free social skills workbook: Waging Peace David Hartsough, Joyce Hollyday, 2014-11-01 David Hartsough knows how to get in the way. He has used his body to block Navy ships headed for Vietnam and trains loaded with munitions on their way to El Salvador and Nicaragua. He has crossed borders to meet "the enemy" in East Berlin, Castro's Cuba, and present-day Iran. He has marched with mothers confronting a violent regime in Guatemala and stood with refugees threatened by death squads in the Philippines. Waging Peace is a testament to the difference one person can make. Hartsough's stories inspire, educate, and encourage readers to find ways to work for a more just and peaceful world. Inspired by the examples of Mahatma Gandhi and Martin Luther King Jr., Hartsough has spent his life experimenting with the power of active nonviolence. It is the story of one man's effort to live as though we were all brothers and sisters. Engaging stories on every page provide a peace activist's eyewitness account of many of the major historical events of the past sixty years, including the Civil Rights and anti-Vietnam War movements in the United States and the little-known but equally significant nonviolent efforts in the Soviet Union, Kosovo, Palestine, Sri Lanka, and the Philippines. Hartsough's story demonstrates the power and effectiveness of organized nonviolent action. But Waging Peace is more than one man's memoir. Hartsough shows how this struggle is waged all over the world by ordinary people committed to ending the spiral of violence and war.

free social skills workbook: Direct Social Work Practice Dean H. Hepworth, Ronald H. Rooney, Jo Ann Larsen, 2002 This text prepares social work students for effective work in the field through proven learning experiences that are as close to real-life practice as they can get from a textbook. The book has long been praised for the rigor of its theory. It is regarded as the classic and best source for helping students learn direct social work practice skills. The book integrates the major theories and skills that direct social work practitioners need to understand and master. Consisting of four parts, the book begins by identifying the mission of social work, its values, and knowledge base. The authors then differentiate generalist from direct practice and explore roles of direct practitioners. Common elements amongst diverse theorists are then examined while key intervention strategies and various client population and practice settings are presented. Specifically, Part One provides the foundational/values and knowledge base material; Part Two is devoted to the beginning phase of the helping process; Part Three addresses the middle phase (goal attainment strategies); and Part Four clarifies the termination phase of direct practice.
