hymns for black history month: Mestizo Democracy John Francis Burke, 2003-11-03 It can

come as no surprise that the ethnic makeup of the American population is rapidly changing. That there are political repercussions from these changes is also self-evident. How the changes can, must, and should alter our very understanding of democracy, though, may not be obvious. Political theorist John Burke addresses these issues by offering a “mestizo” theory of democracy and tracing its implications for public policy. The challenge before the United States in the coming century, Burke posits, will be to articulate a politics that neither renders cultures utterly autonomous from each other nor culminates in their homogeneous assimilation. Fortuitously or ironically, the way to do this comes from the very culture that is now necessitating the change. Mestizo is a term from the Mexican socio-political experience. It means “mixture” and implies a particular kind of mixture that has resulted in a blend of indigenous, African, and Spanish genes and cultures in Latin America. This mixture is not a “melting pot” experience, where all eventually become assimilated; rather, it is a mixture in which the influences of the different cultures remain identifiable but not static. They all evolve through interaction with the others, and the resulting larger culture also evolves as the parts do. Mestizaje (the collective noun form) is thus process more than condition. John Burke analyzes both American democratic theory and multiculturalism within political theology to develop a model for cultivating a democratic political community that can deal constructively with its cultural diversity. He applies this new model to a number of important policy issues: official language(s), voting and participation, equal employment opportunity, housing, and free trade. He then presents an intensive case study, based on a parish “multicultural committee” and choir in which he has been a participant, to show how the “engaged dialogue” of mestizaje might work and what pitfalls await it. Burke concludes that in the United States we are becoming mestizo whether we know it or not and whether we like it or not. By embracing the communitarian but non-assimilationist stance of intentional mestizaje, we can forge a future together that will be not only greater than the sum of its parts but also freer and more just than its past.

hymns for black history month: Black and Catholic Tia Noelle Pratt, 2025-09-01 Black and Catholic documents the exclusion, erasure, and systematic racism faced by Black Catholics, filling an essential gap in both Catholic and Black history. In the storied history of the U.S. Catholic community, there is a long-standing myth held by Catholics and non-Catholics alike that there are no Black Catholics. In this deeply researched and compelling book, Tia Noelle Pratt debunks this myth and brings forward the religious experiences and culture of Black Catholics, filling a void in the literature of both U.S. Catholicism and African American religion. She identifies the nature and ramifications of systemic racism on American Catholicism and how that marginalization impacts Black Catholic identity. Building on her extensive research, Pratt amplifies the voices and experiences of Black Catholics through original interviews and by sharing the story of St. Peter Claver, Philadelphia's first Black Catholic church. Black and Catholic also explores the ways that liturgy and music can build community, celebrate individuality, and resist racism. Black and Catholic is an essential book that centralizes the Black Catholic community, revealing the heartache of racism and discrimination, the comfort drawn from the strength of generations of believers, and the celebration from combining the music and traditions of African American religious experiences with the belief and rituals of Roman Catholicism.

In *Tears We Cannot Stop*, a provocative and deeply personal call or change, Dyson argues that if we are to make real racial progress, we must face difficult truths, including being honest about how Black grievance has been ignored, dismissed, and discounted. In the tradition of James Baldwin's *The Fire Next Time*—short, emotional, literary, powerful—this is the book that all Americans who care about the current and long-burning crisis in race relations need to read. I read it and said amen." —Stephen King "One of the most frank and searing discussions on race . . . a deeply serious, urgent book, which should take its place in the tradition of Baldwin's *The Fire Next Time* and King's *Why We Can't Wait*." —The New York Times Book Review

hymns for black history month: American Parishes Gary J. Adler, Tricia C. Bruce, Brian Starks, 2019-07-02 Parishes are the missing middle in studies of American Catholicism. Between individual Catholics and a global institution, the thousands of local parishes are where Catholicism gets remade. American Parishes showcases what social forces shape parishes, what parishes do, how they do it, and what this says about the future of Catholicism in the United States. Expounding an embedded field approach, this book displays the numerous forces currently reshaping American parishes. It draws from sociology of religion, culture, organizations, and race to illuminate basic parish processes, like leadership and education, and ongoing parish struggles like conflict and multiculturalism. American Parishes brings together contemporary data, methods, and questions to establish a sociological re-engagement with Catholic parishes and a Catholic re-engagement with sociological analysis. Contributions by leading social scientists highlight how community, geography, and authority intersect within parishes. It illuminates and analyzes how growing racial diversity, an aging religious population, and neighborhood change affect the inner workings of parishes. Contributors: Gary J. Adler Jr., Nancy Ammerman, Mary Jo Bane, Tricia C. Bruce, John A. Coleman, S.J., Kathleen Garces-Foley, Mary Gray, Brett Hoover, Courtney Ann Irby, Tia Noelle Pratt, and Brian Starks
