political science major byu: The Precarious Walk Phyllis Barber, 2022-06-21 In wide-ranging personal essays at the crossroads of place and perspective, Phyllis Barber challenges and celebrates her Great Basin roots. From a backwoods church in Arkansas to the disappeared town of St. Thomas, buried beneath the waters of Lake Mead, award-winning essayist Phyllis Barber travels roads both internal and external, reflecting upon place and perspective, ambition and loss in *The Precarious Walk*. As a child growing up in the Mojave Desert, she witnesses the massive power of the Hoover Dam and a fiery rip in the sky from the Nevada Test Site. As an adult, Barber searches for meaning through music, movement, and human connection, examining her Mormon upbringing, the profound ways people and landscape impact one another, and the sudden loss of her first child with open-ended honesty. Barber's distinctly feminine voice expands upon the literature of the West alongside Ellen Meloy and Terry Tempest Williams, with seeking and questioning at the heart of this deeply felt collection. In the spirit of Flannery O'Connor and David James Duncan, Barber adds a deeply generous and—true to her high-desert roots—down-to-earth voice to the illumination of human experience.

political science major byu: A Conversation with Ambassador Keith C. Smith Keith C. Smith, 2010-04-12 For more than 230 years, extraordinary men and women have represented the United States abroad with courage and dedication. Yet their accomplishments in promoting and protecting American interests remain little known to their compatriots. The Association for Diplomatic Studies and Training (ADST) created the Diplomatic Oral History Series to help fill this void by publishing in book form selected transcripts of interviews from its Foreign Affairs Oral History Collection. The text contained herein acquaints readers with the distinguished service of the Honorable Keith C. Smith as a career Foreign Service officer, special adviser to the Government of Estonia, and Ambassador to Lithuania. We are proud to make his interview available through the Diplomatic Oral History Series.

political science major byu: The Mormon Hierarchy D. Michael Quinn, 1997 The Mormon church today is led by an elite group of older men, nearly three-quarters of whom are related to current or past general church authorities. This dynastic hierarchy meets in private; neither its minutes nor the church's finances are available for public review. Members are reassured by public relations spokesmen that all is well and that harmony prevails among these brethren. But by interviewing former church aides, examining hundreds of diaries, and drawing from his own past experience as an insider within the Latter-day Saint historical department, D. Michael Quinn presents a fuller view. His extensive research documents how the governing apostles, seventies, and presiding bishops are likely to be at loggerheads, as much as united. These strong-willed, independent men-like directors of a large corporation or supreme court justices-lobby among their colleagues, forge alliances, out-manuever opponents, and broker compromises. There is more: clandestine political activities, investigative and punitive actions by church security forces, personal loans from church coffers (later written off as bad debts), and other privileged power-vested activities. Quinn considers the changing role and attitude of the leadership toward visionary experiences, the momentous events which have shaped quorum protocol and doctrine, and day-to-day bureaucratic intrigue from the time of Brigham Young to the dawn of the twenty-first century. The hierarchy seems at root well-intentioned and even at times aggressive in fulfilling its stated responsibility, which is to expedite the Second Coming. Where they have become convinced that God has spoken, they have set aside personal differences, offered unqualified support, and spoken with a unified voice. This potential for change, when coupled with the tempering effect of competing viewpoints, is something Quinn finds encouraging about Mormonism. But one should not assume that these men are infallible or work in anything approaching uninterrupted unanimity.

political science major byu: The Marrow of Human Experience William Albert Wilson, Jill Terry Rudy, 2006-09-30 Composed over several decades, the essays here are remarkably fresh and relevant. They offer instruction for the student just beginning the study of folklore as well as repeated value for the many established scholars who continue to wrestle with issues that Wilson has addressed. As his work has long offered insight on critical matters—nationalism, genre, belief, the relationship of folklore to other disciplines in the humanities and arts, the currency of legend, the significance of humor as a cultural expression, and so forth—so his recent writing, in its reflexive approach to narrative and storytelling, illuminates today's paradigms. Its notable autobiographical dimension, long an element of Wilson's work, employs family and local lore to draw conclusions of more universal significance. Another way to think of it is that newer folklorists are catching up with Wilson and what he has been about for some time. As a body, Wilson's essays develop related topics and connected themes. This collection organizes them in three coherent parts. The first examines the importance of folklore—what it is and its value in various contexts. Part two, drawing especially on the experience of Finland, considers the role of folklore in national identity, including both how it helps define and sustain identity and the less savory ways it may be used for the sake of nationalistic ideology. Part three, based in large part on Wilson's extensive work in Mormon folklore, which is the most important in that area since that of Austin and Alta Fife, looks at religious cultural expressions and outsider perceptions of them and, again, at how identity is shaped, by religious belief, experience, and participation; by the stories about them; and by the many other expressive parts of

life encountered daily in a culture. Each essay is introduced by a well-known folklorist who discusses the influence of Wilson's scholarship. These include Richard Bauman, Margaret Brady, Simon Bronner, Elliott Oring, Henry Glassie, David Hufford, Michael Owen Jones, and Beverly Stoeltje.
