

politics as a vocation max weber

politics as a vocation max weber is a seminal essay that explores the nature, ethics, and responsibilities involved in political leadership. Written by the renowned German sociologist Max Weber, this work delves into the complexities of political power, the moral dilemmas faced by politicians, and the distinction between different types of political engagement. The essay remains a foundational text in political science and sociology, offering insights into the character and demands of politics as a profession. This article provides a comprehensive analysis of Weber's concept of politics as a vocation, its historical context, key themes, and its relevance to modern political theory. Additionally, it highlights the ethical framework Weber proposes for politicians and examines the enduring impact of his ideas on contemporary political discourse.

- Historical Context and Background of "Politics as a Vocation"
- Core Concepts in Max Weber's "Politics as a Vocation"
- Ethics and Responsibility in Political Leadership
- The Role of the State and the Definition of Politics
- Political Power and the Legitimation of Authority
- Relevance of Weber's Ideas in Contemporary Politics

Historical Context and Background of "Politics as a Vocation"

Max Weber delivered "Politics as a Vocation" as a lecture in 1919 during a period of significant political upheaval in Germany, following World War I and the collapse of the German Empire. This era was marked by social unrest, the rise of new political movements, and debates about the role and legitimacy of political power. Weber's essay was a response to the chaotic political environment, aiming to clarify the ethical demands and practical realities of political leadership. The work reflects Weber's broader sociological interests in authority, bureaucracy, and the nature of social action, positioning politics as a distinct and demanding profession that requires both passion and a sense of responsibility.

Core Concepts in Max Weber's "Politics as a Vocation"

At the heart of Weber's essay is an exploration of what defines politics and the qualities necessary for those who pursue it as a vocation. He distinguishes politics from other spheres of life by its focus on the acquisition and exercise of power within the state. Weber articulates several key concepts that shape the understanding of politics as a vocation:

Politics Defined as the Pursuit of Power

Weber famously defines politics as striving to share power or to influence the distribution of power, either among states or within a state. This power is understood as the ability to enforce one's will, even against resistance.

The Politician's Ethic: Passion, Responsibility, and a Sense of Proportion

Weber argues that a successful politician must balance three essential qualities: passion for their cause, a sense of responsibility for the consequences of their actions, and a sense of proportion to weigh risks and benefits realistically.

Types of Political Engagement

Weber differentiates between politics as a vocation and politics as a duty or occasional activity. He emphasizes the professional politician who commits fully to the responsibilities and ethical challenges of political life.

Ethics and Responsibility in Political Leadership

One of the most influential aspects of "Politics as a Vocation" is Weber's treatment of political ethics. He introduces the tension between two ethical orientations that politicians must navigate:

The Ethic of Conviction versus the Ethic of Responsibility

The ethic of conviction involves acting in accordance with absolute principles regardless of the outcome, while the ethic of responsibility demands that politicians consider the foreseeable consequences of their actions and act pragmatically. Weber argues that a true politician must integrate both ethics, acting with conviction but also owning the responsibility for the practical effects of their decisions.

Moral Ambiguity and Political Realism

Weber acknowledges the moral ambiguities inherent in politics, where difficult decisions can have harmful consequences. He stresses that political leaders must tolerate this ambiguity and operate within a realistic framework that recognizes the imperfect nature of political action.

The Danger of Idealism and the Need for Pragmatism

While passion is necessary, Weber warns against untempered idealism in politics, which can lead to reckless or destructive behavior. Pragmatism and a clear-eyed assessment of political realities are crucial for effective leadership.

The Role of the State and the Definition of Politics

Central to Weber's essay is his definition of the state and its monopoly on legitimate violence. He places the state at the core of political activity and power relations.

The State as the Holder of the Monopoly on Legitimate Force

Weber famously defines the state as an entity that successfully claims a monopoly on the legitimate use of physical force within a given territory. This monopoly distinguishes the state from other organizations and legitimizes its authority.

Politics as the Activity Related to State Power

Politics is intrinsically tied to the state's power structures. According to Weber, political action is primarily about influencing or controlling the state, either through administration, legislation, or other forms of governance.

Distinguishing Politics from Administration

Weber differentiates between the politician, who makes decisions about power, and the administrator, who implements these decisions. This distinction underscores the unique challenges and responsibilities of political leadership compared to bureaucratic administration.

Political Power and the Legitimation of Authority

Weber's analysis of political power includes a detailed examination of the sources and types of legitimate authority, which underpin political stability and governance.

