

politics is who gets what when how

politics is who gets what when how is a concise yet profound definition that encapsulates the essence of political science and the dynamics of power distribution within societies. This phrase highlights the fundamental nature of politics as the process through which resources, rights, opportunities, and privileges are allocated among individuals and groups. Understanding this concept requires exploring how political systems operate, the mechanisms of decision-making, and the roles of various actors in shaping outcomes. This article delves into the intricacies of this definition, examining its origins, implications, and relevance in contemporary political discourse. It also discusses the theoretical frameworks that underpin political allocation and the practical aspects of governance and policy-making. By unpacking the phrase "politics is who gets what when how," the article aims to provide a comprehensive view of political processes and their impact on society.

- The Origin and Meaning of the Phrase
- The Role of Power and Authority
- Mechanisms of Political Decision-Making
- Distribution of Resources and Policy Implications
- Contemporary Applications and Examples

The Origin and Meaning of the Phrase

The phrase "politics is who gets what when how" was popularized by political scientist Harold Lasswell in the mid-20th century. Lasswell's definition succinctly captures the allocation function of politics by emphasizing three critical questions: who receives resources or benefits, at what time or under what circumstances, and through what processes or means. This definition moves away from viewing politics solely as conflict or ideology and instead focuses on the practical outcomes of political activity.

Historical Context

Harold Lasswell introduced this definition during a period when political science sought clearer analytical frameworks to study power and governance. The phrase helped shift political analysis toward understanding the distributional consequences of political decisions rather than merely ideological debates. Since then, it has become foundational in political science literature and education.

Key Elements Explained

The phrase breaks down into four essential components:

- **Who:** Identifies the actors, groups, or individuals involved or affected by political decisions.
- **Gets what:** Refers to the allocation of resources, benefits, rights, or opportunities.
- **When:** Indicates the timing or conditions under which distribution occurs.
- **How:** Describes the mechanisms, processes, or institutions through which allocations are made.

Understanding these components is vital to grasping the full scope of political dynamics in any society.

The Role of Power and Authority

Politics fundamentally revolves around power and authority, which determine who controls resources and decision-making. The phrase "politics is who gets what when how" implicitly acknowledges that power asymmetries influence allocation outcomes. Without power, groups or individuals cannot effectively secure benefits or influence timing and processes.

Power as the Currency of Politics

Power in politics can take many forms, including coercive power, economic influence, social capital, and institutional authority. Political actors leverage power to negotiate, bargain, and enforce decisions that determine resource distribution. The balance of power shapes not only who benefits but also the mechanisms of allocation.

Authority and Legitimacy

Authority confers legitimacy on those who make political decisions. Legitimate authority ensures that distribution processes are generally accepted, reducing conflict and enhancing stability. Political authority can be derived from constitutions, laws, traditions, or popular consent, all of which influence the "how" in the phrase by defining procedural norms.

Mechanisms of Political Decision-Making

The phrase "politics is who gets what when how" also refers to the decision-making processes that govern distribution. These mechanisms vary widely across political systems and contexts, shaping the timing and methods of allocation.

Institutions and Governance Structures

Political institutions such as legislatures, executives, courts, and bureaucracies play critical roles in deciding who gets what. These bodies establish rules, mediate conflicts, and enforce policies. Different governance models—democratic, authoritarian, hybrid—dictate distinct decision-making pathways and degrees of transparency and inclusiveness.

Negotiation and Bargaining

Politics often involves negotiation between competing interests. Bargaining processes determine compromises and coalitions that influence allocation outcomes. Interest groups, political parties, and civil society actors participate in these negotiations, seeking to maximize their share of resources or influence timing and procedures.

Policy Formulation and Implementation

Policy-making is central to operationalizing the "what" and "when" in political distribution. Policies define the specifics of resource allocation, eligibility criteria, timing of benefits, and modes of delivery. Effective implementation requires coordination across multiple levels of government and engagement with stakeholders.

Distribution of Resources and Policy Implications

The core of the phrase concerns the distribution of tangible and intangible resources, which has profound implications for social equity, economic development, and political stability.

Types of Resources in Political Allocation

Resources distributed through politics include:

- Economic benefits such as funding, subsidies, or taxation policies
- Social services including education, healthcare, and welfare programs
- Political rights like voting access, representation, and legal protections
- Cultural and symbolic resources such as recognition and status

The allocation of these resources impacts societal cohesion and individual well-being.

