History of the Custom House Maritime Museum

The Custom House Maritime Museum, located in New London, Connecticut, is housed in a historic building originally constructed as a federal custom house in the 19th century. This building played a crucial role in the regulation of maritime trade and customs duties during a period when New London was a thriving port city. The museum's establishment was driven by the New London Maritime Society, which recognized the importance of preserving this architectural landmark and transforming it into a center for maritime history. Over the years, the Custom House has been carefully restored to maintain its original design and structural integrity, providing visitors with an authentic glimpse into the past.

Architectural Significance

The building itself is an outstanding example of 19th-century federal architecture, featuring classic design elements such as granite construction, symmetrical facades, and ornate detailing. Its preservation not only serves as a tribute to the maritime history of New

London but also exemplifies the architectural styles prevalent during the era of its operation. The Custom House is listed on the National Register of Historic Places, underscoring its importance as a historical and cultural asset.

Transition to a Maritime Museum

Following its decommission as a customs facility, the building was repurposed to house the maritime museum. This transition allowed the New London Maritime Society to create a dedicated space for the exhibition and interpretation of New London's maritime legacy. Since its opening as a museum, it has attracted numerous visitors interested in exploring the stories of sailors, shipbuilders, and merchants who contributed to the city's maritime prominence.

Collections and Exhibits

The Custom House Maritime Museum offers a diverse range of collections and exhibits that reflect the broad scope of New London's maritime history. These displays include artifacts from shipwrecks, navigational instruments, maritime art, and documents related to shipping and trade. The museum's collections are curated to provide both historical context and engaging narratives, making them accessible to a wide audience.

Permanent Exhibits

The museum features permanent exhibits that focus on key aspects of maritime life in New London. These include the history of whaling, shipbuilding innovations, and the city's role in coastal and transatlantic trade. Artifacts such as ship models, sailor uniforms, and period photographs enrich these exhibits, offering tangible connections to the past.

Rotating and Special Exhibits

In addition to permanent collections, the museum regularly hosts rotating and special exhibits that explore contemporary maritime topics or highlight specific historical events. These exhibits often include collaborations with other maritime museums and cultural organizations, broadening the scope and appeal of the museum's offerings.

Notable Artifacts

- 19th-century ship logs and charts
- Authentic whaling tools and equipment
- Historic maritime paintings and prints
- Original customs documents and ledgers

- Scale models of famous New London vessels

custom house maritime museum new london maritime society: Art of the Amistad and The Portrait of Cinqué Laura A. Macaluso, 2016-03-23 The Amistad incident, one of the few successful ship revolts in the history of enslavement, has been discussed by historians for decades, even becoming the subject of a Steven Spielberg film in 1997, which brought the story to wide audiences. But, while historians have examined the Amistad case for its role in the long history of the Atlantic, the United States and slavery, there is an oil on canvas painting of one man, Cinqué, at the center of this story, an image so crucial to the continual retelling and memorialization of the Amistad story, it is difficult to think about the Amistad and not think of this image. Visual and material culture about the Amistad in the form of paintings, prints, monuments, memorials, museum exhibits, quilts and banners, began production in the late summer of 1839 and has not yet ceased. *Art of the Amistad and The Portrait of Cinqué* is the first book to survey in total these Amistad inspired images and related objects, and to find in them shared ideals and cultural creations, but also divergent applications of the story based on intended audience and local context. Tracing the revolutionary creation of what art historian Stephen Eisenman calls “a highly individualized, noble portrait of an African man,” *Art of the Amistad and The Portrait of Cinqué* is built around visual and material culture, and thus does not use images merely as illustration, but tells its story through the wide range of images and materials presented. While the *Portrait of Cinqué* seems to sit quietly behind Plexiglass at a local history museum, the impact of this 175-year old painting is palpable; very few portraits from the 19th century—let alone a portrait of a black man—remain a relevant part of culture as the *Portrait of Cinqué* continues to be today. *Art of the Amistad the Portrait of Cinqué* is about the art and artifacts that continue to inform and inspire our understanding of transatlantic history—a journey 175 years in the making.

custom house maritime museum new london maritime society: *Long Island and the Sea* Bill Bleyer, 2019-04-08 For more than five centuries, the waterways surrounding Long Island have profoundly shaped its history. Familiar subjects of lighthouses, shipwrecks and whaling are found alongside oft-forgotten oddities such as Pan-American flying boats landing in Manhasset Bay in the early days of transatlantic flight. From the British blockade and skirmishes during the American Revolution to the sinking of merchant vessels by Germany in World War II, the sea brought wars to these shores. By the later part of the 20th century, Gold Coast millionaires commuted in high-speed yachts to Manhattan offices as the island's wealth grew. Historian Bill Bleyer reveals Long Island's nautical bonds from the Native Americans to current efforts to preserve the region's maritime heritage.

custom house maritime museum new london maritime society: Interpreting Naval History at Museums and Historic Sites Benjamin J. Hruska, 2016-08-09 Interpreting Naval History at Museums and Historic Sites demonstrates the broad appeal of naval themed commemoration, centering on military aspects from both times of war and peace. Transcending place and time, naval history is shaped into public forums for modern day consumption. These occurrences are not limited to just recent history, as can be seen in the celebration of man's long history of transforming bodies of water from barriers into opportunities. In addition, with the modern day nation-state naval history is not just limited to areas near large bodies of water, as seen with landlocked states in the United States sharing in a proud naval tradition. Examples of this included in the book are USS Arizona, BB-39, and USS Missouri, BB-63.) Naval history is just one avenue, with sites marking the history of immigration, engineering technology, and architecture.. Naval history also extends into lighthouses and port facility construction which are the background of a host of U.S. Generals in the U.S. Army with the Army Corps of Engineers, which includes the Robert E. Lee. Using an international approach, the book illustrates the intersection of the historical understanding of one's place and naval traditions. Locating the boundaries, one finds both the depth and breath of the topics linking (and dividing) water and man.
