

in a short story the problem that moves

in a short story the problem that moves the narrative forward is a fundamental element of storytelling. This problem, often referred to as the central conflict or main dilemma, serves as the driving force behind the plot, compelling characters into action and engaging readers throughout the story. Understanding the problem that moves a short story is essential for both writers and critics to analyze how tension is built and resolved within a limited word count. This article explores the nature of the problem in short stories, its types, how it influences character development, and its role in maintaining narrative momentum. Additionally, it examines practical examples and techniques to effectively incorporate this problem into short story writing. The following sections provide a structured overview to deepen comprehension of this critical literary concept.

Understanding the Concept of the Problem in a Short Story

The problem that moves a short story refers to the central conflict or challenge faced by the protagonist or other key characters. It acts as the catalyst for action, creating tension and interest that compel the narrative to unfold. Unlike novels, where multiple subplots may exist, short stories typically focus on a singular problem to maintain clarity and intensity within a concise format. This problem can be internal, external, or a combination of both, but it always serves as the primary force influencing the characters' decisions and the story's progression.

Definition and Importance

In literary terms, the problem is the obstacle or issue that a character must confront or resolve. This challenge is crucial because it gives the story purpose and direction. Without a problem, there is no conflict, and without

conflict, there is no story. The problem's importance lies in its ability to engage readers emotionally and intellectually by presenting a situation that demands resolution.

Difference Between Problem and Theme

It is important to distinguish the problem that moves the story from its theme. The problem is the specific conflict or challenge within the narrative, while the theme refers to the underlying message or universal idea conveyed by the story. The problem drives the plot, whereas the theme offers insight or reflection.

Types of Problems That Drive Short Stories

Short stories employ various types of problems to create conflict, each serving to challenge characters in unique ways. Recognizing these types helps in understanding how different narratives function and what emotional responses they aim to evoke.

Internal Problems

Internal problems involve psychological or emotional conflicts within a character. These may include struggles with identity, guilt, fear, or moral dilemmas. Internal conflicts are particularly effective in short stories because they allow deep exploration of character in a limited space.

External Problems

External problems arise from outside forces acting upon the character. These can be interpersonal conflicts, societal pressures, natural disasters, or physical obstacles. External problems often create immediate tension and clear stakes, which are essential in short story narratives.

Combined Conflicts

Many short stories feature a combination of internal and external problems, where a character's inner turmoil is complicated or triggered by external circumstances. This layered conflict enriches the story and provides multiple angles for tension and resolution.

Common Examples of Problems in Short Stories

- Man versus self: struggles with personal fears or desires
- Man versus man: conflicts between characters
- Man versus society: challenges to social norms or laws
- Man versus nature: survival against natural forces
- Man versus fate or supernatural: confronting destiny or unknown forces

The Role of the Problem in Character Development

The problem that moves a short story is not only a plot device but also a critical tool for character development. How characters react to and engage with the problem reveals their traits, motivations, and growth, making the narrative more compelling and meaningful.

Revealing Character Traits

Characters' responses to the problem showcase their personalities, values, and weaknesses. For example, a character facing a moral dilemma may reveal integrity, cowardice, or complexity through their choices and actions.

Driving Transformation

The problem often forces characters to change, grow, or confront hidden aspects of themselves. This transformation is a key element of many short stories, where the resolution of the problem coincides with a shift in the character's perspective or situation.

Creating Emotional Engagement

By presenting characters with relatable or compelling problems, writers can evoke empathy and emotional investment from readers. The intensity of the problem's impact on the character deepens the story's resonance and memorability.

How the Problem Moves the Plot Forward

The problem functions as the engine of a short story's plot, propelling the sequence of events and maintaining narrative momentum. It introduces tension,

prompts action, and ultimately leads to a resolution that provides closure or insight.

Initiation of Conflict

The problem typically emerges early in the story, presenting a conflict or challenge that disrupts the status quo. This disruption is essential for engaging readers and setting the stage for the unfolding drama.

Escalation and Complications

As the story progresses, the problem may intensify or become more complex, raising stakes and increasing suspense. These complications keep the reader invested in how the characters will address the issue.

Resolution and Impact

The resolution of the problem provides the story's climax and denouement. Whether the problem is solved, transformed, or remains unresolved, its outcome shapes the story's meaning and emotional effect.

1. Introduction of the problem
2. Development through rising action
3. Climax or turning point
4. Resolution or conclusion

Techniques for Crafting an Effective Problem in Short Stories

Writers can employ various techniques to create a problem that effectively moves a short story, ensuring the narrative remains engaging and tightly focused.

Clarity and Focus

The problem should be clearly defined and central to the story's purpose. Avoiding unnecessary subplots or distractions helps maintain narrative economy and impact.

Relatability and Stakes

Problems that resonate with readers' experiences or evoke universal themes tend to be more compelling. Additionally, establishing clear stakes—what the character stands to lose or gain—heightens reader investment.

Conflict and Tension

Effective problems generate conflict and tension by pitting opposing forces or desires against each other. This tension drives the story's momentum and keeps readers engaged.

Integration with Character and Theme

The problem should align with character motivations and support the story's thematic concerns. This integration enriches the narrative and enhances its coherence.

Use of Surprise and Complexity

Introducing unexpected twists or multifaceted problems can add depth and intrigue, encouraging readers to think critically and remain curious about the outcome.