Equity and Justice Considerations

Political allocation raises questions about fairness and justice. Who gets what can reinforce or

mitigate inequalities. Policies must balance competing demands for efficiency, equity, and political feasibility. The distribution methods and timing can either empower marginalized groups or perpetuate systemic disadvantages.

Contemporary Applications and Examples

The phrase remains highly relevant in analyzing current political events and policy debates. It provides a framework to assess how political actors allocate resources in different contexts and the consequences thereof.

Electoral Politics and Resource Allocation

During elections, politicians promise particular distributions of resources to secure votes. Campaign finance, patronage, and policy platforms illustrate "who gets what when how" in action. The timing of resource delivery often aligns with electoral cycles to maximize political support.

Public Policy and Social Programs

Governments use social programs to allocate resources based on political priorities and public demands. Decisions about welfare expansion, healthcare access, or infrastructure investment reflect political negotiations about distribution and timing. The effectiveness of these policies depends on transparent and equitable processes.

Global Politics and Resource Distribution

On the international stage, the phrase applies to diplomacy, trade agreements, and aid distribution. Powerful nations influence who benefits from global resources, when aid is provided, and how international rules are enforced. This global dimension highlights the phrase's versatility in explaining resource allocation across different scales.

Frequently Asked Questions

What does the phrase 'politics is who gets what, when, how' mean?

The phrase means that politics is fundamentally about the distribution of resources and power—deciding who receives certain benefits, at what time, and through what processes or mechanisms.

Who originally coined the phrase 'politics is who gets what,

when, how'?

The phrase is often attributed to political scientist Harold Lasswell, who described politics as the study of 'who gets what, when, how' in his analysis of power and resource distribution.

How does the phrase 'who gets what, when, how' relate to modern political decision-making?

It highlights that political decisions revolve around allocating resources and benefits among different groups, determining timing and methods, which influences policy outcomes and power dynamics.

Why is understanding 'who gets what, when, how' important in political science?

Understanding this framework helps analyze how power operates, how interests are negotiated, and how policies impact different segments of society.

Can the phrase 'politics is who gets what, when, how' apply to international relations?

Yes, it applies to international relations as countries negotiate over resources, trade, alliances, and conflicts, deciding who gains what benefits, under what conditions, and by what means.

How does 'politics is who gets what, when, how' explain political conflicts?

Conflicts often arise because different groups compete over limited resources and benefits, disagreeing on who should get what, when, and how, leading to political struggles and debates.

What role does timing ('when') play in the phrase 'who gets what, when, how'?

Timing affects political outcomes by determining when resources or policies are allocated, which can influence effectiveness, public opinion, and power balances.

How does the 'how' aspect influence political processes according to the phrase?

The 'how' refers to the methods and procedures through which decisions are made and resources are distributed, including laws, negotiations, elections, and governance structures.

Is the phrase 'politics is who gets what, when, how' still relevant in analyzing contemporary politics?

Yes, it remains a foundational concept in understanding political dynamics, as the core issues of

allocation, timing, and method continue to shape political behavior and policy outcomes.

Additional Resources

1. *Politics: Who Gets What, When, How* by Harold D. Lasswell

This seminal work by Harold Lasswell outlines the fundamental question of politics, defining it as the process through which societies decide who receives resources, when they receive them, and how the distribution is managed. Lasswell explores power dynamics, decision-making mechanisms, and the roles of political institutions. The book provides a foundational framework for understanding political behavior and policy outcomes.

2. *The Logic of Collective Action: Public Goods and the Theory of Groups* by Mancur Olson

Olson's influential book examines how individuals in groups work together—or fail to—to obtain public goods. He explores the challenges of collective action, especially how benefits are distributed and who bears the costs. The work connects closely to political questions about resource allocation and the role of group interests in shaping policy.

3. *Who Gets What: The New Politics of Class* by Lettie L. Lockhart

Lockhart investigates the distribution of economic resources and political power in contemporary society. The book analyzes class structures and their influence on political decisions, highlighting how economic status affects access to benefits and opportunities. It offers insight into the interplay between social stratification and political outcomes.

4. *Theories of Democracy: A Critical Introduction* by Frank Cunningham

This book provides a comprehensive overview of democratic theory, focusing on how democratic systems decide who benefits from collective decisions. Cunningham discusses various models of democracy and their implications for resource distribution, participation, and governance. It serves as a guide to understanding the normative and practical aspects of political allocation.

5. *Policy Paradox: The Art of Political Decision Making* by Deborah Stone

Stone explores the complexities and contradictions inherent in policy-making processes. She argues that politics is not just about rational decisions but also about values, symbols, and power struggles over who gets what, when, and how. The book challenges traditional models of policy analysis by emphasizing the role of narrative and conflict.

