free teacher breakfast mcdonald s: Table for One Yun Ko-eun, 2024-04-09 An office worker who has no one to eat lunch with enrolls in a course that builds confidence about eating alone. A man with a pathological fear of bedbugs offers up his body to save his building from infestation. A time capsule in Seoul is dug up hundreds of years before it was intended to be unearthed. A vending machine repairman finds himself trapped in a shrinking motel during a never-ending snowstorm. In

Yun's stories focus on solitary city dwellers, and her eccentric, often dreamlike humor highlights their sense of isolation. Acquainting the English-speaking audience with one of South Korea's breakout young writers, *Table for One* presents a parade of misfortunes that speak to all readers in their unconventional universality.

While commercialism has existed in our schools for over a century, the corporate invasion of our schools reached unprecedented heights in the 1990s and 2000s after two decades of federal funding cuts and an increasing tendency to apply business models to the education system. Constant cutbacks have left school trustees, administrators, teachers, and parents with difficult decisions about how to finance programs and support students. Meanwhile, studies on the impact of advertising and consumer culture on children make clear that the effects are harmful both to the individual child and the broader culture. *Captive Audience* explores this compelling history of branding the classroom in Canada.

This vibrant and compelling book presents material drawn from that competition, offering a unique snapshot of perceptions of schools by those who matter most - the pupils. In 2011, The Guardian re-launched the competition and this updated 2nd edition reflects upon the next generation of reflections and summarises, through the children's insightful commentary, what has changed over the intervening decade. The book is wonderfully illustrated by children's essays, stories, poems, pictures and plans. Placing their views in the centre of the debate, it provides an evaluation of the democratic processes involved in teaching and learning by: • identifying consistencies in children's expressions of how they wish to learn • highlighting particular sites of 'disease' in the education system today • illustrating how the built environment is experienced by today's children • posing questions about the reconstruction of teaching and learning for the twenty-first century. *The School I'd Like: Revisited* offers a powerful perspective on school reform and is essential reading for all those involved in education and childhood studies, including teachers, advisors, policy-makers, academics, and anyone who believes that children's voices should not be ignored.

The queer people of its cities, farms, and suburbs do not exist only to serve as "blue dots" within "red states." Every story about a kid from Iowa who steps off the bus in Manhattan, ready to "finally" live, is a story about a kid who was already living in Iowa. *Sweeter Voices Still* is about that kid and has been written by people like them. This collection features queer voices you might recognize—established and successful writers and thinkers—and others you might not—people who don't think of themselves as writers at all. You'll find sex, love, and heartbreak and all the beings we meet along the way: trees, deer, cicadas, sturgeon. Most of all, you'll find real people. If you're seeking fully realized stories about the nuanced, joyous complexity of queer identity in the Midwest, *Sweeter Voices Still* is the book for you. "A marvelous ode to humanity and its passions [and] a reminder that LGBTQ individuals and communities (and those who exist outside the confines of the acronym) have always kept the Heartland beating." —Little Village Magazine Includes a foreword by Northwestern University professor Doug Kiel
