i have relationships with women: Women in Relationships with Bisexual Men Maria Pallotta-Chiarolli, 2016-03-08 Framed by a comprehensive review of international research,

literature, and film, this book is an intimate journey into the experiences and insights of 79 Australian women in relationships with bisexual men. It takes us into the daily lives, sexual intimacies, and families of MOREs (mixed-orientation relationships) that span the gamut from extremely oppressive experiences with bi-misogynist men to extremely liberating with bi-profeminist men. Aged 19 to 65, the women are in monogamous, open, and polyamorous relationships with bisexual-identifying and/or bisexual-behaving men. The women themselves are bisexual, lesbian, heterosexual, while others refuse to categorize their own sexualities. The book addresses the discovery or disclosure of the man's bisexuality, how the relationships work and where they flounder, how the partners negotiate and establish 'new rules' and boundaries to maintain their relationship, and the impact of class, rural/urban setting, ethnicity, indigeneity, race, religion, and education on these relationships. But this book isn't only about MOREs. The research, revelations and reflections in this book tell us much about current and shifting global constructions and understandings of intimate relationships, sexual desires and love, and the socio-cultural representations and labeling of genders and sexualities.

i have relationships with women: Sex, Gender and Substance Use Lorraine Greaves, 2021-04-14 "Sex, Gender and Substance Use" describes how both biological and social factors affect people's use of substances. There is a lot of research carried out on substance use, prevention and treatment in which sex and gender are missing. This book describes the concepts of sex and gender, what they mean and why including them in substance use research, practice and policy is vital. Substances such as alcohol, drugs, nicotine, and tobacco all have differential effects on females and males. Social and cultural gendered factors affect how women and men react to prevention, treatment and policies. The book includes numerous examples of how sex- and gender-sensitive research can increase our understanding and improve prevention and treatment, and why striving for gender-transformative substance use practice and research remains a gold standard.

i have relationships with women: Women's Interpersonal Conflicts With Female Coworkers: A Path To Resolution Dr. Myra G. Jacob, 2022-05-30 This book is about the challenges women face when they have interpersonal clashes with female coworkers based on mutual dislike or differences in personal style, attitudes, or preferences. The many conversations that were held with women across the U.S. illustrate why women often find it so difficult to properly handle these types of disputes, and the actions they believe are necessary to resolve them effectively. This book presents women's personal stories in their own words about challenging interpersonal conflicts with female coworkers, how they handled the situation, and the lessons they learned. Women's ability to resolve tough interpersonal conflicts with other women at work is crucial. Why? Because research has shown that people tend to believe that women's interpersonal conflicts with female coworkers are more problematic than those of men with male coworkers. As a result, that creates the general perception that women do not work well together. In their personal stories, women share the important lessons they learned as well as their top dos, don'ts, and constructive tips for dealing with interpersonal conflicts with female coworkers. Thanks to the many in-depth conversations with women across the U.S., this book offers an effective model consisting of key steps that women believe are necessary to successfully resolve interpersonal conflicts. By using the conflict resolution model that evolved from the research conducted for this book, women can ensure that both they and their colleagues feel heard, no grudges will be held, and the conflict will be over for good. Not only does this model work for women, but it can also work for anyone.

i have relationships with women: Cupid's Knife: Women's Anger and Agency in Violent Relationships Abby Stein, 2013-11-12 Much domestic violence literature has called attention to the fact that women's material needs for shelter, daycare, employment, and legal protection may render them helpless to leave toxic relationships. Yet, even with the provision of these, many women remain tightly wound in their abusers' embrace. In Cupid's Knife: Women's Anger and Agency in Violent Relationships, Abby Stein draws on the gripping narratives of physically and emotionally abused women to illuminate how splitting off their own aggression undermines women's agency, making it almost impossible for them to leave violent partners. Psychology, with its focus on 'managing' men's

