medicine mama s apothecary: *To the Edge of Sorrow* Aharon Appelfeld, 2020-01-14 From fiction's foremost chronicler of the Holocaust (Philip Roth), here is a haunting novel about an unforgettable group of Jewish partisans fighting the Nazis during World War II. Battling numbing cold, ever-present hunger, and German soldiers determined to hunt them down, four dozen resistance fighters—escapees from a nearby ghetto—hide in a Ukrainian forest, determined to survive the war, sabotage the German war effort, and rescue as many Jews as they can from the trains taking them to concentration camps. Their leader is relentless in his efforts to turn his ragtag band of men and boys into a disciplined force that accomplishes its goals without losing its moral compass. And so when they're not raiding peasants' homes for food and supplies, or training with the weapons taken from the soldiers they have ambushed and killed, the partisans read books of faith and philosophy that they have rescued from abandoned Jewish homes, and they draw strength from the women, the elderly, and the remarkably resilient orphaned children they are protecting. When they hear about the advances being made by the Soviet Army, the partisans prepare for what they know will be a furious attack on their compound by the retreating Germans. In the heartbreaking aftermath, the survivors emerge from the forest to bury their dead, care for their

wounded, and grimly confront a world that is surprised by their existence—and profoundly unwelcoming. Narrated by seventeen-year-old Edmund—a member of the group who maintains his own inner resolve with memories of his parents and their life before the war—this powerful story of Jews who fought back is suffused with the riveting detail that Aharon Appelfeld was uniquely able to bring to his award-winning novels.

medicine mama s apothecary: *Within These Walls of Sorrow* Amanda Barratt, 2023-01-17 As superbly written as it is haunting in its truth. --Kate Breslin, best-selling author of *For Such a Time* Zosia Lewandowska knows the brutal realities of war all too well. Within weeks of Germany's invasion of her Polish homeland, she lost the man she loves. As ghetto walls rise and the occupiers tighten their grip on the city of Krakow, Zosia joins pharmacist Tadeusz Pankiewicz and his staff in the heart of the Krakow ghetto as they risk their lives to aid the Jewish people trapped by Nazi oppression. Hania Silverman's carefree girlhood is shattered as her family is forced into the ghetto. Struggling to survive in a world hemmed in by walls and rife with cruelty and despair, she encounters Zosia, her former neighbor, at the pharmacy. As deportation winnow the ghetto's population and snatch those she holds dear, Hania's natural resiliency is exhausted by reality. Zodia and Hania's lives intertwine as they face the griefs and fears thrust upon them by war, until one day, they are forced to make a desperate choice . . . one that will inexorably bind them together, even as they are torn apart. Amanda Barratt's meticulous research and lush, award-winning writing shine once again in this moving look at a group of unsung heroes who fought for hope and humanity in the most harrowing of times. An unflinching tale that implores readers to stop and see, not a massive crowd of people, but individual hearts and souls. This book will linger in your heart and mind long after you've read the final page. --Amanda Cox, Christy Award-winning author of *The Edge of Belonging*

medicine mama s apothecary: *The Power of Two* Isabel Stenzel Byrnes, Anabel Stenzel, 2014-10-14 For most people, a diagnosis of cystic fibrosis means the certainty of a life ended too soon. But for Isabel Stenzel Byrnes and Anabel Stenzel, twin girls with the disease, what began as a family's stubborn determination grew into a miracle. The tragedy of CF has been touchingly recounted in such books as Frank Deford's *Alex: The Life of a Child*, but *The Power of Two* is the first book to portray the symbiotic relationship of twins who share this life-threatening disease through adulthood. Isabel and Anabel tell of their lifelong struggle to pursue normal lives with cystic fibrosis while grappling with the realization that they will die young. Their story reflects the physical and emotional challenges of a particularly aggressive form of CF and is an honest and gripping portrayal of the daily struggle associated with long-term hospitalization, the impact of chronic illness on marriage and family, and the importance of a support network to continuing survival. Born in 1972, seventeen years before scientists discovered the genetic mutation that causes CF, the Stenzel twins endured the daily regimen of chest percussion, frequent doctor visits, and lengthy hospitalizations. But in the face of innumerable setbacks, their deep-seated dependence on each other allowed them to survive long enough to reap the benefits of the miraculous lung transplants that marked a turning point in their lives: "We have an old life—one of growing up with chronic illness—and anew life—one of opportunities and gifts we have never imagined before." In this memoir, they pay tribute to the people who shaped their experience. These two remarkable sisters have much to teach about the power of perseverance—and about the ultimate power of hope.

