free online christian therapy: The Psychology of Social Networking Vol.1 Giuseppe Riva, Brenda K. Wiederhold, Pietro Cipresso, 2015-01-01 Using a novel approach to consider the available literature and research, this book focuses on the psychology of social media based on the assumption that the experience of being in a social media has an impact on both our identity and social relationships. In order to 'be online', an individual has to create an online presence - they have to share information about themselves online. This online self is presented in different ways, with diverse goals and aims in order to engage in different social media activities and to achieve desired outcomes. Whilst this may not be a real physical presence, that physicality is becoming increasingly replicated through photos, video, and ever-evolving ways of defining and describing the self online. Moreover, individuals are using both PC-based and mobile-based social media as well as increasingly making use of photo and video editing tools to carefully craft and manipulate their online self. This book therefore explores current debates in Cyberpsychology, drawing on the most up-to-date theories and research to explore four main aspects of the social media experience (communication, identity, presence and relationships). In doing so, it considers the interplay of different areas of psychological research with current technological and security insight into how individuals create, manipulate and maintain their online identity and relationships. The social media are therefore at the core of every chapter, with the common thread throughout being the very unique approach to considering diverse and varied online behaviours that may not have been thus far considered from this perspective. It covers a broad range of both positive and negative behaviours that have now become integrated into the daily lives of many westernised country's Internet users, giving it an appeal to both scholarly and industry readers alike.

free online christian therapy: HOLY SH*T, THEY'RE GONE: Navigating the F*cking Aftermath of Loss Without the Bullsh*t Cassandra Crossno, 2025-03-10 THE BOOK GRIEF DOESN'T WANT YOU TO READ ----- So, they're gone. And now, everything is

fucked. Your entire fucking world just got obliterated. One second, they were here—your person, your anchor, your goddamn reason for breathing—and now, they're just fucking gone. Reduced to memories, ashes, a gaping, screaming HOLE in the fabric of your goddamn existence. The world SHATTERS, doesn't it? One minute they're breathing, laughing, living, and the next... NOTHING. Just a void that swallows everything whole, leaving you choking on the dust of what used to be. Everything you knew is a smoldering crater, a wasteland of what-ifs and never-agains. And the infuriating, soul-crushing reality? The goddamn sun STILL rises. Traffic STILL crawls. People STILL bitch about their lattes. The fucking AUDACITY of the world to keep turning when yours has stopped DEAD. Meanwhile, you're drowning in this soul-crushing, brain-melting, rage-inducing hellscape called grief. People start talking, and 95% of what they say is the most tone-deaf, ignorant, rage-inducing, and straight-up offensive bullshit you'll ever hear in your life. "Oh, they're in a better place." Better place my ass. Their place was right the fuck here, with you. "Everything happens for a reason." Say that again, and you might catch hands. ----- Grief isn't just sadness. It's a goddamn onslaught. It's a neurochemical shitstorm that hijacks your brain, making you forget your own address and put the remote in the fridge. It's a physical assault that leaves you exhausted, nauseous, shaky—like you got hit by a truck and then dragged for miles. You expect the big days to hurt—birthdays, anniversaries, holidays. But it's the tiny, everyday gut-punches that fuck you up the most. Looking at their side of the bed and feeling like the air just got knocked out of your lungs. Seeing their favorite coffee mug. Hearing their laugh in a goddamn dream. Yeah, those. And then there's the pressure—to "move on," to "find meaning," to be some kind of goddamn poster child of grief instead of the broken, furious, drowning mess you actually are. Guess what? You don't have to play by their rules. This is not a soft, hand-holding guide to healing. This is not a collection of gentle affirmations. This is not a "breathe deeply and let go" pile of spiritual bypassing. THIS IS A GODDAMN WAR MANUAL FOR THE SOUL UNDER SIEGE. A brass-knuckled, battle-scarred, no-holds-barred roadmap through the hellscape of grief. This book is going to rip grief open, lay it the fuck out, and force it to look you in the eye. It will not tell you to "move on." It will not pat you on the head and tell you "it gets better." It will tell you the brutal, ugly, completely unfair truth about what it means to keep breathing when the one person who made life worth living isn't here anymore. ----- WHAT'S INSIDE THIS LITERARY GRENADE? □ THE TRUTH, THE WHOLE TRUTH, AND NOTHING BUT THE FUCKING TRUTH No sugarcoating. No silver linings. Just the unfiltered, gut-wrenching reality of loss—the moments when you actually get mad at your person for dying. The way grief makes you feel like a fucking burden. The guilt when you catch yourself laughing for the first time in weeks. The deep, bone-shaking loneliness that makes you feel like you're screaming into a void. □ A BATTLE PLAN FOR YOUR BRAIN Grief isn't just an emotion. It's a complete biological hijacking. Your brain is in full-scale fucking mutiny. It's chemically rewiring itself to handle trauma, which is why you can't concentrate, why you forget what day it is, why food tastes like cardboard, why you feel like you're losing your goddamn mind. Welcome to grief brain. It's real. It's brutal. And it's a fucking menace. □ A FIELD GUIDE TO IDIOTS & THEIR BULLSHIT People will say some of the stupidest shit you've ever heard in your life. From the toxic positivity crowd ("Just be grateful for the time you had!") to the spiritual bypassers ("It was their time" / "The universe has a plan"), we're calling out every category of grief-related dumbassery and giving you the arsenal you need to shut them the fuck up. □ A RAGE ROOM IN BOOK FORM If you're pissed off at the world, you're not crazy. You're grieving. And grief isn't just crying into a pillow—it's an all-out war against reality. You're mad at fate, at the universe, at people who still have what you lost. And yes, you're probably mad at your person, too. That's normal. That's grief. □ PERMISSION TO BE A BADASS Forget "moving on gracefully." Here, you get the green light to flip off the world, throw things, scream into the void, and grieve however the hell you need to, whenever you need to, for as long as you need to. There is no deadline on your grief, and anyone who tells you otherwise can go to hell. □ NAVIGATING THE GRIEF MINEFIELD From surviving the first everything without them (first holiday, first birthday, first Tuesday that just feels fucking impossible) to shutting down clueless assholes who think they're helping, this book arms you with the tools you need to exist in a world

