

# political science ucsb major sheet

**political science ucsb major sheet** serves as an essential guide for students planning to pursue a Political Science degree at the University of California, Santa Barbara. This comprehensive document outlines all the necessary requirements, courses, and academic policies that students must follow to successfully complete the major. Understanding the political science UCSB major sheet is crucial for efficient academic planning and timely graduation. This article provides an in-depth overview of the major sheet, including degree requirements, course options, recommended academic paths, and additional resources available to students. Additionally, it highlights important considerations such as prerequisite courses, elective selections, and opportunities for specialization within the political science discipline. By the end of this article, students and advisors will have a clear understanding of how to navigate the political science major at UCSB effectively.

- Overview of the Political Science Major at UCSB
- Core Requirements in the Political Science Major
- Elective Courses and Areas of Concentration
- Academic Policies and Graduation Requirements
- Advising and Additional Resources

## Overview of the Political Science Major at UCSB

The political science UCSB major sheet provides a structured layout of the academic program designed to expose students to the study of political systems, theories, and institutions. The major emphasizes critical thinking, analytical skills, and an understanding of governmental processes both domestically and internationally. UCSB's Department of Political Science offers a diverse curriculum that covers subfields such as American politics, comparative politics, international relations, political theory, and public policy. The major sheet helps students understand the sequence and combination of courses needed to gain comprehensive knowledge in these areas. Additionally, it outlines the total units required, the balance between lower-division and upper-division coursework, and the importance of fulfilling general education alongside major-specific courses.

## Core Requirements in the Political Science Major

The political science UCSB major sheet details the core coursework that forms the foundation of the major. These core classes are mandatory and cover essential theories, methodologies, and foundational knowledge critical for any political science student. The core requirements typically consist of introductory courses as well as advanced seminars that delve deeper into specialized topics.

## Lower-Division Core Courses

Students must complete key lower-division courses that introduce them to the fundamentals of political science. These courses provide an overview of political behavior, institutions, and international relations. They also prepare students for more advanced upper-division coursework.

## Upper-Division Core Courses

Upper-division requirements focus on more specialized and analytical topics. Students engage in rigorous study of political theory, comparative politics, and empirical research methods. These courses demand critical engagement with both classic and contemporary political science scholarship.

- Introduction to American Politics
- Comparative Politics
- International Relations
- Political Theory
- Research Methods in Political Science

## Elective Courses and Areas of Concentration

The political science UCSB major sheet allows students flexibility through elective courses that enable them to tailor their education to specific interests within the discipline. Electives can be chosen from various subfields, allowing for an area of concentration or a broader interdisciplinary approach.

## Specialization Tracks

Students may focus on specialized tracks such as American politics, comparative politics, international relations, or political theory. Each track contains recommended electives aligned with the thematic focus, fostering expertise and deeper understanding in that particular area.

## Interdisciplinary Electives

In addition to political science courses, students can select electives from related departments such as sociology, economics, history, and philosophy, which enrich their understanding of political phenomena from multiple perspectives.

1. American Political Institutions and Processes

2. Global Governance and International Security
3. Political Philosophy and Ethics
4. Public Policy Analysis
5. Comparative Political Systems

## **Academic Policies and Graduation Requirements**

Understanding the academic policies outlined in the political science UCSB major sheet is critical for successful degree completion. The major sheet specifies the total units required, minimum grade standards, residency requirements, and the distribution of coursework.

### **Unit Requirements**

The political science major generally requires completion of approximately 48 to 52 units within the department. This includes both lower-division prerequisites and upper-division major courses. Students must also satisfy UCSB's general education and University requirements to graduate.

### **Grade and GPA Standards**

Students are required to maintain a minimum grade of C (or better) in all political science major courses. Additionally, the department typically enforces a minimum GPA in major coursework to qualify for graduation with the Political Science degree.

### **Residency and Transfer Policies**

Transfer students should consult the major sheet for specific guidelines on credit transfers and residency requirements. UCSB mandates a minimum number of upper-division units completed in residence to ensure academic integrity and program consistency.

## **Advising and Additional Resources**

The political science UCSB major sheet encourages students to utilize academic advising resources for personalized guidance. Advisors assist with course selection, career planning, and meeting all academic requirements.

