in the name of love private practice: In the Name of Love Heather Fraser, 2008-10-07
Although love is the hallmark of humanity, it is not widely discussed in social work and other related professions with respect to its potential connection to abuse. In this groundbreaking book the author argues that, while love and abuse should not co-exist, they often do. Using a feminist narrative approach, stories about love, abuse, and social work are told with the purpose of understanding domestic violence and other forms of abuse. Based on interviews with 84 women of varying ages in Canada and Australia, the author shows how the pain and shame of intimate abuse can leave its mark on the bodies, minds, and souls of victims/survivors long after abusive episodes have ended. Additionally, Fraser also discusses the importance of hope, enlightened witnesses, income support, and educational opportunities for women who refuse to renounce love relationships altogether, but are instead trying to foster relationships that are respectful as well as erotic.

in the name of love private practice: Saving Lives Sandy Summers, Harry Summers, 2015
This fully updated and expanded edition of Saving Lives highlights the essential roles nurses play in contemporary health care and how this role is marginalized by contemporary culture. Through

engaging prose and examples drawn from television, advertising, and news coverage, the authors detail the media's role in reinforcing stereotypes that fuel the nursing shortage and devalue a highly educated sector of the contemporary workforce. Perhaps most important, the authors provide a wealth of ideas to help reinvigorate the nursing field and correct this imbalance.

Speck, 2011-04-01 Out of a film culture originally starved of funds have emerged rich and eclectic works by film-makers that are now achieving the international recognition that they deserve: Barbara Albert, Michael Haneke, Ulrich Seidl, and Stefan Ruzowitzky, to give four examples. This comprehensive critical anthology, by leading scholars of Austrian film, is intended to introduce and make accessible this much under-represented phenomenon. Although the book covers the full development of the Austrian new wave it focuses on the period that has brought it global attention: 1998 to the present. *New Austrian Film* is the only book currently available on this topic and will be an essential reference work for academics, students and filmmakers, interested in modern Austrian film.

in the name of love private practice: *The Bloomsbury Companion to Arendt* Peter Gratton, Yasemin Sari, 2020-10-01 Hannah Arendt's (1906-1975) writings, both in public magazines and in her important books, are still widely studied today. She made original contributions in political thinking that still astound readers and critics alike. The subject of several films and numerous books, colloquia, and newspaper articles, Arendt remains a touchstone in innumerable debates about the use of violence in politics, the responsibility one has under dictatorships and totalitarianism, and how to combat the repetition of the horrors of the past. *The Bloomsbury Companion to Arendt* offers the definitive guide to her writings and ideas, her influences and commentators, as well as the reasons for her lasting significance, with 66 original essays taking up in accessible terms the myriad ways in which one can take up her work and her continuing importance. These essays, written by an international set of her best readers and commentators, provides a comprehensive coverage of her life and the contexts in which her works were written. Special sections take up chapters on each of her key writings, the reception of her work, and key ways she interpreted those who influenced her. If one has come to Arendt from one of her essays on freedom, or from yet another bombastic account of her writings on Adolph Eichmann, or as a student or professor working in the field of Arendt studies, this book provides the ideal tool for thinking with and rediscovering one of the most important intellectuals of the past century. But just as importantly, contributors advance the study of Arendt into neglected areas, such as on science and ecology, to demonstrate her importance not just to debates in which she was well known, but those touched off only after her death. Arendt's approaches as well as her concrete claims about the political have much to offer given the current ecological and refugee crises, among others. In sum, then, the *Companion* provides a tool for thinking with Arendt, but also for showing just where those thinking with her can take her work today.

in the name of love private practice: *The History, Evolution, and Current State of Female Offenders* Alana Van Gundy, Shauntey James, 2022-01-20 The History, Evolution, and Current State of Female Offenders: Recommendations for Advancing the Field summarizes what the field has learned about females and crime; details the status of legislation and criminological research focused on female criminality; and provides recommendations for advancing the field. Van Gundy and James present the material from a gendered approach with the goal of analyzing the current understanding of the relationship between gender and crime. Tracing the intellectual history of feminist criminology from its foundations to the present time, the authors follow four primary themes: What do we know about the relationship between gender and crime? What special needs do female offenders have? What works and doesn't work for female offenders? What can or should we do from here? Reaching back to Carol Smart's seminal 1976 book, *Women, Crime and Criminology: A Feminist Critique* (available through Routledge Revivals), the authors note that in some ways, modest progress has been made, but large gaps in research and policy still exist. This much-needed book provides an overarching view of the history and evolution of the understanding of the relationship between gender and crime, detailed analysis of seminal work and criminological studies, an exploration of incarceration, reentry and programing, and concrete recommendations for future research. These recommendations focus on the importance of creating and utilizing theoretical models that measure the role of gender and identity, inclusion of female-specific variables when examining and responding to criminality, and the necessity of policymakers and legislators to address female criminality from a gendered lens. The book will appeal to those who are interested in females and criminality, race and ethnicity, policy and evaluation, criminal behavior, criminology, and students in courses in sociology, psychology, women and gender studies, social justice, black world studies, gerontology, and criminology/criminal justice, as well as policymakers and practitioners in the field. It will inspire researchers to ask the kinds of questions that will advance the field of feminist criminology in the future.

in the name of love private practice: *Nicholas Love's Mirror and Late Medieval Devotio-Literary Culture* David J. Falls, 2016-03-31 Surviving in 59 complete manuscript versions, few English texts of the late medieval period seem to have achieved the popularity of Nicholas Love's fifteenth-century translation and adaptation of the Latin *Meditationes Vitae Christi* - The Mirror of the Blessed Life of Jesus Christ. The Mirror has received surprisingly little scholarly attention and is often contextualized in terms of its role in the theological conflict between English ecclesiastical orthodoxy and the teachings of heresiarch John Wycliff. David Falls presents a new account of the text's history which de-centralises, but does not disregard, the influence of the Wycliffite controversy. Falls interrogates preconceptions and investigates new possibilities for understanding the composition, circulation, function and use of Love's Mirror by examining both the textual modifications and additions made by Love in his adaptation of the Latin, and places these alterations in context by examining individual copies of the Mirror. The manuscript copies are read as both sites of literary consumption and nexuses of textual transition, demonstrating that it was Love's ability to

inscribe his work with functional diversity which explains the Mirror's popularity. This book presents a nuanced picture not only of the Mirror's production, circulation and function, but also the dynamic and flourishing devotio-literary culture of late medieval England in which Love's text operated.

Why has *ai* . (love) been a crucial political discourse for secular nationalism for generations of political leaders as a powerful instrument to the present day? This book offers the first systematic examination of the ways in which the notion of love has been introduced, adapted, and engineered as a political discourse for the building and rebuilding of a secular modern nation, all the while appropriating Confucianism, Christianity, popular religion, ghost stories, political religion, and their religious affects. The insights of this exploration expand not only the discussion of the role of emotions in the project of Chinese modernity, but also the study of affective governance and religious nationalisms around the world today.