Three Types of Legitimate Authority

Weber identifies three pure types of legitimate authority:

- **Traditional Authority:** Based on established customs and long-standing practices.
- **Charismatic Authority:** Derived from the exceptional personal qualities or leadership of an individual.

- **Legal-Rational Authority:** Founded on legal rules and bureaucratic norms.

Each type shapes political dynamics differently and informs the strategies politicians use to maintain power.

The Importance of Legitimacy in Politics

Legitimacy is crucial for the stability of political systems and the effectiveness of governance. Without perceived legitimacy, political authority becomes vulnerable to opposition and conflict.

Power as a Means and an End

For Weber, political power is both a tool to achieve policy goals and an end in itself for many politicians. The pursuit of power requires skillful navigation of social and institutional constraints.

Relevance of Weber's Ideas in Contemporary Politics

The insights provided by Max Weber in "Politics as a Vocation" continue to resonate in modern political analysis and practice. His exploration of political ethics, power, and authority remains foundational for understanding today's political challenges.

The Modern Politician's Dilemma

Contemporary political leaders still face the challenge Weber outlined: balancing idealism with pragmatism and managing the tension between conviction and responsibility in a complex political environment.

Application to Democratic Governance

Weber's emphasis on legitimacy and the rule of law informs modern democratic theory, where the legal-rational authority type predominates and political power depends on institutional trust.

The Enduring Importance of Political Vocation

Politics as a vocation remains a demanding career that requires dedication, ethical awareness, and a realistic understanding of power. Weber's framework helps clarify what it means to engage seriously and responsibly in political life.

Summary of Key Takeaways

- Politics involves the pursuit and exercise of power within the state.
- Effective politicians must balance passion, responsibility, and pragmatism.

- The state's monopoly on legitimate force is central to its authority.
- Legitimacy and ethical responsibility are essential for political stability.
- Weber's analysis remains relevant for interpreting contemporary political leadership.

Frequently Asked Questions

What is the main theme of Max Weber's 'Politics as a Vocation'?

The main theme of Max Weber's 'Politics as a Vocation' is the exploration of politics as a profession, focusing on the nature of political leadership, the ethics involved, and the concept of the state as an entity with a monopoly on the legitimate use of physical force.

How does Max Weber define the state in 'Politics as a Vocation'?

Max Weber defines the state as an entity that successfully claims the monopoly on the legitimate use of physical force within a given territory.

What are the two types of ethics Max Weber discusses in 'Politics as a Vocation'?

Weber discusses the 'ethic of conviction' (Gesinnungsethik), which is adherence to absolute principles, and the 'ethic of responsibility' (Verantwortungsethik), which focuses on the consequences of one's actions in political decision-making.

Why does Max Weber believe politics requires a unique form of passion?

Weber argues that politics requires a unique form of passion because political leaders must be deeply committed to their cause to endure the hardships, conflicts, and moral dilemmas inherent in political life.

What role does 'charisma' play in Max Weber's concept of political leadership?

In 'Politics as a Vocation,' Weber highlights 'charisma' as a key source of legitimate authority, whereby leaders command devotion and obedience based on their extraordinary personal qualities.

How does Max Weber view the relationship between politics and ethics?

Weber sees a tension between the ethics of conviction and the ethics of responsibility in politics, suggesting that effective political leadership requires balancing moral principles with pragmatic decision-making.

What relevance does 'Politics as a Vocation' have for contemporary political leaders?

'Politics as a Vocation' remains relevant today as it provides insights into the challenges of political leadership, the ethical dilemmas faced by politicians, and the importance of legitimacy and responsibility in governing.

Additional Resources

1. *Politics as a Vocation* by Max Weber

This seminal essay by Max Weber explores the nature of political leadership and the ethics of responsibility. Weber distinguishes between the "ethic of conviction" and the "ethic of responsibility" in political action, emphasizing the importance of practical outcomes over idealistic intentions. The work remains foundational in understanding the challenges and moral dilemmas faced by politicians.

2. *Max Weber and the Idea of Politics* by Tony Waters

Tony Waters provides a comprehensive analysis of Max Weber's contributions to political theory. The book situates Weber's work within the broader context of political philosophy and sociology, highlighting his insights on authority, bureaucracy, and power. It is an essential read for those seeking to understand Weber's vision of politics as a vocation.

