imran khan speech today live: Populist Discourse in Pakistani Politics Fizza Batool, 2025-09-28 This book presents a new theoretical model for mapping how populist leaders construct “the people”, using simultaneous processes of inclusion and exclusion. Applying this model to Pakistan's distinctive political landscape, the work analyzes the populist discourse of Zulfikar Ali Bhutto and Imran Khan, highlighting the key similarities and differences in their construct. The comparative analysis underlines how Pakistan’s political history, including the role of religion, the military, and dynastic politics, shapes populist politics in the country. By centering a non-Western case, this book challenges dominant frameworks and offers an accessible, comparative lens on populist discourse. imran khan speech today live: Patterns of Conventional Warfighting under the Nuclear Umbrella Igor Davidzon, 2020-05-04 This book explores how nuclear weapons influence conventional warfighting, through three case studies of countries not party to the Non-Proliferation Treaty: Pakistan, India, and Israel. The author examines how decision makers choose a preferred pattern of war management, as well as how these choices affect conflicts, suggesting that nuclear weaponization constitutes a clear change in the relative power of countries. This distribution of power within the international system expands or reduces the selection of strategies or war management patterns available to members of the international community. However, historic traumatic events like military defeats, countries’ self-images, and images of enemies form the perceptions of decision makers regarding material power and change thereof, suggesting that choices of decision makers are not affected directly by changes in relative power relations, but rather through an intermediate level of strategic culture parameter.

imran khan speech today live: China's Western Horizon Daniel Markey, 2020-02-03 World news headlines routinely proclaim China's status as a great power. In *China's Western Horizon*, scholar and former U.S. State Department policy planner, Daniel S. Markey, draws from extensive interviews, travels, and historical research to assess what China is doing, to explain how states along the historic Silk Road that once knitted Eurasia together are turning Chinese initiatives to their own purposes, and to offer thoughtful recommendations for U.S. policymakers.

imran khan speech today live: Pakistan's Political Parties Mariam Mufti, Sahar Shafqat, Niloufer Siddiqui, 2020-05-01 Pakistan’s 2018 general elections marked the second successful transfer of power from one elected civilian government to another—a remarkable achievement considering the country’s history of dictatorial rule. *Pakistan’s Political Parties* examines how the

imran khan speech today live: Celebrity Society Robert van Krieken, 2012-06-14 On television, in magazines and books, on the internet and in films, celebrities of all sorts seem to monopolize our attention. *Celebrity Society* brings new dimensions to our understanding of celebrity, capturing the way in which the figure of 'the celebrity' is bound up with the emergence of modernity. It outlines how the 'celebrification of society' is not just the twentieth-century product of Hollywood and television, but a long-term historical process, beginning with the printing press, theatre and art. By looking beyond the accounts of celebrity 'culture', Robert van Krieken develops an analysis of 'celebrity society', with its own constantly changing social practices and structures, moral grammar, construction of self and identity, legal order and political economy organized around the distribution of visibility, attention and recognition. Drawing on the work of Norbert Elias, the book explains how contemporary celebrity society is the heir (or heiress) of court society, taking on but also democratizing many of the functions of the aristocracy. The book also develops the idea of celebrity as driven by the 'economics of attention', because attention has become a vital and increasingly valuable resource in the information age. This engaging new book will be a valuable resource for students and scholars in sociology, politics, history, celebrity studies, cultural studies, the sociology of media and cultural theory.

imran khan speech today live: The Terrorism Trap Harrison Akins, 2023-06-20 After two decades and trillions of dollars, the United States' fight against terrorism has achieved mixed results. Despite the vast resources and attention expended since 9/11, terrorism has increased in many societies that have been caught up in the war on terror. Why have U.S. policies been unable to stem the tide of violence? Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U.S. partner states. He examines the results of U.S.-backed counterterrorism operations that targeted al-Qaeda in peripheral regions of partner states, over which their central governments held little control. These operations often provoked a violent backlash from local terrorist groups, leading to a spike in retaliatory attacks against partner states. Senior U.S. officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries. Instead, they exerted greater pressure on partner states to expand their counterterrorism efforts. This exacerbated the underlying conditions that drove the escalating attacks, trapping these governments in a deadly cycle of tit-for-tat violence with local terrorist groups. This process, Akins demonstrates, accounts for the lion's share of the al Qaeda network's global terrorist activity since 2001. Drawing on extensive primary sources—including newly declassified documents, dozens of in-depth interviews with leading government officials in the United States and abroad, and statistical analysis—The Terrorism Trap is a groundbreaking analysis of why counterterrorism has backfired.
