

politics as who gets what when and how

politics as who gets what when and how is a foundational concept in understanding the distribution of resources, power, and influence within societies. This phrase encapsulates the essence of political science by highlighting the processes through which decisions are made regarding allocation and timing of goods, services, and privileges. Politics, in this context, involves negotiation, competition, and conflict resolution among various actors vying for beneficial outcomes. The dynamics of “who gets what when and how” reflect the mechanisms of governance, policymaking, and social order. This article explores the theoretical underpinnings of this concept, its practical implications, and how it shapes political behavior and institutional arrangements. Through detailed examination, readers will gain insights into the strategic nature of politics and the complexities involved in managing public resources. The discussion begins with an overview of the concept, followed by an exploration of key elements including stakeholders, timing, methods of distribution, and the impacts on society.

- Understanding Politics as Who Gets What When and How
- The Role of Stakeholders in Political Distribution
- Timing and Its Significance in Political Decision-Making
- Methods and Mechanisms of Resource Allocation
- Implications for Governance and Social Equity

Understanding Politics as Who Gets What When and How

The phrase “politics as who gets what when and how” was famously coined by political scientist Harold Lasswell, emphasizing the distributive nature of politics. It defines politics as the authoritative allocation of values within a society, focusing on the allocation process rather than ideology or policy content alone. This perspective shifts the analysis toward understanding power relations and decision-making processes that determine the distribution of benefits and burdens. Politics, therefore, becomes a study of conflict resolution and bargaining among competing interests and groups.

At its core, this concept illustrates that political processes are concerned with questions of distribution—who receives resources, the timing of these allocations, and the mechanisms employed to enforce or legitimize these decisions. It highlights the competitive and often contentious environment in which political actors operate to secure favorable outcomes. Understanding this framework provides clarity on how policies are shaped and how power dynamics influence societal outcomes.

The Role of Stakeholders in Political Distribution

Stakeholders in the political arena are the individuals, groups, or institutions that have an interest in the outcome of political decisions regarding distribution. These actors range from elected officials and government agencies to interest groups, corporations, and the general public. Each stakeholder aims to influence the political process to secure resources or advantages for themselves or their constituencies.

Types of Political Stakeholders

Political stakeholders can be categorized based on their influence, objectives, and methods of engagement. Understanding the diversity of these actors is crucial to grasping the dynamics of “who gets what.”

- **Government Officials:** Politicians, bureaucrats, and policymakers who have formal authority to make decisions impacting resource allocation.
- **Interest Groups:** Organized groups representing specific causes or sectors seeking to shape policy outcomes.
- **Political Parties:** Organizations that compete for electoral power to influence governance and distribution.
- **Civil Society:** Citizens and non-governmental organizations that exert influence through advocacy and participation.
- **Private Sector:** Businesses and corporations that lobby for favorable economic policies or regulations.

The interaction among these stakeholders creates a complex web of negotiation, bargaining, and conflict. Their relative power and resources often determine the outcomes of political contests over distribution.

Timing and Its Significance in Political Decision-Making

The question of “when” in the phrase “who gets what when and how” underscores the critical importance of timing in politics. The allocation of resources is not only about who receives what but also about when these resources are distributed. Timing can affect the political feasibility of decisions, the impact on stakeholders, and the overall effectiveness of policies.

Political Timing and Strategic Considerations

Political actors often consider timing strategically to maximize benefits or minimize resistance. This involves:

- **Election Cycles:** Policymakers may time resource distribution to coincide with elections to gain voter support.
- **Economic Conditions:** Distributions might be adjusted based on economic booms or downturns to stabilize political support.
- **Social Movements and Crises:** Political responses may be accelerated or delayed in reaction to public pressure or emergencies.
- **Legislative Calendars:** Timing of policy proposals can be influenced by legislative schedules and political windows of opportunity.

Understanding timing enhances the comprehension of political strategies and the dynamics of policy implementation.

Methods and Mechanisms of Resource Allocation

The “how” aspect of politics refers to the processes and methods through which resources, rights, and privileges are distributed. These mechanisms vary widely depending on political systems, institutional frameworks, and cultural contexts. Common methods include formal policymaking, bureaucratic administration, negotiation, and sometimes coercion.

Formal Political Processes

In democratic systems, resource allocation often occurs through legislative processes, executive decisions, and judicial rulings. These formal mechanisms are structured to ensure transparency, accountability, and adherence to rule of law.

