curtis duncan the family business: *House of Plenty* Carol Dawson, Carol Johnston, 2022-02-24 The epic story of the rise, fall, and redemption of an iconic American restaurant, one of only five in the Fortune 500. Scarred by the deaths of his mother and sisters and the failure of his father's business, a young man dreamed of making enough money to retire early and retreat into the secure world that his childhood tragedies had torn from him. But Harry Luby refused to be a robber baron. Turning totally against the tide of avaricious capitalism, he determined to make a fortune by doing good. Starting with that unlikely, even naive, ambition in 1911, Harry Luby founded a cafeteria empire that by the 1980s had revenues second only to McDonald's. So successfully did Luby and his heirs satisfy the tastes of America that Luby's became the country's largest cafeteria chain, creating more millionaires per capita among its employees than any other corporation of its size. Even more surprising, the company stayed true to Harry Luby's vision for eight decades, making money by treating its customers and employees exceptionally well. Written with the sweep and drama of a novel, *House of Plenty* tells the engrossing story of Luby's founding and phenomenal growth, its long run as America's favorite family restaurant during the post-World War II decades, its financial failure during the greed-driven 1990s when non-family leadership jettisoned the company's proven business model, and its recent struggle back to solvency. Carol Dawson and Carol Johnston draw on insider stories and company records to recapture the forces that propelled the company to its greatest heights, including its unprecedented practices of allowing store managers to keep 40 percent of net profits and issuing stock to all employees, which allowed thousands of Luby's workers to achieve the American dream of honestly earned prosperity. The authors also plumb the depths of the Luby's drama, including a hushed-up theft that split the family for decades; the 1991 mass shooting at the Killeen Luby's, which splattered the company's good name across headlines nationwide; and the rapacious over-expansion that more than doubled the company's size in nine years (1987-1996), pushed it into bankruptcy, and drove president and CEO John Edward Curtis Jr. to violent suicide. Disproving F. Scott Fitzgerald's adage that there are no second acts in American lives, *House of Plenty* tells the epic story of an iconic American institution that has risen, fallen, and found redemption—with no curtain call in sight. Intrigue, mystery, and strategy—all in a historical profile of Luby's Cafeterias. This is a book about an institution we all knew as home—never thinking that the foundation was a business plan destined to work for fifty years. What went wrong? Read on! A must for business schools everywhere, and a fun read for everyone.—Jon Brumley, *Forbes* Entrepreneur of the Year, cofounder and chairman of the Board of Encore Acquisitions Company

curtis duncan the family business: Private foundations Great Britain: Parliament: House of Commons: International Development Committee, 2012-01-20 The International Development Committee reports that private philanthropy is improving the lives of some of the world's poorest people, but the Department for International Development (DFID) must do more to engage private foundations in coordinated global efforts to improve the effectiveness of aid. While private foundations make a huge contribution, concerns have been raised about the transparency and accountability. Foundations should sign up to International Aid Transparency Initiative guidelines

and be brought into global structures to ensure that they coordinate their work with other donors. DFID currently engages with foundations on an ad-hoc basis and the report recommends a more systematic approach to the Department's relationship with private philanthropic organisations. The Committee recognises that DFID officials cannot meet all small foundations on a one-to-one basis, but it believes that the Department should make more efforts to engage with them. A designated contact official for foundations should be established and a DFID minister should hold an annual meeting with groups of smaller foundations. The Department should produce a publication indicating what DFID funding foundations might apply for, and how to apply. DFID should include foundations as fully as possible in future development events and processes, including the High Level Forum on Aid Effectiveness; the forthcoming Rio + 20 UN Conference on Sustainable Development; and discussions of a post-2015 Millennium Development Goal Framework.

curtis duncan the family business: Not Fade Away Not Fade Away John Gribbin, 2012-02-01 Buddy Holly was killed at 22 when the plane he was travelling in crashed on 3 February 1959. Although this was less than two years after Holly's first hit record, Don McLean described this as 'the day the music died.' But Sonny Curtis, Holly's friend and musical colleague, told us that the music didn't die, because 'Buddy Holly lives every time you play rock'n'roll.' Fifty years after Holly's death, his lasting influence is clear; a musical based on his life seems set to run for longer than his lifetime and artists as diverse as Blink 182 and Bob Dylan call him an inspiration. The Beatles chose 'That'll Be the Day' by Buddy's group The Crickets as their first attempt at recording, as well as taking the idea for their name. Clearly, the music didn't die! John Gribbin, an ardent fan since he was twelve, presents this labour of love written in the spirit of Sonny Curtis' lyric, as a celebration of Holly's all too brief life, and as an introduction, for all those not around in 1959, to the man and his astonishing musical legacy. Not Fade Away also includes - uniquely - a full and detailed account of every Holly recording session, which any Buddy fan will devour.