### **Departmental Advising**

The Political Science Department offers dedicated advising services that help students interpret the

major sheet, understand degree requirements, and explore opportunities such as internships and research projects. Regular meetings with advisors are recommended to stay on track.

## **Career and Internship Opportunities**

Students are encouraged to engage with career services and department-sponsored internship programs. These resources provide practical experience in government, non-profits, policy analysis, and related fields, complementing academic learning.

- Academic advising appointments
- Workshops and seminars
- Internship placement support
- Research assistantships
- Graduate school preparation

## **Frequently Asked Questions**

### **What courses are required for the Political Science major at UCSB according to the major sheet?**

The Political Science major at UCSB requires students to complete foundational courses such as POLS 1, 2, 3, and 4, along with upper-division electives totaling at least 48 units, including a capstone course or senior thesis.

### **Where can I find the most updated Political Science major sheet for UCSB?**

The most updated Political Science major sheet for UCSB can be found on the UCSB College of Letters and Science website, under the Political Science department's undergraduate advising section.

### **Are there any GPA requirements listed on the UCSB Political Science major sheet?**

Yes, the UCSB Political Science major sheet typically requires students to maintain a minimum GPA of 2.0 in their major coursework to graduate with the Political Science degree.

## **Can I double major or minor alongside Political Science at UCSB according to the major sheet?**

Yes, UCSB encourages students to pursue double majors or minors alongside Political Science, and the major sheet provides guidance on how to coordinate course requirements to fulfill multiple programs.

## **Does the UCSB Political Science major sheet include internship or research opportunities?**

While the major sheet primarily outlines coursework, it also recommends students to engage in internships, research projects, or honors theses to gain practical experience in Political Science.

## **How many units of upper-division Political Science courses are required for the UCSB major?**

The UCSB Political Science major requires students to complete at least 36 units of upper-division Political Science courses as part of their degree requirements.

## **Additional Resources**

### *1. "The Logic of American Politics" by Samuel Kernell and Steven S. Smith*

This book provides an insightful introduction to the fundamental principles that shape American political institutions and behavior. It emphasizes the importance of understanding the logic behind political processes, including elections, legislative behavior, and judicial decision-making. The authors use clear examples and up-to-date research to explain complex concepts, making it ideal for political science majors at UCSB.

### *2. "Theories of International Politics and Zombies" by Daniel W. Drezner*

Drezner creatively uses a hypothetical zombie outbreak to explore major theories of international relations, such as realism, liberalism, and constructivism. This engaging approach helps students grasp how different perspectives analyze global politics and crises. It is a useful resource for UCSB students interested in both theory and practical applications in international affairs.

### *3. "The Civic Culture: Political Attitudes and Democracy in Five Nations" by Gabriel A. Almond and Sidney Verba*

A classic in political science, this book examines the political culture of five countries and its impact on democracy. Almond and Verba's comparative approach highlights the relationship between citizens' attitudes and democratic stability. UCSB students studying political behavior and comparative politics will find this work foundational.

### *4. "Democracy in America" by Alexis de Tocqueville*

This seminal text provides a detailed analysis of American democracy in the early 19th century. Tocqueville explores the strengths and potential weaknesses of democratic governance, including the role of civil society and individualism. UCSB political science majors will benefit from its historical perspective and enduring relevance.

### *5. "The Politics of the Environment: Ideas, Activism, Policy" by Neil Carter*

Carter's book offers a comprehensive overview of environmental politics, covering theoretical frameworks, activism, and policy responses. It addresses key issues such as climate change, sustainability, and environmental justice. This title is essential for UCSB students interested in the intersection of politics and environmental studies.

6. *"Comparative Politics: Structures and Choices"* by Lowell Barrington

This text provides an accessible introduction to comparative politics, focusing on political structures, institutions, and decision-making processes across different countries. Barrington's clear explanations and case studies help students understand the diversity of political systems. UCSB majors will find this useful for courses in comparative politics.

7. *"Political Ideologies: An Introduction"* by Andrew Heywood

Heywood's book presents a thorough overview of major political ideologies, including liberalism, conservatism, socialism, and feminism. It explains their historical development and contemporary relevance. This book is a key resource for UCSB students seeking to understand the ideological foundations of political thought.

