medicine ball tv show: *The Women Who Made Television Funny* David C. Tucker, 2015-03-26 Most of the bright and talented actresses who made America laugh in the 1950s are off the air today, but their pioneering Hollywood careers irrevocably changed the face of television comedy. These smart and sassy women successfully negotiated the hazards of the male-dominated workplace with class and humor, and the work they did in the 1950s is inventive still by today's standards. Unable to fall back on strong language, shock value, or racial and sexual epithets, the female sitcom stars of the 1950s entertained with pure talent and screen savvy. As they did so, they helped to lay the foundation for the development of television comedy. This book pays tribute to 10 prominent television actresses who played lead roles in popular comedy shows of the 1950s. Each chapter covers the works and personalities of one actress: Lucille Ball (*I Love Lucy*), Gracie Allen (*The George Burns and Gracie Allen Show*), Eve Arden (*Our Miss Brooks*), Spring Byington (*December Bride*), Joan Davis (*I Married Joan*), Anne Jeffreys (*Topper*), Donna Reed (*The Donna Reed Show*), Ann Sothern (*Private Secretary* and *The Ann Sothern Show*), Gale Storm (*My Little*

Margie and The Gale Storm Show: Oh! Susanna), and Betty White (Life with Elizabeth). medicine ball tv show: Chicano popular culture Charles M. Tatum, 2001 Over the past several decades, Mexican Americans have made an indelible mark on American culture through the music of bands such as Santana and Los Lobos, films such as Zoot Suit, and a wide range of literature, such as Sandra Cisneros's *The House on Mango Street*. Now Charles Tatum introduces students to these and other forms of artistic expression in the first volume to provide a wide-ranging overview of Chicano popular culture. Tatum explores the broad and complex arena of popular culture among Americans of Mexican descent and explains what popular culture can tell them about themselves. Reviewing a range of expressive arts, from traditional forms to electronic media, he explains the differences and similarities between Chicano popular culture and that of other ethnic groups or of Anglo society and shows how Chicano arts reflect a people's traditions and heritage. The book's coverage focuses on five areas of popular culture. It explores - Mexican American and Chicano music from the sixteenth century to the present day; - cinema, focusing on Chicano films of the past three decades; - newspapers, radio, and television, explaining the interrelationship between these media; - literature, emphasizing fiction, theater, and poetry of the last thirty years; - and fiestas, celebrations, and art, including mural and graffiti art. Tatum provides a brief overview of Mexican American social history, paying particular attention to changing cultural perspectives over the past 150 years and the evolution of *el movimiento chicano*. He also introduces theories of popular culture and makes them accessible to students, enabling them to better understand the material covered in the text. No other book offers such a wide-ranging introduction to these cultural expressions of Mexican Americans today. *Chicano Popular Culture* invites readers to share the excitement of these vital arts and, through them, to learn more about the uniqueness of America's fastest-growing minority. *Chicano Popular Culture and Mexican Americans and Health* are the first volumes in the series *The Mexican American Experience*, a cluster of modular texts designed to provide greater flexibility in undergraduate education. Each book deals with a single topic concerning the Mexican American population. Instructors can create a semester-length course from any combination of volumes, or may choose to use one or two volumes to complement other texts.

While the famed style of *All in the Family* was unique, its inclusions of Jews and Jewish issues was far from unusual. On the whole, Jewish issues have been portrayed with respect and relative depth during five decades of television programming. This work documents and examines the portrayal of

Jewish themes in popular prime time television, from 1948 through the 1996-1997 television season, focusing on how such topics as anti-Semitism, intermarriage, Jewish lore and traditions, Israel, the Holocaust, and questions of Jewish identity have been featured in numerous television genres. How real-life attitudes about Jews and Jewish issues are reflected in television portrayals is also explored.