3. *Authority and Legitimacy: Max Weber's Political Sociology* by Reinhard Bendix

This book delves into Weber's theories on authority and legitimacy, crucial concepts in his political thought. Bendix explores how Weber categorized different types of authority—traditional, charismatic, and legal-rational—and their implications for political leadership. The text offers valuable perspectives on the structure and function of political institutions.

4. *Political Ethics and the Responsibility of Power* by Max Weber, edited by Hans Gerth and C. Wright Mills

A collection of Weber's most influential writings on political ethics, this volume includes essays that discuss the moral responsibilities of those in power. It provides a critical examination of the balance between idealism and pragmatism in political decision-making. The editors contextualize Weber's ideas within the political realities of his time.

5. *Weber's Rationalism and Modern Society: New Translations on Politics, Bureaucracy, and Social Stratification* edited by Tony Waters and Dagmar Waters

This anthology offers new translations of Weber's key texts, focusing on his analysis of bureaucracy and

rationalization in modern politics. It highlights Weber's concern with how rational-legal authority shapes political institutions and social hierarchies. The collection is valuable for understanding the complexities of modern political organization.

6. *The Ethics of Responsibility: Max Weber's Contribution to Political Theory* by Wolfgang J. Mommsen
Mommsen examines Weber's concept of the "ethic of responsibility" and its significance for contemporary political theory. The book discusses how Weber's ideas challenge traditional moral frameworks in politics, advocating for a pragmatic approach to governance. It is an insightful exploration of the ethical dimensions of political leadership.

7. *Charisma and Political Leadership: A Weberian Analysis* by Bryan S. Turner

Turner's work focuses on Weber's notion of charismatic authority and its role in political movements. The book explores how charisma influences political legitimacy and leadership effectiveness. It provides case studies demonstrating the enduring relevance of Weber's ideas in modern political contexts.

8. *Politics, Bureaucracy, and Democracy: Insights from Max Weber* by Peter Lassman and Peter Schleusener

This volume offers a critical examination of Weber's theories on bureaucracy and its relationship to democratic governance. The authors analyze the tensions between bureaucratic administration and democratic ideals, drawing on Weber's insights. The book is essential for understanding the complexities of modern political systems.

9. *Max Weber's Political Sociology: A Legacy for Contemporary Politics* by Wolfgang Schluchter

Schluchter explores the lasting impact of Weber's political sociology on contemporary political thought. The book discusses Weber's analysis of the state, authority, and political leadership in the context of modern challenges. It highlights how Weber's ideas continue to inform debates on power and governance today.

politics as a vocation max weber: *The Vocation Lectures* Max Weber, David S. Owen, 2004-03-12 Originally published separately, Weber's 'Science as a Vocation' and 'Politics as a Vocation' stand as the classic formulations of his positions on two related subjects that go to the heart of his thought: the nature and status of science and its claims to authority; and the nature and status of political claims and the ultimate justification for such claims. Together in this volume, these newly translated lectures offer an ideal point of entry into Weber's central project: understanding how, as Weber put it, in the West alone there have appeared cultural manifestations [that seem to] go in the direction of universal significance and validity.

politics as a vocation max weber: An Analysis of Max Weber's Politics as a Vocation Tom McClean, Jason Xidias, William Brett, 2017-07-05 German sociologist Max Weber's 1919 lecture Politics as a Vocation is widely regarded as a masterpiece of political theory and sociology. Its central strength lies in Weber's deployment of masterful interpretative skills to power his discussion of modern politics. Interpretation involves understanding both the meaning of evidence and the meaning of terms – questioning definitions, clarifying terms and processes, and supplying good, clear definitions of the author's own. As a sociologist accustomed to working with historical evidence, Weber based his own work on precisely these skills, solidly backed up by analytical acuity. Politics as a Vocation, written in a Germany shocked by its crippling defeat in World War I, saw Weber turn his eye to an examination of how the modern nation state emerged, and the different ways in which it can be run – interpreting and defining the different types of rule that are possible. It is testament to Weber's interpretative skills that Politics is famous above all in sociological circles for its clear definition of a state as an institution that claims "the monopoly of legitimate physical violence" in a given territory.

politics as a vocation max weber: Max Weber & Democratic Politics Peter Breiner, 1996 Breiner demonstrates the tension between the subjective and objective dimensions of Weber's logic of rationality, and describes how Weber exploits this tension in judging the feasibility of social and political forms such as socialism, radical democracy, capitalism, and the nation.

