i like my teacher because: An American Conglomeration Rodd Smith, 2022-11-07 I enjoy reading autobiographies, history, novels, etc., but leisure readers became a novelty for me to pass the time and relax. If you don't want to get into a novel or an autobiography, if you want short reads, this is the book for you. I started this gathering of resources for this book back in the early '90s. My passion for humor, history, patriotism, ethics, morals, wit, wisdom, reality, and knowledge became a goal for me to form topics that interested the common reader without the political influence found in other writings. There are times that you have time in waiting--waiting for appointments, car maintenance, doctor appointments, your child at school pickup, whatever type of waiting, enjoy a leisure reader. My favorite was Reader's Digest; I would go straight to the Humor section. I had no interest in the advertising magazines; they brought no ease of mind and relaxation that humor brings to you as an escape from reality when you need it, especially at whatever waiting occasion it may be. For over twenty-plus years, and still today, I have gathered an assortment of reading enjoyment I would love to share with you. This book may be more related to the baby boomer era, but I think all will enjoy. It brings the old and new together in a fashionable outline of topics and categories. I figure it is time to share what I have resourced in the last two decades. A conglomeration of materials gathered from many sources into an organized whole to appease your appetite for ease of reading and remain distinct entities. Reading gives us some place to go when we have to stay where we are. We don't create a fantasy world to escape reality; we create it to be able to stay. I wanted to take you back to the good old days yet keep you up to date with laughter, knowledge, and peacefulness away from the grinding days that we are today. I hope that this American Conglomeration brings you escape at times when you needed that escape and some knowledge you probably didn't want to know but was interesting. A masterpiece refers to a creation that has been given much critical praise, especially one that is considered the greatest work of his/her outstanding creativity and skill. That is not me; I just want you to enjoy the anthology of the content in this book. You decide for yourself.

i like my teacher because: *The Urban Ethnography Reader* Mitchell Duneier, Philip Kasinitz, Alexandra Murphy, 2014-01-16 Urban ethnography is the firsthand study of city life by investigators who immerse themselves in the worlds of the people about whom they write. Since its inception in the early twentieth century, this great tradition has helped define how we think about cities and city dwellers. The past few decades have seen an extraordinary revival in the field, as scholars and the public at large grapple with the increasingly complex and pressing issues that affect the ever-changing American city—from poverty to the immigrant experience, the changing nature of social bonds to mass incarceration, hyper-segregation to gentrification. As both a method of research and a form of literature, urban ethnography has seen a notable and important resurgence. This renewed interest demands a clear and comprehensive understanding of the history and development of the field to which this volume contributes by presenting a selection of past and present contributions to American urban ethnographic writing. Beginning with an original introduction highlighting the origins, practices, and significance of the field, editors Mitchell Duneier, Philip Kasinitz, and Alexandra Murphy guide the reader through the major and fascinating topics on which it has focused -- from the community, public spaces, family, education, work, and recreation, to social policy, and the relationship between ethnographers and their subjects. An indispensable guide, *The Urban Ethnography Reader* provides an overview of how the discipline has grown and developed while offering students and scholars a selection of some of the finest social

scientific writing on the life of the modern city.

i like my teacher because: *The Doors that God Opens* Dr. Elizabeth Small, 2019-03-19 *The Doors that God Opens* tells the story of a woman, who from at birth displayed resilience, strength, and determination. However, she didn’t do it by herself, even though she didn’t know it yet, God was truly her compass and guide. She had the unconditional love not only from God but from her mother along with the faith and prayers of her grandmother enabling her to learn, develop, and apply these traits to overcome so many obstacles and adversities. Despite being abused as a baby, getting pregnant at 16, and losing her best friend, Dr. Small didn’t let that become her story. She used her the support system, on earth and in heaven and gave her life to Christ and let God guide her life. She also used her resilience, strength, and determination with all the lessons she learned along the way from her family, the military, and more to open the doors that God had for her and truly live the life that God planned for her bringing her to places that she couldn’t even dream of as a child. No matter where or how you start if you can use resilience, strength, determination, and most importantly God, then there is no limit to where you can go.

i like my teacher because: *Communicating Social Justice in Teacher Education* Aubrey Huber, 2021-11-10 Evolving out of ethnographic fieldwork, this text examines how ideas of social justice are articulated and communicated by pre-service teachers and graduate teaching assistants in the US. By positing the concept of help as a central tenet of social justice within teacher education, this volume offers a unique performative analysis of how the concept is communicatively constituted in teacher education and training. Using a social justice framework, the book examines the ways in which new teachers contend with their identities as educators, and demonstrates how these communicative performances influence pre-service and new teachers’ perceptions of their role, as well as their responsibility to engage with social justice and critical approaches in the classroom. This text will benefit researchers, academics, and educators in higher education with an interest in teacher education, critical communication studies, and the sociology of education more broadly.

Those specifically interested in teacher training, mentoring, and social justice in the classroom will also benefit from this book.