that suddenly doesn't make a goddamn lick of sense. □ A WHOLE LOT OF "I SEE YOU" Because in your darkest moments, you don't need a grief expert. You need someone who knows what it's like to watch their fucking world burn and remember all over again that they're never coming back. Someone who's still standing somehow. Someone who won't tell you how to feel but will stand in the wreckage with you, middle fingers up, ready to take on grief like the soul-stealing motherfucker it is. ----- WHY THE FUCK DO YOU NEED THIS BOOK? If you've ever wanted to punch someone who said, They're in a better place, THIS IS YOUR BIBLE. If you're drowning in platitudes and useless advice from people who haven't experienced the soul-crushing pain of loss, THIS IS YOUR LIFE RAFT. If you've fantasized about telling the universe to go fuck itself, THIS IS YOUR ANTHEM. If you're teetering on the edge of sanity and desperately searching for something, anything, to help you feel less alone, THIS IS YOUR COMPANION. If you're ready to rage, fight, claw your way back to the land of the living, one brutal, messy step at a time, THIS IS YOUR GODDAMN WEAPON. THIS ISN'T JUST A BOOK; IT'S A GODDAMN CALL TO ARMS. Here's what they don't tell you: you're never going to be the same. Grief doesn't go away. You don't get over it. You learn to live with the absence. You learn to breathe again, step by step. You learn how to carry them forward with you—not in some cheesy "they're watching over you" kind of way, but in the real, raw, everyday moments where their absence is a weight you learn to bear. ----- SO, WHAT THE FUCK NOW? Now, we get to fucking work. Grief is a feral beast, and it will hunt you down. You can't run from this pain. You can't bury it, drink it away, fuck it away, work it away. The longer you fight it, the harder it fucking hits. The only way out is through. And this book? It's coming with you. This isn't some soft, hand-holding, "it gets better" bullshit. This is about dragging yourself through the fire, one brutal, ugly, soul-crushing step at a time, until you realize grief didn't kill you, even though it sure as fuck tried. It's about facing the cruelest reminders of their absence, from the mundane to the catastrophic, and learning how to survive these heart-punch moments without letting them pull you into an abyss. It's about giving yourself credit for just existing—because sometimes, that's the hardest fucking thing you'll ever do. One day, you'll wake up, and the first thing you feel won't be pain. One day, you'll laugh without feeling guilty about it. One day, you'll realize that you are still fucking here. And that means you are not fucking done yet. There is a shitload of work ahead of you. We're gonna torch some lies. Make a fucking mess. Get way too loud, then turn that mess into something raw, beautiful, and all yours. So, grab your weapon, steel your nerves, and prepare to fight for your goddamn life. Let's begin.