8. *"The Oxford Handbook of Political Science"* edited by Robert E. Goodin

This comprehensive handbook offers essays by leading scholars covering all major subfields of political science. It provides both theoretical insights and discussions of current research trends. UCSB political science majors can use this as a reference for advanced study and research projects.

9. *"Power and Choice: An Introduction to Political Science"* by W. Phillips Shively

Shively's textbook introduces core concepts such as power, authority, governance, and political behavior. It balances theory with practical examples, helping students develop a well-rounded understanding of political science. UCSB students will find it a valuable foundational text for their major coursework.

**political science ucsb major sheet:** Quick Reference for Counselors , 1996

**political science ucsb major sheet:** US Hegemony and the Americas Arturo Santa-Cruz, 2019-12-06 In this book, Arturo Santa-Cruz advances an understanding of power as a social relationship and applies it consistently to the economic realm in United States relations with other countries of the Western Hemisphere. Following the academic and popular debate on the ebb and flow of US hegemony, this work centers the analysis in a critical case for the exercise of US power through its economic statecraft: the Americas—its historical zone of influence. The rationale for the regional focus is methodological: if it can be shown that Washington's sway has decreased in the area since the early 1970s, when the discussion about this matter started, it can be safely assumed that the same has occurred in other latitudes. The analysis focuses on three regions: North America, Central America and South America. Since each region contains countries that have at times maintained very different relationships with the United States, the findings contribute to a better

understanding of the practice of US power in the sub-region in question, adding greater variability to the overall results. *US Hegemony and the Americas: Power and Economic Statecraft in International Relations* is an invaluable resource for students and scholars interested in Latin American History and Politics, North American Regional Integration, International Relations, Economic Statecraft, Political Economy and Comparative Politics.

**political science ucsb major sheet: American Education** Joel Spring, 2019-06-19 Featuring current information and challenging perspectives on the latest issues and forces shaping the American educational system—with scholarship that is often cited as a primary source—Joel Spring introduces readers to the historical, political, social, and legal foundations of education and to the profession of teaching in the United States. In his signature straightforward, concise approach to describing complex issues, he illuminates events and topics that are often overlooked or whitewashed, giving students the opportunity to engage in critical thinking about education. Students come away informed on the latest topics, issues, and data and with a strong knowledge of the forces shaping the American educational system. Thoroughly updated throughout, the new edition of this clear, authoritative text remains fresh and up-to-date, reflecting the many changes in education that have occurred since the publication of the previous edition. Topics and issues addressed and analyzed include: • The decline of the Common Core State Standards, particularly as result of a Republican-controlled administration currently in place • Increasing emphasis on for-profit education, vouchers, charter schools, and free-market competition between schools, expected to surge with the appointment of the new U.S. Secretary of Education Betsy DeVos • Current debates about immigration and Dreamers—new statistics on immigrant education, discussion of education proposals to accommodate the languages, cultures, and religions of newly arrived immigrants • New education statistics on school enrollments, dropouts, education and income, school segregation, charter schools, and home languages • The purposes of education as presented in the 2016 platforms of the Republican, Democratic, Green, and Libertarian parties • Discussions around transgender students

**political science ucsb major sheet: Principles of Applied Remote Sensing** Siamak Khorram, Cynthia F. van der Wiele, Frank H. Koch, Stacy A. C. Nelson, Matthew D. Potts, 2016-01-04 This textbook is one of the first to explain the fundamentals and applications of remote sensing at both undergraduate and graduate levels. Topics include definitions and a brief history of payloads and platforms, data acquisition and specifications, image processing techniques, data integration and spatial modeling, and a range of applications covering terrestrial, atmospheric, oceanographic and planetary disciplines. The policy and law issues of remote sensing and the future trends on the horizon are also covered. Remote sensing is an exciting, dynamic technology that is transforming the Earth sciences – terrestrial, atmospheric, and marine – as well as the practices of agriculture, disaster response, engineering, natural resources, providing evidence in legal cases and documented humanitarian crises, and many other fields. Increasingly, understanding of these techniques will be central to a number of disciplines, particularly as the technology advances.