medicine mama s apothecary: *The Mama Chronicles* Teresa Nicholas, 2021-09-16 Winner of the 2022 Mississippi Institute of Arts and Letters Award for Life Writing Growing up in the Delta town of Yazoo City, Mississippi, Teresa Nicholas believed that she and her country-born and -bred mother weren't close. She knew little of her mother's early life as a sharecropper during the Great Depression, but whenever she brought up the subject, her taciturn mother would snap, "You ask too

many questions, young'un." Nicholas left Mississippi to attend college, then settled in New York to work in the hard-driving world of commercial book publishing. Twenty-five years later, eager for a change, she and her husband decided to shift careers to writing, trading their home in the New York suburbs for a casita in the Mexican Highlands. But as her mother's health deteriorated, Nicholas found herself spending more time in the small town she thought she had left behind. Over long afternoons in front of Turner Classic Movies, she grew closer to her mother, coaxing stories from her about her hardscrabble past—until a major stroke threatened to silence her mother's newfound voice. Torn between her new home in Mexico and her old home in Mississippi, Nicholas struggled to find her place in the world. She discovered that the past isn't always the way we remember it, and as the years ticked by, that she and her mother could grow closer still. *The Mama Chronicles: A Memoir* is a funny and poignant account of a mother-daughter relationship and, ultimately, a meditation on acceptance and what it means to call a place home.

medicine mama s apothecary: Joys, Sorrows, and Hopes Grace Marable, 2011-05-31 The joy in this story is about growing up in a home with my parents, brothers, and sisters; and knowing were loved by our parents. Our life was hard, we did not own the house that we lived in, or the farm land that we worked. We were sharecroppers. My parents were the offspring of freed slaves. When my fathers parents died, he was thirteen years old. He sharecropped to provide for himself and his six younger siblings. My parents married in 1905 and became parents to eleven sons and three daughters. We all worked in the field together. We ate all meals together. That was enjoyable because mama was the best cook ever. I do not remember any of us every saying to mama I dont like to food. There were many tragedies that brought sorrows and grief. For example, in 1940, my youngest brother was killed by a mule when he was only fifteen years old. That caused almost unbearable grief for mama. In the ensuing years, four more of my brothers were killed. The hope that I have is to live on earth when Gods kingdom comes and his will is done.

medicine mama s apothecary: *JOURNEY TO THE CREST (OF THE CRESCENT CITY)* BARRY DAVIS, 2019-05-21 The captivating story of a young, black male growing up in New Orleans, LA in the 80s and 90s. The author provides a vivid description of how he navigated the obstacles of being raised in a poor, single-parent household. In addition, he narrates how his mom found refuge within the Jehovah's Witness religion and how he had a sexual relationship with one of the Elders in his congregation when he was a minor. More light is shed on how this religion (and many organized religions) decided to discipline this leader. He paints a very vivid story of how low his life was during and after this period because of his struggle with accepting the fact that he is gay and the fact that his mother and no one close to him will accept this truth. After relocating from his hometown, he is

faced with the horrible news of his mother's terminal illness and is challenged with caring for her with virtually no help from his family members. This story will have you take a deeper look at what faith and family means. It's a heartbreaking story that will leave you speechless at points, crying at others, and laughing in-between. It's also a beautiful story of how a young man with all of the odds stacked against him learned how to reconcile his faith/spirituality with who he is and how he learned to appreciate how blessed he is.