free online christian therapy: Called by God: Discernment and Preparation for Religious Life Rachael Marie Collins, 2017-08-01 In Called by God: Discernment and Preparation for Religious Life, Rachael Marie Collins provides an overview of the spiritual life—both its joys and its challenges—and guides women as they discern whether they are called to be religious sisters or nuns. In a series of letters written by the author to a trusted friend discerning whether to enter religious life, Called by God explores both discernment and spirituality. The key to discernment, Collins argues, is to prepare for religious life by entering deeply into a life of prayer and sacrifice so that one experiences and begins to understand the "work" of a religious before entering the convent. Called by God draws heavily on the wisdom of great Catholic women such as Teresa of Ávila, Thérèse of Lisieux, Zélie Martin, Edith Stein, Teresa of the Andes, Elizabeth of the Trinity, Miriam

Teresa Demjanovich, Elizabeth Leseur, and Caryl Houselander, among others. Women discerning a vocation will benefit immensely from the discussions about the difference between religious life and marriage, the nature of a vocation, the supernatural superiority of religious life, and spiritual motherhood in *Called by God*.

free online christian therapy: Addiction and Christian Counseling Dr. Florence Akinwumiju ND DNH Ph.D., 2023-02-09 The purpose of this book is to help people overcome addictions to intoxicants and cope with life's stresses which make up the substance abuse counselor's core mission. Counselors start by evaluating an addicted person's physical and mental behaviors, which is the first step in writing an appropriate treatment plan. Depending on the complexity of the problem, a counselor may call in other professionals, such as psychiatrists and social workers. Job prospects are considered greater than average because of a growth in court-ordered referrals to treatment programs. Addiction is an irresistible urge to perform an irrational act and compulsion to dependence. There are 4.2 million pornographic websites, 68 million search engine requests, 42.7 percent of Internet users viewing pornography, and 100,000 websites of pornography. Religious and spiritual features buffer individuals from addictive and risky behaviors. This suggests that religiosity may play a role in beliefs about and the use of pornography. This book will help counselors and experts in the field of Christian counseling education and the interactions they have with clients. Simultaneously, there is certainly room for improvement in the training and preparation of counselors. The purpose of this book is to introduce the topic of training satisfaction, attitude toward pornography, addiction counseling self-efficacy, and the comfort of counselors in discussing sexual issues with clients, particularly Internet pornography.

Professors and readers alike have found Coon's text not only interesting and easy to read, but exceptionally easy to learn from. Built into every chapter are a number of features that help readers grasp major concepts, develop a broad understanding of psychology's diversity, and see for themselves how psychology relates to the practical problems of everyday life. Professors and readers appreciate the way that Dennis Coon speaks to his them. His delight in the subject matter of psychology and in his own readers' curiosity, insights, imagination, and interest is apparent on every page. While Coon reports the latest research, the latest controversies, and the key scientific content important to the course, he does so with a sense of humor and an awareness of readers' learning needs that set his book apart from any other in the field. In a course where professors are frequently confronted by readers who haven't actually read their textbooks, Coon's text offers a solution. Coon effectively presents an approach that involves readers and gets them hooked on psychology and eager to read on. Because readers become actively involved with the material, they develop a basic understanding of psychology that they take with them into their future courses and careers. Dennis Coon was the first textbook author to make effective use of cognitive principles to teach psychology by building each chapter around the SQ3R study-reading formula: survey, question, read, recite, and review. Because SQ3R has been a part of the underlying structure of the text from its inception, this proven method works better in Coon's text than in any of the many texts that have emerged over the years that have incorporated the SQ3R structure as an add-on.

Their spiritual journey shows how one may grow through this devastating experience.