anger in violent relationships, has had little to offer in the way of substantive critical work with women on the identification, integration and constructive use of a range of darker emotions typically labelled as antithetical to the norms for female behaviour. In this book, Abby Stein shows that although a number of psychological processes that contribute to the intractability of abusive relationships have been identified – such as trauma bonding and learned helplessness – their recognition has offered no clinical pathway out of the abyss. Stein suggests that our attention to other aspects of the internal world, the relational framework, and the cultural context in which both operate, may be more useful than current interventions in determining individual treatments that break the oft-cited 'cycle of violence'. More globally, *Cupid's Knife: Women's Anger and Agency in Violent Relationships* jumpstarts a provocative conversation about how female aggression can be repurposed as a catalyst for social change. It will be essential reading for psychoanalysts, psychologists, psychiatrists, sociologists, criminologists, students and the lay reader with an interest in clinical treatment, interpersonal psychoanalysis, domestic violence, gender roles, dissociation and aggression.

i have relationships with women: Sex Role Attitudes and Cultural Change I. Gross, J. Downing, A. D'Heurle, 1982-02-28 The initial impetus for this volume was the occasion of the World Congress for Mental Health held in Vancouver, British Columbia in 1977. The theme of that congress was priorities in mental health. The keynote speaker Mrs. Rosalynn Carter, wife of the then President of the United States, focused attention on the necessity for an international perspective in understanding priorities for mental health. Without exception subsequent speakers echoed the sentiments Mrs. Carter expressed, that the first priority for mental health was that of children. For many participants the concern for children was translated not only into techniques for treatment but more importantly into broadening the approaches to prevention. One theme emerged which has begun to be addressed around the world - that of the cultural and developmental implications of sex role stereotyping for mental health. This topic proved to be the touchstone for many issues related both directly and indirectly to mental health. Among the most prominent concerns expressed were those for the effects on careers, the learning environment and relations between the sexes which stem from stereotyped attitudes concerning appropriate sex role behavior. The consensus of the participants was to urge the directorate of the congress to continue this topic at the next World Congress. This was a particularly appropriate content for the next World Congress, since 1979 was the International Year of the Child.

i have relationships with women: Familicidal Hearts Neil Websdale, 2010-02-10 Oscar, physically and sexually abusive, stabbed his partner and two stepdaughters to death, buried the bodies, and fled the state with his two younger children. Paul, a respected investment banker, donned a Halloween mask and shot his wife and two children before turning the gun on himself. What drives individuals as different as Oscar and Paul to kill their families? Why does familicide appear to be on the rise? In *Familicidal Hearts*, award-winning author and sociologist Neil Websdale

uncovers the stories behind 196 male and 15 female perpetrators of this shocking offense, situating their emotional styles on a continuum, from the livid coercive to the civil reputable. With highly detailed and riveting case studies, Websdale explores the pivotal roles of shame, rage, fear, anxiety, and depression in the lives and crimes of the killers. His analysis demonstrates how internal emotional conflict, against a backdrop of societal pressures, is at the root of familicide, challenging the widely accepted argument that murderers kill family members to assert power and control. Websdale contends instead that most perpetrators struggle with intense shame, many sensing that they failed to live up to the demands of modern gender prescriptions, as fathers and lovers, wives and mothers. What emerges is a compelling theory about the haunting effects of modern emotional struggles on perpetrators, controlling and upstanding alike. Captivatingly written and expertly researched, this provocative book weaves a gripping tale of modern-era haunted hearts. Blending the social, the historical, and the emotional into a new way of making sense of a horrific crime, *Familicidal Hearts* is a provocative meditation on gender roles, social forces, and modern life itself.