- Define the problem early and clearly
- Ensure the problem is significant to the character
- Raise the stakes progressively
- Link the problem to the story's theme
- Use conflict to build tension
- Allow the problem to drive character growth
- Craft a resolution that feels earned and meaningful

Reacher! ONE OF THE BEST BOOKS OF THE YEAR: Los Angeles Times, The Guardian, Suspense magazine • Stephen King calls Jack Reacher “the coolest continuing series character”—and now he’s back in this masterly new thriller from Lee Child. “Why is this town called Mother’s Rest?” That’s all Reacher wants to know. But no one will tell him. It’s a tiny place hidden in a thousand square miles of wheat fields, with a railroad stop, and sullen and watchful people, and a worried woman named Michelle Chang, who mistakes him for someone else: her missing partner in a private investigation she thinks must have started small and then turned lethal. Reacher has no particular place to go, and all the time in the world to get there, and there’s something about Chang . . . so he teams up with her and starts to ask around. He thinks: How bad can this thing be? But before long he’s plunged into a desperate race through LA, Chicago, Phoenix, and San Francisco, and through the hidden parts of the internet, up against thugs and assassins every step of the way—right back to where he started, in Mother’s Rest, where he must confront the worst nightmare he could imagine. Walking away would have been easier. But as always, Reacher’s rule is: If you want me to stop, you’re going to have to make me.

It takes up and expands upon the more narrowly focused work of E. H. Gombrich, Sheldon Richmond, and Raphael Sassower and Louis Ciccotello. The authors integrate the arts into the scientific world view and acknowledge that there is an aesthetic aspect to

anything whatsoever. They pay close attention to the social situatedness of the arts. Their aesthetics treats art as emerging from craft in the form of luxurious and playful challenge to the audience. In developing it they place emphasis on the number of questions and claims that can be settled by appeal to empirical facts; on the historical character of aesthetic judgements; and on the connection of aesthetic truth to true love and true friendship, i.e. fidelity and integrity, not to informative truth.

in a short story the problem that moves: *A Different Path* G.A. Mendoza, 2008-09-05 After graduating from the United States Military Academy and being commissioned a 2nd Lieutenant, Neal Creighton spent his first five years in the Army in troop assignments in the United States and in Germany. When his Armored Cavalry Regiment returned to the United States in the fall of 1957, they found themselves at Fort Knox, Kentucky. It is at this point that the author begins his story of a 26-year period covered in the pages of this book. At Fort Knox, he meets Jo Ann Hicks, an employee of the U.S. Army Armored School. They become engaged three months after meeting. The marriage ceremony takes place on August 1st, 1958, at Jo Ann's family's church. After a month long honeymoon Neal and Jo Ann return to Fort Knox where they live in their first government supplied family quarters, Jo Ann goes back to her job, and Neal becomes a student for a nine months long class at the Armored School. In the chapter on their time at Fort Knox, the author describes the life style of the typical young Army family living on a military post in the 1950s. Not long into the school year, they are told they will be going to Spain for a year where Neal will study Spanish in preparation for then returning to West Point where he will teach the language. Once in Spain, both Creightons initially attend a university in north Spain. In the fall, they return to Madrid where Neal continues as a student and Jo Ann takes a job with a U.S. Central Intelligence Agency office. During the year, they travel extensively throughout Spain and Portugal. At the end of their time in Spain, they make a month long trip beginning in North Africa, passing through France, Italy, Austria and both East and West Germany. From 1960 to 1963, Neal has his tour as a member of the Military Academy faculty. The Superintendent of the Academy is Major General William Westmoreland and Neal becomes one of Westmoreland's tennis playing partners. Jo Ann returns to work as a government employee. However, after a year, she becomes pregnant and leaves the workforce. Unfortunately, she loses the baby while Neal is traveling in Mexico. After she recovers, the Creightons decide to adopt. Shortly before their three years at West Point are up, they succeed in adopting a six-week old daughter whom they name Linda. Several months later, they are informed that their next assignment will be to the Dominican Republic where Neal will be tasked with helping the Dominicans start a Military Academy. Not long before they depart, Jo Ann learns she is once again pregnant. Arriving in the Dominican Republic in the summer of 1963, the Creightons quickly find a house to rent and Neal begins his work. At this time, the Dominican Republic is trying to recover from decades of domination of dictator Raphael Trujillo, who had been assassinated in 1961. Neal has an early meeting with Dominican President Juan Bosch. In September, a worried Bosch consults Neal about the situation at San Isidro where the Academy is located. Shortly after that, Bosch is overthrown by Neal's Dominican boss. The U.S. breaks relations with the new Dominican Government and orders all its diplomats and military out of the country. Before this evacuation takes place, Neal becomes seriously ill and is evacuated to the U.S. Army hospital in Puerto Rico. Jo Ann accompanies Neal because of the seriousness of his illness. Meanwhile, back in the Dominican Republic, the Americans are evacuated by boat, leaving little nine months old Linda in the Creighton house in Santo Domingo alone with the two maids. Jo Ann returns to reclaim her daughter now not an easy process. Finally, Linda and Jo Ann do get aboard a plane for Puerto Rico where they meet Puerto Rican baseball legend Roberto Clement who then helps the Creightons while they remain in San Juan. The next stop for the Creightons is the Panama Canal Zone. They are soon caught up in the serious anti-US riots of January 9, 1964 and are lucky to escape without injury. At work, Ne