Informal Processes and Power Dynamics

Informal negotiations, patronage, lobbying, and political bargaining also play significant roles. In many cases, informal networks and power relations shape outcomes as much as formal institutions do.

Techniques of Allocation

1. **Legislation:** Passing laws to allocate budgets, benefits, or regulatory privileges.
2. **Executive Orders:** Directives by executive authorities to manage resources or policies.
3. **Budgeting and Appropriations:** Distributing financial resources through government budgets.

4. **Administrative Rules:** Bureaucratic implementation of policies affecting distribution.
5. **Negotiation and Bargaining:** Political deals and compromises among stakeholders.

The effectiveness and fairness of these methods influence public trust and the legitimacy of political institutions.

Implications for Governance and Social Equity

The concept of politics as who gets what when and how has profound implications for governance quality and social equity. The distribution of resources and opportunities affects social cohesion, economic development, and political stability. Unequal or unfair distribution can lead to conflict, disenfranchisement, and loss of legitimacy for governing bodies.

Governance Challenges

Governments face the challenge of balancing competing interests, ensuring transparency, and delivering equitable outcomes. Failure to manage distribution effectively can result in corruption, inefficiency, and social unrest.

Promoting Social Equity

Policies aimed at redistributing resources—such as social welfare programs, affirmative action, and progressive taxation—are direct responses to the political challenge of equitable allocation. These policies attempt to address disparities and promote inclusiveness.

- Reducing income inequality through taxation and social spending.
- Ensuring access to essential services like education and healthcare.
- Protecting minority rights and promoting political participation.
- Enhancing transparency and accountability in allocation decisions.

Ultimately, understanding politics as the distribution of resources over time and through specific mechanisms helps clarify the ongoing struggles to achieve just and effective governance.

Frequently Asked Questions

What does the phrase 'politics is who gets what, when, and how' mean?

The phrase means that politics involves the distribution of resources, power, and opportunities among people or groups, determining who receives benefits, at what time, and by what processes or means.

How does 'who gets what, when, and how' relate to political power?

It relates to political power by highlighting that power determines the allocation of resources and benefits, influencing who obtains them, the timing of distribution, and the mechanisms through which they are granted.

Why is timing ('when') important in politics according to this concept?

Timing is crucial because political decisions and resource allocations often depend on the context, urgency, and strategic opportunities, affecting the effectiveness and acceptance of policies or benefits.

How do different political systems impact 'who gets what, when, and how'?

Different political systems, such as democracies or autocracies, have varying methods and criteria for resource distribution, influencing transparency, fairness, and the groups that benefit from political decisions.

Can 'politics as who gets what, when, and how' explain political conflicts?

Yes, political conflicts often arise because different groups compete over resources, power, and opportunities, each trying to influence the distribution in their favor.

How does public opinion affect 'who gets what, when, and how' in politics?

Public opinion can pressure politicians and policymakers to allocate resources and benefits differently, affecting decisions about who receives what, when, and how based on popular demand or social movements.

What role do institutions play in determining 'who gets what, when, and how'?

Institutions establish the rules, procedures, and norms that govern resource allocation and decision-making, shaping the fairness, efficiency, and inclusivity of political outcomes.

Additional Resources

1. *Politics: Who Gets What, When, How* by Harold D. Lasswell

This classic book introduces the fundamental question of politics: “Who gets what, when, and how?” Lasswell explores the distribution of power and resources in society, emphasizing the importance of understanding political processes to grasp how decisions are made. The work offers a foundational framework for analyzing political behavior and policy outcomes.

2. *The Logic of Collective Action* by Mancur Olson

Olson examines the challenges groups face in organizing collective efforts to achieve shared political goals. He explains why individuals may not act in their group’s best interest unless there are incentives to do so. This book provides insight into the dynamics of political mobilization and resource allocation.

3. *Power: A Radical View* by Steven Lukes

Lukes presents a multidimensional view of power, exploring how decisions are made, how certain issues are kept off the agenda, and how desires and beliefs are shaped. This book deepens the understanding of who controls resources and political influence beyond overt decision-making.

4. *The Politics of Redistribution* by Erik Wibbels

Wibbels analyzes how political institutions and social structures influence the distribution of wealth and public goods. Focusing on comparative politics, the book explains why some governments redistribute resources more effectively and equitably than others.