Challenging the conventional picture of the post-war decades as years of austerity and conservative femininity, this book traces the emergence of a vibrant lesbian social scene in Britain, centred on the metropolitan nightclubs of post-war London, but also developing across the country, through lesbian magazines and social organisations. This fascinating book brings to life the rich history of post-war lesbian culture for the scholarly and general reader alike.

i have relationships with women: *Intertwined* Rebecca Kormos, 2024-04-30 Winner of the Studs and Ida Terkel Prize A powerful argument that greater inclusion of women in conservation and climate science is key to the future of the planet Women are disproportionately impacted by climate change—floods, droughts, and extreme temperatures overwhelmingly affect women in the short and long term. In some cases, women make up almost 90 percent of casualties during dangerous climate events, and the majority of those displaced in the aftermath are women. Despite this disparity, women are underrepresented at every level of decision-making about the future of our planet: only 24 percent of CEOs in nonprofit conservation and around one-third of the representatives in national and global climate negotiating bodies have been women. In *Intertwined*, writer and wildlife biologist Rebecca Kormos elevates the voices of women working to prevent the climate crisis, weaving together their stories to make a powerful case for why women are essential to changing our current trajectory toward catastrophic global warming and environmental degradation. Kormos argues that empowering women is one of the most important solutions to climate change and biodiversity loss: women's leadership and equal representation is linked to lower CO2 emissions, better forest management, better land protection, less land grabbing, and fewer conflicts over resources. For readers of *All We Can Save* and *Braiding Sweetgrass*, Kormos joins the ranks of recent breakthrough efforts to showcase women's voices in the movement to combat climate change. Kormos takes this endeavor one step further with a global, intersectional narrative of how women and gender nonconforming individuals are doing the crucial work at the local and national levels to reframe how

we think about environmental activism. Ultimately, *Intertwined* proves that climate justice is inextricable from gender equality.

i have relationships with women: *The Sexual Politics of Gendered Violence and Women's Citizenship* Suzanne Franzway, Nicole Moulding, Sarah Wendt, Carole Zufferey, Donna Chung, 2018-11-28 The challenge of violence against women should be recognised as an issue for the state, citizenship and the whole community. This book examines how responses by the state sanction violence against women and shape a woman's citizenship long after she has escaped from a violent partner. Drawing from a long-term study of women's lives in Australia, including before and after a relationship with a violent partner, it investigates the effects of intimate partner violence on aspects of everyday life including housing, employment, mental health and social participation. The book contributes to theoretical explanations of violence against women by reframing it through the lens of sexual politics. Finally, it offers critical insights for the development of social policy and practice.

i have relationships with women: *Reconsidering Gender* Myk Habets, Beulah Wood, 2011-01-01 Questions related to the issue of gender remain insufficiently acknowledged and explored in contemporary theological literature. These issues form the basis of significant unresolved tensions among evangelicals, as evidenced in debates over the nature of the Trinity, Bible translation, church practice, choice of language, mission leadership, decision-making in homes, and parenting, to name but a few examples. The essays in this volume are not meant to provide a monolithic evangelical theology of gender, but rather to provide evangelical perspectives surrounding the topic of gender. To further this aim, each of the main essays is followed by a formal response with an attempt at a concise and lucid perspective on the essay and pointers to further areas for investigation. Some contributors are complementarian while others are egalitarian, although who is what is left to the discerning reader. Regardless of one's position on the issue, all will benefit from the contributors' commitment to the further exploration of gender issues from the perspective of a broadly conceived evangelicalism.

i have relationships with women: *Modern Misogyny* Kristin J. Anderson, 2015 *Modern Misogyny* explores the landscape of popular culture and politics, emphasizing relatively recent moves away from feminist activism to individualism and consumerism where self-empowerment represents women's progress. It also explores the retreat to traditional gender roles after September 11, 2001. It interrogates the assumption that feminism is unnecessary, that women have achieved equality, and therefore those women who do insist on being feminists want to get ahead of men. Finally, it takes a fresh look at the positive role that feminism plays in today's post-feminist era, and how feminism does and might function in women's lives. Post-feminist discourse encourages young women to believe that they were born into a free society, so if they experience discrimination, it is an individual, isolated problem that may even be their own fault. *Modern Misogyny* examines that rendering of feminism as irrelevant and as the silencing and marginalizing of feminists.
