rayno illustrates in this second volume of *Paul Whiteman: Pioneer in American Music* how much of a dominant figure Whiteman remained. A major figure on the American music scene for decades to come, he would

continue to lead critically-acclaimed orchestras, filling theaters and concert halls alike and diligently seeking out and nurturing musical talent on the largest scale of any orchestra leader in the 20th century. In this second volume of Rayno's magisterial treatment of the life and music of this remarkable maestro, Whiteman's career during the second half of his life is explored in the fullest detail, as Whiteman conquers the worlds of theater and vaudeville, the concert hall, radio, motion pictures, and television, winning accolades in all of them. Through hundreds of interviews, extensive documentation, and exhaustive research of over nearly three decades, a portrait emerges of one of American music's most important musical figures during the last century. Rayno paints a stunning portrait of Whiteman's considerable accomplishments and far-reaching influence.
