meditation with sister shivani: *Happiness Unlimited* Sister Shivani, Suresh Oberoi, 2019-05 In these enlightening and eye-opening conversations, the renowned spiritual mentor, Sister BK Shivani reveals how to create a life of joy, contentment and bliss, because we all have the choice and the power to do so. According to her, the reason why there is so little happiness in the world is dependency. Happiness is not dependent on 'anything' or 'anyone', or found 'anywhere'. We keep delaying our happiness until things are just right in our life. We think we will be happy in the future and then wonder why we are not happy now. meditation with sister shivani: Being Love Sister Shivani, Suresh Oberoi, 2019 We can each radiate unconditional love. We don't even need to create it - we are love. But the flow of love is blocked in moments of hurt, blame, anger, criticism, competition or insecurity. These emotions have dominated our emotional space, and hardly enable us to feel our own love. So today, we rely on someone else to love us. This book teaches us to think right, enable self-love, feel it and extend it to other people. The central message here is that love is not 'out there', but within us. A spectrum of emotions like attachment, expectations, hurt, worry, stress, fear or anger, which we use in the pretext of love, are analysed. The conversations also explore the fact that the parent-child relationship is not challenging - It does not need to be. As you free yourself from judgments and expectations, as you start thinking right for people, and as you accept people for who they are, you become a Radiator of unconditional love. You are one decision away from vibrating at a frequency of love ... by not needing love or giving love - but just by being love.

meditation with sister shivani: The Quest for Utopia in Twentieth-Century America

Timothy Miller, 1998-05-01 This book is the long-anticipated first volume of a two-volume work that will chronicle intentional communities in the twentieth century. Timothy Miller's chronological account is likely to be the standard work on the subject. Communities of the early twentieth century were often obscure and short-lived enterprises that left little trace of themselves. Historical accounts of them are few, and the ephemera such ventures produced have rarely been collected. Miller first looks at the older groups that were operating until 1900. He explores their impact of the early twentieth-century art colonies, and then turns to a decade-by-decade discussion of many dozens of new groups formed up to 1960. His comprehensive perspective—a synopsis of the first sixty years of this century—has never before been undertaken in the study of communal groups.