politics as a vocation max weber: Max Weber's Complete Writings on Academic and Political Vocations Max Weber, 2008 Annotation This is the first edition in any language of all of Max Weber's writings on academic and political vocations. The translation is new and liberally annotated, including a look at Weber's personality and what it was that made him such a phenomenon. Max Weber made many significant interpretations of both academic and political vocations in his two lectures on Science as a Vocation (*Wissenschaft als Beruf*, 1917) and Politics as a Vocation (*Politik als Beruf*) 1919), as well as in a series of newspaper articles including those written between 1908 and 1920. Since these writings are of more than historical interest, there was a need to bring them all together in a single volume. Newly translated and annotated, this collection comprises both lectures plus 32 articles which Weber wrote on academia. Most of these have not been translated before. In the Introduction, Prof. John Dreijmanis relates the academic and political vocations to each other conceptually, showing that there is considerable overlap and some convergence: the need for passion, an inward calling, as well as career insecurity both vocations. Dreijmanis then examines the person of Weber and provides a new view of him, in part through the lens of Carl C. Jung's theory of psychological types as further developed by the Myers-Briggs Type Indicator (MBTI). As an extravert with a powerful thinking function and intellect, he was driven to take an interest in events outside himself and to speak his mind. Coming after a long line of introverted German philosophers, he was a phenomenon. The new translations, by Gordon C. Wells, are more faithful to Weber's style of expression, and they correct an accumulation of errors of previous translations in the oft-translated essays on Politics and Science. Contains Glossary, Bibliography, Names Index, Subject Index.

politics as a vocation max weber: The Social Scientist as Public Intellectual Charles F. Gattone, 2006-03-14 In *The Social Scientist as Public Intellectual*, Charles Gattone addresses the question of the public role of the social scientist by reviewing the work of several key social thinkers, from Max Weber to Pierre Bourdieu. Drawing on the analyses of these scholars, Gattone argues that although political and economic institutions continue to influence the course of academic knowledge, opportunities remain for social scientists to act independently of these constraints, and approach their work as public intellectuals.

politics as a vocation max weber: Combating Corruption, Encouraging Ethics William L. Richter, Frances Burke, 2007-01-23 Ethical foundations : virtue, consequence, principle -- Responsibility and accountability -- Twenty-first century challenges : global dimensions/changing boundaries -- Understanding fraud, waste, and corrupt practices -- Graft, bribery, and conflict of

interest -- Lying, cheating, and deception -- Privacy, secrecy, and confidentiality -- Abuse of authority and administrative evil--Establishing expectations, providing guidelines, and building trust -- Transparency, whistle blowing, and dissent -- Compliance, oversight, and sanctions -- Leadership and individual responsibility : encouraging ethics.

politics as a vocation max weber: Political Conduct Mark Philp, 2007-04-15 Philp explores how political processes and practices shape political values like liberty, justice, equality, and democracy. Mining the history of political episodes and political thinkers, including Caesar and Machiavelli, Philp argues that through political activity "values are articulated and embraced, and they become powerful motivating forces."

politics as a vocation max weber: Max Weber and the Moral Dimensions of Politics as a Vocation Geneviève Brassard, 2012 Weber's discussion of ethics in his famous lecture (and then essay) *Politics as a Vocation* (1919) clearly indicates that two possible ethical stances, the ethic of conviction and the ethic of responsibility, are rooted in 'distinct and irreconcilably opposed principles'. Throughout *Politics as a Vocation*, it is the ethic of responsibility that appears to be endorsed by Weber as suited for political life. Yet, Weber concludes his essay by claiming that a combined ethic is ideal for a political vocation. This makes Weber's position regarding the ideal ethical stance for a man who has a 'true political calling' appear contradictory: the ethics are opposites but somehow to be combined. Commentators have mostly concluded that, for Weber, the ethic of responsibility is the ideal ethic for politics. That appears further in accord with the fact that a key concern of the speech in its historical context was to warn political students of the dangers associated with an ethic of conviction. Weber, as a realist, was especially critical of a stance that disregarded the corrupted nature of the world, which the ethic of responsibility alone seems to accept. Politicians with single-minded convictions were responsible for Germany's political stalemate, supporting the fact that the ethic of conviction should not be deemed acceptable in politics. And yet there is much this position neglects by opting for only one of the two ethics, by concluding that only the ethic of responsibility is appropriate for political vocation. My thesis offers something different; something I admit is ambitious. What I propose is the synthesis of the opposition, of finding a way to combine the two irreconcilably opposed ethics.

