bible scripture for black history: Scripture and Ethics Jeffrey Siker, 1996-12-19 How should the Bible be used in Christian ethics? Although this question has been addressed many times, little attention has gone to how the Bible actually has functioned in constructing theological ethics. In this book, Siker describes and analyzes the Bible's various uses in the theology and ethics of eight of the twentieth century's most important and influential Christian theologians: Reinhold Niebuhr, H. Richard Niebuhr, Bernhard Haring, Paul Ramsey, Stanley Hauerwas, Gustavo Gutierrez, James Cone, and Rosemary Radford Ruether. Of each author Siker asks five related questions: which biblical texts does the author in fact use; in what ways are the texts used; how does the author envision the authority of the Bible; what kind of hermeneutic does the author employ; and what has each author's approach to the Bible yielded in terms of Christian ethics? Siker ends each chapter with a critical evaluation of the various problems and prospects for the author's use of Scripture, and concludes the study with a comparison and contrast of the authors' respective appropriations of

the Sermon on the Mount.

bible scripture for black history: Philosophy of Religion and the African American Experience John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality; whereby the white/Western experience is paradigmatic of humanity at-large. The fact remains that Howard Thurman, James H. Cone and William R. Jones, among others, have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion. Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion. Neglect and ignorance of African American Studies is widespread in the academy. By including chapters on Thurman, Cone and Jones, the present book functions as a corrective to this scholarly lacuna.

bible scripture for black history: *Transforming Scriptures* Katherine Clay Bassard, 2011 Transforming Scriptures is the first sustained treatment of African American women writers' intellectual, even theological, engagements with the book Northrop Frye referred to as the "great code" of Western civilization. bible scripture for black history: The Fortney Encyclical Black History Albert Fortney Jr., 2016-01-15 The Encyclical Black History has been created for the critical and lack of vital Afro-Centric Multi-Curriculum text in urban school systems and is a necessity for African Americans. This book was created with careful and serious attention to biographical names that identifies history, culture as well as biblical characters. The reason why of this encyclical history can be explained with the facts and proof/evidence of the following. The point that has socio-psychological implications at the unconscious as well as the conscious level is the great little white racist lie, seen long enough, becomes the truth; like, portraying a white Jesus Christ who was a black man. Dr. Alvin Poussaint, a Black psychiatrist associated with Harvard University and others have observed and explained the most tragic part of all of this is that the African American has come to form his self image and self-concept on the basis of what white racists have laid down as a guide or prescribed. Therefore, black men and women learn quickly to hate themselves and each other more than their white oppressor. There is almost infinite evidence that racism has left almost irreparable scars on the psyche of Afro-Americans that burden with an unrelenting, painful anxiety that drives the psyche to reach out for a sense of identity and self-esteem. Poussaint and others say that black children, especially learn to hate themselves at very early ages. Studies reveal their preference for white dolls over black ones. One study reported that black children in their drawings tend to show blacks as small, incomplete people and whites as strong and powerful. To conclude, in western color symbolism white is positive and black negative. Many people might ask why the contributions of Africa should be included in American curriculum? Is because they bleach and still rob black history and culture with black pictured as white that lie, leaves us mentally-dead, angry, and without purpose, of where we are going! Human culture is the product of all humanity, not the possession of a single racial or ethnic group. Afro-centric Multicultural educations major aim is to close the gap

between Western ideals of equality, justice and practices that contradict these ideas. Stereotype people of color and people who are poor have just about no opportunities to become free of perspectives that are monoculture, that devalue African culture victimize them mostly having an inability to fully, function effectively in society. Many of these problems could be miraculously remedied with astonishing results if explained of black scientific achievements, which occurred in black Africa. There are also white African Americans living in the U.S.A. besides black African Americans, should make the distinction. Carl Sandburg (1979) related a dialogue between a white American and an American Indian which illustrates the need for multicultural education: The white man drew a small circle in the sand and told the red man, This is what the Indian knows, and drawing a big circle around the small one, this is what is what the white man knows. The Indian then took the stick and swept an immensely big ring around both circles and said, this is where the white man and the red man knows nothing.

