matt letourneau political party: Wrapped in the Flag Claire Conner, 2014-03-18 A narrative history of the John Birch Society by a daughter of one of the infamous ultraconservative organization's founding fathers. Named a best nonfiction book of 2013 by Kirkus Reviews and the Tampa Bay Times Long before the rise of the Tea Party movement and the prominence of today's religious Right, the John Birch Society, first established in 1958, championed many of the same radical causes touted by ultraconservatives today, including campaigns against abortion rights, gay rights, gun control, labor unions, environmental protections, immigrant rights, social and welfare programs, the United Nations, and even water fluoridation. Worshipping its anti-Communist hero Joe McCarthy, the Birch Society is perhaps most notorious for its red-baiting and for accusing top politicians, including President Dwight Eisenhower, of being Communist sympathizers. It also labeled John F. Kennedy a traitor and actively worked to unseat him. The Birch Society boasted a number of notable members, including Fred Koch, father of Charles and David Koch, who are using their father's billions to bankroll fundamentalist and right-wing movements today. The daughter of one of the society's first members and a national spokesman about the society, Claire Conner grew up surrounded by dedicated Birchers and was expected to abide by and espouse Birch ideals. When her parents forced her to join the society at age thirteen, she became its youngest member of the

society. From an even younger age though, Conner was pressed into service for the cause her father and mother gave their lives to: the nurturing and growth of the JBS. She was expected to bring home her textbooks for close examination (her mother found traces of Communist influence even in the Catholic school curriculum), to write letters against “socialized medicine” after school, to attend her father’s fiery speeches against the United Nations, or babysit her siblings while her parents held meetings in the living room to recruit members to fight the war on Christmas or (potentially poisonous) water fluoridation. Conner was “on deck” to lend a hand when JBS notables visited, including founder Robert Welch, notorious Holocaust denier Revilo Oliver, and white supremacist Thomas Stockheimer. Even when she was old enough to quit in disgust over the actions of those men, Conner found herself sucked into campaigns against abortion rights and for ultraconservative presidential candidates like John Schmitz. It took momentous changes in her own life for Conner to finally free herself of the legacy of the John Birch Society in which she was raised. In *Wrapped in the Flag*, Claire Conner offers an intimate account of the society—based on JBS records and documents, on her parents’ files and personal writing, on historical archives and contemporary accounts, and on firsthand knowledge—giving us an inside look at one of the most radical right-wing movements in US history and its lasting effects on our political discourse today.

matt letourneau political party: *Flyover Fictions* Cornelia Klecker, Sascha Pöhlmann, 2025-04
Flyover Fictions critically engages the history and contemporary use of the flyover country trope in American culture and repurposes the concept as an abstract tool for cultural studies. The term flyover arose in the 1970s with variations—flyover country, flyover states—mainly used as synonyms for the American Midwest in intranational banter regarding cultural differences from the dominant urban centers of New York City and Los Angeles. In recent years, the trope has shifted away from this playfulness and its traditional geographic reference points to indicate larger political and cultural developments that speak of a deepening polarization in the United States. *Flyover Fictions* is an exploration of the trope’s current politicization, historical contexts, and general proliferation of meanings. Instead of resolving the ambiguities inherent in the concept, the volume considers what can be done with these ambiguities, and how precisely their fuzziness might be used to create an analytic tool to describe, understand, and critique processes of cultural hierarchization. The contributors show how flyover fictions may operate in different national contexts and also internationally or transnationally, not only providing a fresh perspective on historical and contemporary American culture but also supplying a conceptual toolbox for broader use.

matt letourneau political party: *Change They Can't Believe In* Christopher S. Parker, Matt

A. Barreto, 2014-10-26 How the political beliefs of Tea Party supporters are connected to far-right social movements Are Tea Party supporters merely a group of conservative citizens concerned about government spending? Or are they racists who refuse to accept Barack Obama as their president because he's not white? Change They Can't Believe In offers an alternative argument—that the Tea Party is driven by the reemergence of a reactionary movement in American politics that is fueled by a fear that America has changed for the worse. Providing a range of original evidence and rich portraits of party sympathizers as well as activists, Christopher Parker and Matt Barreto show that the perception that America is in danger directly informs how Tea Party supporters think and act. In a new afterword, Parker and Barreto reflect on the Tea Party's recent initiatives, including the 2013 government shutdown, and evaluate their prospects for the 2016 election.

matt letourneau political party: *Assault on Democracy: Matthew Whitaker's Attack on Gay State Senator Matt McCoy* Jim Ferguson Ph. D., Matt McCoy, 2019-11-30 This book is a highly personal story about coming to terms with my past and my identity. My story includes growing up in a strong Catholic family, marriage to a wonderful woman, successful political career, struggle with alcoholism, divorce, coming out as a openly gay elected official, and the government charging me with extortion on a small business deal gone sour. As an elected public official this was played out in full view of the public. I was threatened with charges that would result in a long prison term and a fine that would take a lifetime to pay. It was me, Iowa State Senator Matt McCoy who was pursued. I hope readers will gain, as I have, the fortitude to live their lives with integrity and pride. For 18 months of my life, the FBI under then U.S. Attorney General Alberto Gonzales and U.S. Attorney Matthew (Matt) Whitaker, stopped at nothing in their attempt to rob me of my reputation, livelihood, and most concerning, my freedom. What I thought was just my small isolated business deal, slowly unraveled into a greater understanding that it was linked to a strategy occurring across the country. I now believe I was one of the Democrats at the grassroots level targeted in their reign of terror on elected Democrats. Karl Rove was credited with conceiving this plan. His goal was simple: create a permanent majority of Republicans in America. What role did my sexual orientation play in this? My being openly gay is thought to have contributed to being an easy target to be prosecuted by the Feds. Nationally, I had been named a rising star in the Democratic Party. I have the distinction, or notoriety, of being Iowa's highest ranking openly gay elected official. My story is important because the American people need to know about the assault on our democracy by the heavy-handed U.S. Department of Justice. The DOJ, with unlimited resources, can destroy innocent individuals who often collapse under the immense weight of this persecution. I didn't, and that made all the difference.
