craft beer marketing awards: The Craft Beer Revolution Steve Hindy, 2014-04-22 Over the past 40 years craft-brewed beer has exploded in growth. In 1980, a handful of microbrewery pioneers launched a revolution that would challenge the dominance of the national brands, Budweiser, Coors, and Miller, and change the way Americans think about, and drink, beer. Today, there are more than 2,700 craft breweries in the United States and another 1,500 are in the works. Their influence is spreading to Europe's great brewing nations, and to countries all over the globe. In *The Craft Beer Revolution*, Steve Hindy, co-founder of Brooklyn Brewery, tells the inside story of how a band of homebrewers and microbrewers came together to become one of America's great entrepreneurial triumphs. Beginning with Fritz Maytag, scion of the washing machine company, and Jack McAuliffe, a US Navy submariner who developed a passion for real beer while serving in Scotland, Hindy tells the story of hundreds of creative businesses like Deschutes Brewery, New Belgium, Dogfish Head, and Harpoon. He shows how their individual and collective efforts have combined to grab 10 percent of the dollar share of the US beer market. Hindy also explores how Budweiser, Miller, and Coors, all now owned by international conglomerates, are creating their own craft-style beers, the same way major food companies have acquired or created smaller organic labels to court credibility with a new generation of discerning eaters and drinkers. This is a timely and fascinating look at what America's new generation of entrepreneurs can learn from the intrepid pioneering brewers who are transforming the way Americans enjoy this wonderful, inexpensive, storied beverage: beer.

craft beer marketing awards: Producing and Consuming the Craft Beer Movement Wesley Shumar, Tyson Mitman, 2023-03-31 Producing and Consuming the Craft Beer Movement is an ethnographic analysis of the craft beer movement and its rapid development as an industry that articulated a different set of values: celebrating, quality, community, and good taste. This book will provide an excellent foundation for considering craft beer and an entrepreneurial practice that produces other forms of value beyond monetary value. The craft beer movement has been an important movement for thinking about contemporary consumer culture, and how that consumer culture might develop a very different set of values and priorities from those of the dominant consumer culture that is created by large-scale industries focused on the instrumental values of profit and efficiency. Located in one site, the ethnography is situated within the larger context of the rise of digital media, the evolution of cities, and the latest stage of the capitalist marketplace. The book is distinctive as it is ethnographic in its methodology. It is focused on one locale, the

metropolitan area around Philadelphia. Philadelphia, along with Boston, Denver, San Diego, and a few other cities, was a central location for the early development of the craft beer industry. With its interdisciplinary approach, individuals with interests in digital and social media, consumer culture, political economy, ethnography, and contemporary cultural theory will find this an interesting case study of an important industry that developed from the homebrewing movement to become an important craft industry that is now a global phenomenon. This book is directed to a broad range of readers interested in new media, consumer culture, craft, and contemporary capitalist culture. The book embeds the local in the larger historical and political economic context. Readers would include faculty members in communication, media studies, cultural studies, sociology, and anthropology. Students at a graduate and upper level undergraduate level would be interested as well.

craft beer marketing awards: Agritourism, Wine Tourism, and Craft Beer Tourism Maria Giulia Pezzi, Alessandra Faggian, Neil Reid, 2020-07-23 This book delves into the development opportunities for peripheral areas explored through the emerging practices of agritourism, wine tourism, and craft beer tourism. It celebrates the entrepreneurial spirit of people living in peri-urban regions. Peripheral areas tend to be far from urban hubs, providing essential services but also typically suffering from marginalisation and remoteness, despite the access to environmental, cultural, and social resources. In this sense, this book investigates the linkages between local agency and tourism in peripheral areas, the role of existing policies, and the evolving bottom-up practices in fostering local development. The basic aim is to disestablish the dichotomies that often emerge when dealing with issues of rural-urban and/or centre-periphery relationships; innovation vs tradition; authenticity vs mise en scène; agency vs inertia; and social, cultural, economic mobility vs immobility; etc. With focused attention on the possible compliance or conflicting strategies of local actors with the existing policies, the book considers how local actors and communities respond to the implications of peripherality in areas often impacted by marginalising processes. Drawing upon case studies from North America and Europe, this book presents this connection as a global phenomenon which will be of interest to community and economic development planners and entrepreneurs.