bible scripture for black history: Religious Education in the African American Tradition Kenneth H. Hill, 2012-11 Schweitzer's goal in this book is to explore what postmodernity actually means for theology and how theology and the church may respond to its challenges. He focuses on the life cycle as it is changing with the advent of postmodernity, looking sequentially at segments of the life cycle using different lenses: modernity, postmodernity, and responses from church and theology. Schweitzer concludes with a theology of the life cycle.

bible scripture for black history: Black Christology and the Quest for Authenticity John H. McClendon III, 2019-05-03 Black Christology and the Quest for Authenticity: A Philosophical Appraisal constitutes a philosophical inquiry on Black Theology and its attendant Black Christology. Explicitly, the philosophical examination of Black Theology conceptually maps its quest for establishing Black Christology as an authentic form within Christian theology. This text critically expounds on the methodologies and arguments, which guide how Black Theology specifically affirms Black Christology as the definitive paradigm for authentic Christianity. Significantly, the racialized character of Black Theology immediately sets this discourse within the context of philosophy of race. Clearly, the philosophy of race in terms of its substance and scope is continually expanding. Notably, the philosophy of religion in its conceptual association with the African American experience considerably enriches the content of the philosophy of race. Therefore, Black Christology and the Quest for Authenticity: A Philosophical Appraisal stands as a unique contribution to philosophy of race. Summarily, while this book tackles the formidable problem of Christian theological subject matter, nonetheless, the reader must be aware that this is not a work executed methodologically in any theological manner, inclusive of Christian theology. Subsequently, while the object of our investigation substantively remains theological in character, the method of investigation is guided by philosophical inquiry, which is based on secular principles. Furthermore, although, most mainstream works in philosophy of religion, along with theology neglect to exam African American theologians and philosophers, the subject matter of Black Christology substantially facilitates in filling this intellectual void.

bible scripture for black history: *Americans With African Roots Empowered*. El Piper, 2025-08-19 Americans With African Roots Empowered (A'WA'RE™) offers a grounded and insightful exploration of the history and identity of the Hebrew Israelites, tracing their journey from biblical times through centuries of exile, colonization, and cultural erasure. Beginning with King James VI and I, the book examines how his influence shaped the Bible's translation and how this version was used to reinforce imperial agendas. Through careful comparison with ancient texts such as the Ethiopian Bible and analysis of removed or suppressed scriptures, the book reveals how religious doctrine was reshaped to justify colonization and slavery. The transformation of the Hebrew Israelite faith into a tool of European dominance is laid bare, showing how key elements of biblical history were distorted or omitted. Spanning events from the founding of Jamestown to the transatlantic

slave trade, this work connects pivotal historical moments to the ongoing journey of a people whose story has often been hidden. It also explores the cultural endurance and prophetic traditions of the Hebrew Israelites, the evolving role of women, and the spiritual impact of the King James Bible on African-American communities. This is both a historical reexamination and a call to rediscover truth, identity, and legacy in the face of centuries of misrepresentation.

bible scripture for black history: *African Americans and the Bible* Vincent L. Wimbush, 2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and tropes as African Americans. From literature and the arts to popular culture and everyday life, the Bible courses through black society and culture like blood through veins. Despite the enormous recent interest in African American religion, relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible. *African Americans and the Bible* is the fruit of a four-year collaborative research project directed by Vincent L. Wimbush and funded by the Lilly Endowment. It brings together scholars and experts (sixty-eight in all) from a wide range of academic and artistic fields and disciplines—including ethnography, cultural history, and biblical studies as well as art, music, film, dance, drama, and literature. The focus is on the interaction between the people known as African Americans and that complex of visions, rhetorics, and ideologies known as the Bible. As such, the book is less about the meaning(s) of the Bible than about the Bible and meaning(s), less about the world(s) of the Bible than about how worlds and the Bible interact—in short, about how a text constructs a people and a people constructs a text. It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general. Thus *African Americans and the Bible* provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed.