5. *Who Governs? Democracy and Power in an American City* by Robert A. Dahl

Dahl investigates political power in New Haven, Connecticut, to determine who really controls local government decisions. Through empirical research, he demonstrates the complexity of political influence and the interplay of various interest groups in resource allocation.

6. *Democracy and Redistribution* by Carles Boix

Boix explores the relationship between democratic institutions and economic redistribution, arguing that democratic governance often leads to more equitable resource distribution. The book combines theory and evidence to explain how political competition affects who benefits from public policies.

7. *The Origins of Political Order* by Francis Fukuyama

Fukuyama traces the development of political institutions from prehuman times to the French Revolution. The book provides a historical context for understanding how societies organize power, make collective decisions, and allocate resources.

8. *The Political Economy of Inequality* by Frank Stilwell

Stilwell examines how economic policies and political decisions shape income and wealth distribution. He discusses the role of government, markets, and social forces in determining who gains access to resources and how political power influences economic outcomes.

9. *Making Democracy Work: Civic Traditions in Modern Italy* by Robert D. Putnam

Putnam studies regional governments in Italy to understand why some democratic institutions perform better in distributing resources and providing public goods. The book highlights the importance of social capital, civic engagement, and political culture in shaping who benefits from political decisions.

politics as who gets what when and how: *Politics: Who Gets What, When, How* Harold D. Lasswell, 2018-12-05 *Politics: Who Gets What, When, How*, which was first published in 1936, is the classic analysis of power and manipulation by ruling elites and counter-elites. The themes that occur throughout this essay have become the guideposts for most modern research in techniques of propaganda and political organization. "It is unquestionably one of the most influential treatments of politics published in this century."—David B. Truman, Prof. of Public Law and Government, Columbia University "This book is a landmark of modern political science."—Daniel Lerner, Professor of Sociology, M.I.T. "For over three decades the students of politics have had their intellectual horizons constantly broadened by Harold Lasswell. There is probably no man in American political science who has brought to bear as many new approaches to the analysis of political behaviour as he has. There is perhaps no better way to get the essence of Lasswell's thought than in his book, *Politics: Who Gets What, When, How*."—Seymour Martin Lipset, Department of Sociology, U.C. Berkeley

politics as who gets what when and how: *Corporate Politics for IT Managers: How to get Streetwise* Keith Patching, Robina Chatham, 2012-10-12 'Corporate Politics for IT Managers: How to get Streetwise' addresses some of the most persistent problems faced by IT managers which undermine their power and influence in their organisations and which prevents them obtaining seat on the board of directors. It deals directly with the IT stereotype and offers advice on how to survive and then thrive despite the odds being stacked against the IT manager. Divided into four parts, 'How the IT Manager Gets Streetwise' begins by placing the IT stereotype in context, and proceeds to challenge the IT persons' habitual behaviours of the past, and present ways of rethinking IT services, before concluding with how managers can become streetwise in today's organisations. There are many books on the market telling IT managers how to construct IT and IS strategies, and even more on how to 'run' an IT department or function. However, few deal with the politics in organisations. 'Corporate Politics for IT Managers: How to get Streetwise' equips IT managers with the necessary skills to cope successfully in the political arenas of the boardrooms in today's businesses.

politics as who gets what when and how: *Paddy Machiavelli - How to Get Ahead in Irish Politics* John Drennan, 2014-09-19 The good, the bad and the cynical - how to get ahead in Irish politics It might appear strange that a 16th-century Italian political philosopher should provide us with a roadmap to political power in Ireland, but as John Drennan's tongue-in-cheek account Paddy Machiavelli makes clear, the gap between the parish pump and the Renaissance palazzo is a narrow one indeed. In fact, observe the Irish body politic for long enough and the lines between the Florentine's faceless hero and our own Dáil aristocrats begin to blur ever so slightly. A veteran of countless Leinster House power plays, Drennan takes inspiration from Machiavelli's *The Prince*, dispensing invaluable advice for the aspiring politician, such as how to cultivate the cloak of being

