**in my dance teacher era shirt: Step Dancing in Ireland** Catherine E. Foley, 2016-04-01 For many people step dancing is associated mainly with the Irish step-dance stage shows, Riverdance and Lord of the Dance, which assisted both in promoting the dance form and in placing Ireland globally. But, in this book, Catherine Foley illustrates that the practice and contexts of step dancing are much more complicated and fluid. Tracing the trajectory of step dancing in Ireland, she tells its story from roots in eighteenth-century Ireland to its diverse cultural manifestations today. She examines the interrelationships between step dancing and the changing historical and cultural contexts of colonialism, nationalism, postcolonialism and globalization, and shows that step dancing is a powerful tool of embodiment and meaning that can provoke important questions relating to culture and identity through the bodies of those who perform it. Focusing on the rural European region of North Kerry in the south-west of Ireland, Catherine Foley examines three step-dance practices: one, the rural Molyneaux step-dance practice, representing the end of a relatively long-lived system of teaching by itinerant dancing masters in the region; two, Rinceoirí na Ríochta, a dance school representative of the urbanized staged, competition orientated practice, cultivated by the cultural nationalist movement, the Gaelic League, established at the end of the nineteenth century, and practised today both in Ireland and abroad; and three, the stylized, commoditized, folk-theatrical practice of Siamsa Tíre, the National Folk Theatre of Ireland, established in North Kerry in the 1970s. Written from an ethnochoreological perspective, Catherine Foley provides a rich historical and ethnographic account of step dancing, step dancers and cultural institutions in Ireland.

**in my dance teacher era shirt: The Real Work** Adam Gopnik, 2023-03-14 [W]ise, companionable, and often extremely funny." —Oliver Burkeman, The Atlantic Best-selling author and New Yorker writer Adam Gopnik investigates a foundational human question: How do we learn—and master—a new skill? For decades now, Adam Gopnik has been one of our most beloved writers, a brilliantly perceptive critic of art, food, France, and more. But recently, he became obsessed by a more fundamental matter, one he had often meditated on in The New Yorker: How do masters learn their miraculous skill, whether it was drawing a museum-ready nude or baking a perfect sourdough loaf? How could anyone become so good at anything? There seemed to be a fundamental mystery to mastery. Was it possible to unravel it? In *The Real Work*—the term magicians use for the

accumulated craft that makes for a great trick—Gopnik becomes a dedicated student of several masters of their craft: a classical painter, a boxer, a dancing instructor, a driving instructor, and others. Rejecting self-help bromides and bullet points, he nevertheless shows that the top people in any field share a set of common qualities and methods. For one, their mastery is always a process of breaking down and building up—of identifying and perfecting the small constituent parts of a skill and the combining them for an overall effect greater than the sum of those parts. For another, mastery almost always involves intentional imperfection—as in music, where vibrato, a way of not quite landing on the right note, carries maximum expressiveness. Gopnik's simplest and most invigorating lesson, however, is that we are surrounded by mastery. Far from rare, mastery is commonplace, if we only know where to look: from the parent who can whip up a professional strudel to the social worker who—in one of the most personally revealing passages Gopnik has ever written—helps him master his own demons. Spirited and profound, *The Real Work* will help you understand how mastery can happen in your own life—and, significantly, why each of us relentlessly seeks to better ourselves in the first place.

Affective labor and time are re-articulated in a capacious archive of storytelling about the Filipino labor diaspora in fiction, musical performance, ethnography, and documentary film. Exploring these cultural practices, *Filipino Time* traces other ways of sensing, making sense of, and feeling time with others, by weaving narratives of place and belonging out of the hostile but habitable textures of labortime. Migrant subjects harness time and the imagination in their creative, life making capacities to make communal worlds out of one steeped in the temporalities and logics of capital.

**in my dance teacher era shirt:** My Brain on Fire Leonard Pitt, 2016-03-01 This is Leonard Pitt's story of growing up the misfit in Detroit in the 1940s and 50s. In a later age he would have been put on Ritalin and paraded before psychiatrists because he couldn't pay attention in school. In 1962, at the end of a misguided foray towards a career in advertising he took the ultimate cure, a trip to Paris. He thought it would only be a visit. He stayed seven years. There in the City of Light, Leonard's mind exploded. And it hasn't stopped since. Studying mime with master Etienne Decroux and living in Paris were the university he never knew. This inspiration unleashed a voracious appetite to understand the "why" of things. He asked a simple question, "Why did the ballet go up?" While building a theatre career performing and teaching, he embarked on a quest to study the origins of the ballet, the history of early American popular music, the pre-Socratic philosophers, early modern science, the European witch hunt, the history of Paris, and more. To his unschooled mind it all fits together. Who would see a historical arc between Louis XIV and Elvis Presley? Leonard does. And he'll tell you about it.

From this they draw an often funny, moving and inspirational tale of living out a dream.
