"Rush Revere here, along with my chatty horse, Liberty! Wait a minute...Liberty? Where did he go?" "Reporting for duty, Captain Revere!" "Liberty, where did you get that spinach smoothie?" *Slurp* Well, he certainly didn't get it from 1787—that's where we're rush, rush, rushing off to next with our enthusiastic young friends in the Time-Traveling Crew (but not before causing a major security incident at the National Archives in Washington, D.C.!) A funny case of mistaken identity and a wild chase through the busy streets of Philadelphia will lead us to the famously introverted Father of our Constitution, James Madison, and the heated secret debates over the Constitution and the Bill of Rights. Fast-forward a few years, and we'll help his brave wife, Dolley, risk her life to save an important portrait from the White House as the British set Washington afire! What greater symbol of our exceptional nation's hard-won freedoms than the Star-Spangled Banner, sewn by American icon Betsy Ross? Perhaps Francis Scott Key can explain what inspired him to pay tribute to our glorious flag by writing our beautiful national anthem. But watch out for the bombs bursting in air, because when we reach 1814, we'll be front and center at a major battle to defend our liberty. Jump back in the saddle with me, Rush Revere, and the Time-Traveling Crew, as my trusty horse, Liberty, takes us on another flying leap through American history into a past teeming with heroes and extraordinary citizens who have so much to teach us about patriotism. All you need to bring is your curiosity about the birth of our democracy—I've got plenty of tricornered hats for everyone!

pop pop rush cool math: Educating English Learners Joyce W. Nutta, Carine Strebelt, Kouider Mokhtari, Florin M. Mihai, Edwidge Crevecoeur Bryant, 2020-07-29 In Educating English Learners, Joyce W. Nutta and her colleagues offer practical tools for helping schools and teachers successfully integrate English learners into mainstream classrooms. Drawing on the One Plus model presented in their award-winning book, Preparing Every Teacher to Reach English Learners, the authors now turn their attention to the needs of K-12 teachers who typically have two or three English learners in their classrooms. English learners are not a homogenous group, and the challenges they face vary tremendously. Nutta and her colleagues present protocols and case studies to help pre-service and in-service teachers understand the needs of English learners in their classrooms and differentiate instruction and assessment accordingly. Woven throughout the book are the stories of Gero, Edith, Tasir, and Edgar, four case study students of different ages, backgrounds, and levels of English proficiency. The authors show how the protocols they provide can be applied to adapt sample lessons for students like these, across a range of grade levels, subject areas, and pedagogical approaches. Finally, the authors show how the system can be applied school-wide for a collaborative approach to meeting English learners' needs.
