**biblical passages on leadership: Insight into Two Biblical Passages** Leland E. Wilshire, 2010-06-10 This work comprises new insights into two Biblical passages. The first study, titled 'The Anatomy of a Prohibition,' uses the TLG computer database to offer a new interpretation of I

Timothy 2:12. The author provides insight that the TLG computer, with its data selections from 200 BC/BCE to 200 AD/CE, supports the interpretation of one of the key words 'authentain' as 'committing violent action,' not 'having authority.' It then explores the effect of this interpretation on exegesis, gender pronouncements, hermeneutics, tradition, theology, and relevance. As a supplement, it offers a history of traditional translations, mistranslations, and interpretations. The second insight study discusses seeing the 'suffering servant' of Isaiah 40-55 as the city of Jerusalem. This 'Servant City' study is based upon a comparison with the material outside the songs and with other ANE city descriptions that are also in the first millennium.

**biblical passages on leadership:** *A Study of Current Leadership Styles in the North African Church* Farida Saïdi, 2013-10-14 Indigenous church leadership is a new phenomenon in North Africa. Until recently, non-Muslim background believers were the only leaders of churches in this region. With the current growth of national churches there are increasingly more leaders from a Muslim background leading to a diverse range of leadership styles. This publication, a first of its kind to specifically explore church leadership in North Africa, investigates common values, beliefs and cultures among church leaders. Using four identified leadership styles the author further expands by looking at the impact they have on congregations, society and the future development of church leaders in the region.

**biblical passages on leadership:** **Biblical Foundation For Leadership** Bobby Patterson, 2019-06-27 The dynamic of leadership, there is an age-old debate about whether true leader is born or made. It is about spiritual leadership giving guide to the church, which is an organism not just an organization, and the manual is the Bible. The tool for leading the flock of God is prayer and the Word of God. Leadership is influence. As leaders, we are to influence others by setting good examples and be a servant leader. They are servant leaders because they follow Jesus. Did not come to be served, but to serve. A leader with inquisitiveness, initiative, and involvement. The Delegate of Leadership from Exodus 18:12-27 helps us to know that we can't do it alone. Jethro's counsel was to delegate authority to others in judging the people while Moses remained a mediator between the people and God. Minor responsibilities were to be given to good men. These men were to have the following traits, many which are similar to the requirements for leadership in the church. To empower the people to share the burden the work is too heavy for you; you cannot handle it alone (Exod. 18:18). The essential for leadership is to get people motivated for the tasks. In the book of Nehemiah, I called it the Nehemiah principles of leadership. I learn that Nehemiah was a man who became consumed with a burden. In his example, we are reminded that whenever God uses a person to accomplish his work, it all begins with a burden. The book reveals that what was going in the heart of Nehemiah was the call of God upon him. How to handle obstacles in leadership. First thing

to do is pray. We must rely on God and respected the opposition and refused to quit. Keep our eye on the big picture. Learn to pick our battle to fight. We must learn to exercise humility when opposition come our way

**biblical passages on leadership: Powerful Leaders?** Marcus Honeysett, 2022-02-17 As understanding and awareness of abuse has grown, many revelations of church leaders abusing their power have come to light. How did the church get here? Is there a way we can address both individual and institutional failings to counter the misuse of power and, more importantly, prevent it in first place? *Powerful Leaders?* exposes and explores how leaders are tempted away from a biblical model of leadership into illegitimate - and in the worst cases abusive - use of authority and power. Director of Living Leadership, a charity that focuses on healthy leadership and church culture, Marcus Honeysett traces how leaders move along a spectrum of healthy to unhealthy uses of power and position and offers practical wisdom for countering and preventing harmful leadership. Drawing on his years of experience in the local church and working with leaders and congregations, Honeysett unpacks how to spot danger signs of abuse in the church and provides advice on what to do if you see or are under unhealthy leadership. He also explores why people don't blow the whistle and encourages critical self-examination in existing leaders to ensure they maintain a healthy use of power - and offers guidance to help leaders improve their skills and move back towards healthy, biblically-based leadership. For anyone concerned about improving safeguarding in the church, *Powerful Leaders?* will prove a valuable resource. It challenges and equips both those in leadership and those in a position to hold leaders accountable, and will empower them to take the necessary steps forward to create healthier church cultures in which everyone can thrive.