politics as a vocation max weber: Nation and State in Max Weber Jack Barbalet, 2023-02-28 This book shows how Max Weber's perceptions of the social and political world he inhabited in Wilhelmine Germany were characterized by a nationalist commitment which coloured practically every aspect of his thought, including his social scientific writings and the formulations they expound. Exploring the consequences of Weber's ardent nationalism in a manner seldom acknowledged in existing scholarship, it considers the alignment of his commitment to liberalism and democracy with his devotion to the ideal of the German people as an ethno-racial community supported by a power-state, with the purpose of realizing the national interest of future generations of Germans. Through an analysis of a range of texts, the author contends that Weber's liberalism is not based on universalistic principles and that Weber considered the liberty he espoused to play an important role in securing the position of a political elite trained in parliamentary institutions, which are used to shape the citizenry in the pursuit of a patriotic commitment to an expansionist, imperial state. It will therefore appeal to scholars with interests in the history of sociology and classical social theory.

politics as a vocation max weber: The Routledge International Handbook on Max Weber Alan Sica, 2022-09-20 This book explores the latest thinking about Max Weber and his continuing influence on theoretical and empirical interests today. Bringing together the work of leading scholars from a variety of disciplines, it illuminates Weber's thought in a number of key areas, including the methodology and philosophy of social science, comparative religion, the rationalization process, political sociology, the sociology of law, and the Protestant ethic and the development of capitalism. An international collection that demonstrates the enduring importance of Weber's thought to contemporary sociology and the discipline's major concerns, *The Routledge International Handbook on Max Weber* will appeal to scholars in a range of disciplines, including sociology, social

theory, politics, philosophy, law, and international relations.

politics as a vocation max weber: An Ethic of Responsibility in International Relations

Daniel Warner, 1991 Questioning many of the traditional assumptions found in discussions of ethics in international relations, Warner introduces a new way of thinking about moral responsibility and invites reflection on the nature of communities and states.

politics as a vocation max weber: *The Oxford Handbook of Max Weber* Dr. Edith Hanke, Dr. Lawrence A. Scaff, Dr. Sam Whimster, 2019-12-04 Active at the time when the social sciences were founded, Max Weber's social theory contributed significantly to a wide range of fields and disciplines. Considering his prominence, it makes sense to take stock of the Weberian heritage and to explore the ways in which Weber's work and ideas have contributed to our understanding of the modern world. Using his work as a point of departure, *The Oxford Handbook of Max Weber* investigates the Weberian legacy today, identifying the enduring problems and themes associated with his thought that have contemporary significance: the nature of modern capitalism, neo-liberal global economic policy, nationalism, religion and secularization, threats to legality, the culture of modernity, bureaucratic rule and leadership, politics and ethics, the value of science, power and inequality. These problems are global in scope, and the Weberian approach has been used to address them in very different societies. Thus, the Handbook also features chapters on Europe, Turkey, Islam, Judaism, China, India, and international politics. The Handbook emphasizes the use and application of Weber's ideas. It offers a journey through the intellectual terrain that scholars continue to explore using the tools and perspectives of Weberian analysis. The essays explore how Weber's concepts, hypotheses, and perspectives have been applied in practice, and how they can be applied in the future in social inquiry, not only in Europe and North America, but globally. The volume is divided into six parts exploring, in turn: Capitalism in a Globalized World, Society and Social Structure, Politics and the State, Religion, Culture, and Science and Knowledge.

politics as a vocation max weber: *Regarding Politics* Harry Eckstein, 2023-04-28 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1992.

politics as a vocation max weber: *Max Weber's Theory of Modernity* Michael Symonds, 2016-03-03 This book illuminates an important dimension of the work of Max Weber. Weber's theory of meaning and modernity is articulated through an understanding of his account of the way in which the pursuit of meaning in the modern world has been shaped by the loss of Western religion and how such pursuit gives sense to the phenomena of human suffering and death. Through a close, scholarly reading of Weber's extensive writings and Vocation Lectures, the author explores the concepts of 'paradox' and 'brotherliness' as found in Weber's work, in order to offer an original exposition of Weber's actual theory of how meaning and meaninglessness work in the modern world. In addition to making a substantial and highly original contribution to the sociology of modernity, the book applies the theory of meaning extracted from Weber's thought, addressing the claim that Weber's work has been rendered out-dated by the supposed re-enchantment of the modern world, as well as discussing the ways this theory can contribute to our understanding of the development of specific forms of modernity. A rigorous examination of the thought of one of the most important figures in classical sociology, this volume will appeal to scholars of sociology, social theory and philosophy with interests in modernity, Weber and the concept of meaning.