bible scripture for black history: *Word, Like Fire* Valerie C. Cooper, 2012-02-06 Maria Stewart is believed by many to have been the first American woman of any race to give public political speeches. In *Word, Like Fire*, Valerie C. Cooper argues that the religious, political, and social threads of Maria Stewart's thought are tightly interwoven, such that focusing narrowly on any one aspect would be to misunderstand her rhetoric. Cooper demonstrates how a certain kind of biblical interpretation can be a Rosetta Stone for understanding various areas of African American life and thought that still resonate today.

bible scripture for black history: *Oneness Embraced* Tony Evans, 2011-02-01 Black/white relations in the culture at large and in the church in particular continue to be a stain on America's respectable reputation. The church has clearly failed and must seek to function by God's kingdom perspective. In this legacy message, Tony Evans seeks to promote a biblical understanding of the kingdom foundation of oneness by detailing why we don't have it, what we need to do to get it, and what it will look like when we live it. Fully encompassing areas of unity, history, culture, the church and social justice, Evans looks to the scriptures for the balance between righteousness and justice that is crucial for applying in this generation and in training the next. A full section on black church history provides a background and understanding that has often been neglected. Recalling experiences in his own evangelical journey, Evans shares kingdom minded approaches for biblical justice and social restoration. To better glorify God and help heal the persistent racial divide, all

church members would do well to read and learn from Oneness Embraced.

bible scripture for black history: Liberating Black Theology Anthony B. Bradley, 2010-02-03 When the beliefs of Barack Obama's former pastor, Rev. Jeremiah Wright, assumed the spotlight during the 2008 presidential campaign, the influence of black liberation theology became hotly debated not just within theological circles but across cultural lines. How many of today's African-American congregations-and how many Americans in general-have been shaped by its view of blacks as perpetual victims of white oppression? In this interdisciplinary, biblical critique of the black experience in America, Anthony Bradley introduces audiences to black liberation theology and its spiritual and social impact. He starts with James Cone's proposition that the victim mind-set is inherent within black consciousness. Bradley then explores how such biblical misinterpretation has historically hindered black churches in addressing the diverse issues of their communities and prevented adherents from experiencing the freedoms of the gospel. Yet *Liberating Black Theology* does more than consider the ramifications of this belief system; it suggests an alternate approach to the black experience that can truly liberate all Christ-followers.

bible scripture for black history: Theology in the Mode of Monk: An Aesthetics of Barth and Cone on Revelation and Freedom, Volume 3 Raymond Carr, 2024-11-19 This captivating study engages two of the most influential theologians of the twentieth century: Karl Barth, the Swiss Protestant theologian, who constructed his theology "from above" and engaged the powers in the background of Nazi Germany, and James H. Cone, the father of Black Theology in America, who constructed his theology "from below" and confronted white racism—the most intractable issue in America's history. In this three-volume project, Carr employs the aesthetic thinking of the jazz legend Thelonious Monk to reconceptualize, restructure, and advance the theologies of Barth and Cone. In this final volume, Carr appeals to Thelonious Monk's tune "Misterioso" as the analogical framework for exploring the freedom of God as the melodic foundation for black liberation. Monk's mode of musical thinking encourages the jazz artist in us all to play in the mystery of God's freedom as the true ground for living freely within the world of the principalities and powers.

bible scripture for black history: Theology without Words Wayne Morris, 2016-02-17 This book is a study of a Christian theology without words, focussing on theology in the Deaf Community. Deaf people's first and preferred method of communication is not English or any other spoken language, but British Sign Language - a language that cannot be written down. Deaf people of faith attend church on a regular basis, profess faith in God and have developed unique approaches to doing theology. While most Western theology is word-centred and is either expressed through or dependent on written texts, theology in the Deaf Community is largely non-written. This book presents and examines some of that theology from the Deaf Community and argues that written texts are not necessary for creative theological debate, a deep spirituality or for ideas about God to develop.