**biblical passages on leadership: Women, Leadership, and the Bible** Natalie R. Wilson Eastman, 2014-05-16 What do you believe about women's roles in church leadership? Should women lead groups that include men? Should women preach? Should women be ordained? More importantly, why do you believe what you believe? Plenty of books exist telling women what to think; precious few help women think for themselves, particularly about theological issues. *Women, Leadership, and the Bible* helps women learn to interpret the Bible and discern for themselves answers to their questions about women's roles in the church, along with any other issue they may face in life. In straightforward, plain language, Dr. Natalie Eastman introduces women to a five-step, easy-to-follow process for studying the Bible and interpreting what they study. [NOTE to designer: if there is not enough space on the back cover then cut the following section in italics] This book encourages women that they can think for themselves and can analyze significant theological issues, despite any hesitations they may have, any conflict surrounding an issue, or any lack of theological training. By the time readers finish this book, they will have a biblically defensible, theologically reasoned, and thoroughly discerned understanding of what they believe Scripture says about women's roles and how that understanding could play out within the church. No longer will they feel as though they have nothing to contribute when the subject of women's roles--or any other of life's theological questions--arises.

**biblical passages on leadership:** Christian Egalitarian Leadership Aida Besancon Spencer, William David Spencer, 2020-10-30 Much has been written on servant leadership, but it is not always tied to egalitarian leadership. Sometimes authority and power instead of God's love are presented as the core of the Christian faith. The church at times derails, imitating worldly culture, emphasizing entitlement that relies on an innate or permanent human hierarchy of rank. Responding to today's conflict over leadership, *Christian Egalitarian Leadership* calls us back to its biblical roots: what is Christian egalitarian leadership? Why is it biblical? How does it work? Thoughtful and

devout Christian leaders carefully explain how sharing leadership follows God's intentions and is crucial to implement today. The theoretical and practical ramifications of these concepts are extended to many areas of the Christian life by numerous qualified individuals, women and men of different races and economic and social classes. Chapters overview New Testament teachings, biblical authority, Old Testament and contemporary examples, God's intention at creation, pagan philosophy's influence on Christian hierarchical leadership, multicultural and multi-ethnic leadership in the United States and Africa, marriage, rearing children, equipping youth and laity, church planting, retirement, and missions, from the cradle to the mission field.

**biblical passages on leadership: Servantship** Graham Joseph Hill, 2013-10-10 Servantship is essentially about following our Lord Jesus Christ, the servant Lord, and his mission—it is a life of discipleship to him, patterned after his self-emptying, humility, sacrifice, love, values, and mission. Servantship is humbly valuing others more than yourself, and looking out for the interests and wellbeing of others. Servantship is the cultivation of the same attitude of mind Christ Jesus had: making yourself nothing, being a servant, humbling yourself, and submitting yourself to the will and purposes of the triune God. Since servantship is the imitation of Christ, it involves an unreserved participation in the *missio Dei*—the Trinitarian mission of God. In this pioneering work, sixteen servants describe the four movements of radical servantship. Servantship is the movement 1. from leadership to radical servantship; 2. from shallowness to dynamic theological reflection; 3. from theories to courageous practices; and 4. from forgetfulness to transforming memory. Servantship recognizes, in word, thought, and deed, that whoever wants to become great among you must be your servant, and whoever wants to be first must be your slave—just as the Son of Man did not come to be served, but to serve, and to give his life as a ransom for many.

**biblical passages on leadership: Understanding Christian Leadership** Ian Parkinson, 2020 *Understanding Christian Leadership* offers an examination of a distinctly Christian understanding of

leadership offering a critical appraisal of insights from secular theories of leadership, exploring biblical and other theological insights into the nature and practice of leadership. Whilst arguing for a form of leadership which is widely dispersed and collaborative, the book seeks to explain the distinctive role of leaders within such a leadership economy. It also seeks to establish a proper relationship between sacred and secular leadership thinking, tackling some of the common philosophical and theological reservations to do with leadership discourse, whilst offering a critical framework for discerning the suitability for the Church of different sources of leadership thinking.