politics as a vocation max weber: *Max Weber and Postmodern Theory* N. Gane,

2002-04-09 This book explores the contemporary nature of Max Weber's work by looking in detail at his key concepts of rationalization and disenchantment. Thematic parallels are drawn between Weber's rationalization thesis and the critiques of contemporary culture developed by Jean-Francois Lyotard, Michel Foucault and Jean Baudrillard. It is suggested that these three 'postmodern' thinkers develop and respond to Weber's analysis of modernity by pursuing radical strategies of affirmation and re-enchantment. Examining the work of these three key thinkers in this way casts new light both

on postmodern theory and on Weber's sociology of rationalization.

politics as a vocation max weber: Max Weber's Politics of Civil Society Sung Ho Kim, 2004-06-07 This book is an in-depth interpretation of Max Weber as a political theorist of civil society. On the one hand, it reads Weber's ideas from the perspective of modern political thought, rather than the modern social sciences; on the other, it offers a liberal assessment of this complex political thinker without attempting to apologize for his shortcomings. Through an alternative reading of Weber's religious, epistemological and political writings, the book shows Weber's concern with public citizenship in a modern mass democracy and civil society as its cultivating ground. Kim argues Weber's political thought, thus recast, was deeply informed by Kant, Hegel, Nietzsche and other German political thinkers and also reveals an affinity to the liberal-republican tradition best represented by Mill and Tocqueville. Kim has effectively resuscitated Weber as a political thinker for our time in which civic virtues and civil society have once again become one of the dominant issues.

politics as a vocation max weber: Christian Perspectives on Politics J. Philip Wogaman, 2000-01-01 Minister Wogaman updates his comprehensive discussions on the meaning and importance of politics; the history of Christian political thought; and church/state relations, the legislation of social morality, and criminal justice issues.

politics as a vocation max weber: Passage to Manhattan Lopamudra Basu, Cynthia Leenerts, 2009-10-02 *Passage to Manhattan: Critical Essays on Meena Alexander* is a unique compendium of scholarship on South Asian American writer Meena Alexander, who is recognized as one of the most influential and innovative contemporary South Asian American poets. Her poetry, memoirs, and fiction occupy a unique locus at the intersection of postcolonial and US multicultural studies. This anthology examines the importance of her contribution to both fields. It is the first sustained analysis of the entire Alexander oeuvre, employing a diverse array of critical methodologies. Drawing on feminist, Marxist, cultural studies, trauma studies, contemporary poetics, phenomenology, and psychoanalysis, the collection features fifteen chapters and an Afterword, by well-established scholars of postcolonial and Asian American literature like Roshni Rustomji, May Joseph, Anindyo Roy, and Amritjit Singh, as well as by emerging scholars like Ronaldo Wilson, Parvinder Mehta, and Kazim Ali. The contributors offer insights on nearly all of Alexander's major works, and the volume achieves a balance between Alexander's diverse genres, covering the spectrum from early works like *Nampally Road* to her forthcoming book *The Poetics of Dislocation*. The essays engage with a variety of debates in postcolonial, feminist, and US multicultural studies, as well as providing many nuanced and detailed readings of Alexander's multi-layered texts.

politics as a vocation max weber: Trump and Political Philosophy Angel Jaramillo Torres, Marc Benjamin Sable, 2018-06-12 This book aims to recover from ancient and modern thinkers valuable arguments about statesmanship, leadership, and tyranny which illuminate reassessments of political science and practice after the election of Donald Trump. Like almost everyone else, contemporary political scientists were blind-sided by the rise of Trump. No one expected a candidate to win who repeatedly violated both political norms and the conventional wisdom about campaign best practices. Yet many of the puzzles that Trump's rise presents have been examined by the great political philosophers of the past. For example, it would come as no surprise to Plato that by its very emphasis on popularity, democracy creates the potential for tyranny via demagoguery. And, perhaps no problem is more alien to empirical political science than asking if statesmanship entails virtue or if so, in what that virtue consists: This is a theme treated by Plato, Aristotle, and Machiavelli, among others. Covering a range of thinkers such as Confucius, Plutarch, Kant, Tocqueville, and Deleuze, the essays in this book then seek to place the rise of Trump and the nature of his political authority within a broader institutional context than is possible for mainstream political science.