an 'ordinary decent skin', how to choose your scapegoats carefully, and how to be a straight-talker whilst embracing vagueness. This hilarious account of the compromises that the Irish politician has to make in order to seize power is not just a 'celebration' of the politics of cynical amorality; it's a timely reminder of the role we play in choosing our leaders. In this wildly entertaining book, celebrated Sunday Independent columnist John Drennan is at his best. The definitive guide to success in Irish politics, Paddy Machiavelli will have you laughing and crying all the way to the ballot box. 'Drennan's storytelling style is stage Irish, and like a culchie Cicero, he laces his brilliance with bile. It is the politics of Paddy and in the tradition of Hall's Pictorial Weekly via Craggy Island.' Gerard Howlin, *The Sunday Times* 'There is a fierce intelligence and fierce independence at work here. No one escapes his gimlet eye, and he brings to the whole bizarre ecosystem of the Dáil a unique perspective, that of the insider who remains resolutely outside.' Brendan O'Connor, *The Sunday Independent* 'If Paddy really wants to know the story, generally he asks Drennan first.' Lise Hand, *Irish Independent* 'Drennan is one of the best pundits in Ireland. He has an understanding of politics that is both instinctive and intellectual.' Pat Leahy, *The Sunday Business Post* '[Drennan] reads the political game like the sort of bookie who always leaves Cheltenham with a full satchel.' Ivan Yates, *Newstalk*

politics as who gets what when and how: *Disability, Politics and the Struggle for Change* Len Barton, 2013-11-19 This book seeks to explore how disability is understood and the position and experiences of disabled people both within and across different societies. The authors explore the question of politics in relation to specific struggles, providing a wealth of insights and ideas, and examine the nature and value of a social model of disability. They criticize exclusionary barriers while advancing a more democratic and participatory society based on principles of equality, offer cross-cultural insights and present stimuli for debate and further research. The text is accessible, topical, and provides new and innovative thinking. This book will appeal to undergraduate and postgraduate students, lecturers and researchers with interests in education, social policy, sociology and disability studies.

politics as who gets what when and how: *Politics in America* Dye, John, Lydia Andrade, 1998-12 Contains answers to accompany true-false questions and multiple choice questions.

politics as who gets what when and how: *The Best Job in Politics: Exploring How Governors Succeed as Policy Leaders* Alan Rosenthal, 2013 Governors - both in, and now out of, office - see the job as the best in politics. Why is that? This title shows students how and why governors succeed as policy leaders and makes a case as to why some governors are better at leveraging the institutional advantages of the office.

politics as who gets what when and how: *How To Do Politics With Art* Violaine Roussel, Anurima Banerji, 2016-10-26 A major issue in the relation of art to the rest of society is the question of how art penetrates politics. From the perspective of most art scholars, this is a question of aesthetics—whether politics necessarily pollutes and debases the quality of the arts. From the perspective of social science, it has been primarily a question of meaning—how political messages are conveyed through artistic media. Recent work has begun to broaden the study of the arts and politics beyond semiosis and content focus. Several strands of scholarship are converging around the general issue of the social relationships within which art takes political form, that is, how art and artists do politics. This perspective of doing moves analysis beyond addressing the meaning of culture, to focus on the ways that art is embedded in—and intervenes in—social relationships, activities, and institutions. This volume brings together an interdisciplinary group of scholars from France and the United States to investigate these directions and themes by exploring the question of how to do politics with art from a comparative standpoint, putting sociological approaches in conversation with other disciplinary prisms. It will be of interest to scholars of social movements and politicization, the sociology of art, art history, and aesthetics.

politics as who gets what when and how: *How to Journal Through Tough Times* Tom Garz, 2022-12-09 It was hard writing this book, but I'm so glad I did. I've journaled for many years to help sort myself out. I rarely share my journaling with others, since my thoughts and feelings are very

private to me. The Tough Times I chose to write/journal about in this book were my experiences from 2015 to the Present – with the Political Turmoil, the Pandemic, and now with the Economy. I didn't realize I had so much in me, bottled up, over recent events – until I started writing. I am sharing My Story now, as an example of how I journal. In reading my book, you will get: A Brief Overview of Journaling, especially how I do it; My Story including My Personal Advice to Self's to get myself Through (and Out Of) Tough Times; 250 Writing Prompts to get you going on your Journaling; Internet Search String Examples for you to find your own Writing Prompts related to your specific Tough Times, e.g. sickness, loss, worry, loneliness, etc.; Encouragement all the way along for you as you journal to get better and stay better. You might find, like I did, that if you fix the insides, the outsides get better all on their own. I was going to title my book What Just Happened? Is Happening Now, and Is Probably Going to Happen Again. – But that was just way too long. I like the title How to Journal Through Tough Times better. What do you think? I hope you find my book useful. If not, I sincerely wish you find what you're looking for.