6. *Power and Resources: Political Economy in a Comparative Perspective* by Linda Weiss

Weiss examines how political power and economic resources are distributed across different countries and systems. The book analyzes the influence of political institutions, social groups, and economic structures on resource allocation. It highlights the importance of comparative analysis in understanding political outcomes.

7. *The Political Economy of Redistribution* by Walter Korpi and Joakim Palme

This work delves into the mechanisms and politics behind the redistribution of wealth and resources in welfare states. Korpi and Palme explore who benefits from social policies and how political actors negotiate these outcomes. The book combines empirical data with theory to explain the distributional effects of policy.

8. *Who Rules America? Power and Politics* by G. William Domhoff

Domhoff provides a critical analysis of the power structures in the United States, focusing on elite groups and their control over political and economic resources. The book investigates how decisions

about resource distribution are influenced by social class, corporate interests, and political networks. It offers a detailed look at who really gets what in American politics.

9. *The Politics of Redistribution* by Torben Iversen

Iversen explores the political processes that determine redistribution policies in advanced democracies. He analyzes how different electoral systems, party competition, and social coalitions affect who receives benefits and when. The book provides a theoretical and empirical assessment of the factors shaping redistribution outcomes.

politics is who gets what when how: *Fixing American Politics* Roderick Hart, 2021-11-29
Fixing American Politics: Solutions for the Media Age brings together original chapters from 34 noted scholars from two disciplines – political science and communication – asked to identify the most pressing problems facing the American people and how they can be solved. Authors address the questions succinctly and directly, with their favored solutions featured in chapter titles that exhort and inspire. The book gives the reader much to think about and debate. Should news outlets be funded with public money rather than by private enterprise? Are the new social media a boon or a bane to political elections? Is the American past dead, or is it living once again? Do churchgoers and environmentalists have anything to discuss? Is the FCC doing its job? Can political ads be made less toxic? Should Fox News be cancelled? Should cancel cultures be cancelled? Can we become more civil to one another and, if so, how? Fixing American Politics poses all the best questions ... and offers some concrete answers as well. This book is perfect for students, citizens, the media, and anyone concerned with contemporary challenges to civic life and discourse today.

politics is who gets what when how: *The punk rock politics of Joe Strummer* Gregor Gall, 2022-06-28
Joe Strummer was one of the twentieth century's iconic rock'n'roll rebels. As frontperson, spokesperson and chief lyricist for The Clash, he played a major role in politicising a generation through some of the most powerful protest songs of the era, songs like 'White Riot', 'English Civil War' and 'London Calling'. At the heart of this protest was the struggle for social justice and equality. The punk rock politics of Joe Strummer examines Strummer's beliefs on a range of issues – including socialism, alienation, exploitation, multiculturalism and humanism – analysing their credibility, influence and impact, and asking where they came from and how they developed over time. Drawing on Strummer's lyrics, various interviews and bootleg recordings, as well as interviews with those he inspired, The punk rock politics of Joe Strummer takes the reader on a journey through the political influences and motivations that defined one of the UK's greatest punk icons.

politics is who gets what when how: *The Politics of Place and the Limits of Redistribution* Melissa Ziegler Rogers, 2015-10-14
Numerous scholars have noticed that certain political institutions, including federalism, majoritarian electoral systems, and presidentialism, are linked to lower levels of income redistribution. This book offers a political geography explanation for those observed patterns. Each of these institutions is strongly shaped by geography and provides incentives for politicians to target their appeals and government resources to localities.

Territorialized institutions also shape citizens' preferences in ways that can undermine the national coalition in favor of redistribution. Moreover, territorial institutions increase the number of veto points in which anti-redistributive actors can constrain reform efforts. These theoretical connections between the politics of place and redistributive outcomes are explored in theory, empirical analysis, and case studies of the USA, Germany, and Argentina.

politics is who gets what when how: Media Power, Media Politics Mark J. Rozell, Jeremy D. Mayer, 2008-08-15 *Media Power, Media Politics*, Second Edition, examines the role and influence of the media in every sphere of American politics. Organized thematically, the book analyzes the relationship between the media and key institutions, political actors, and nongovernmental entities, as well as the role of the new media, media ethics, and foreign policy coverage. Written clearly and concisely by leading scholars in the field, the chapters serve as broad overviews to the issues, while discussion questions and suggestions for further reading encourage deeper inquiry. Updated throughout, the second edition includes expanded coverage of the evolving role of new media, a new chapter on terrorism and the media, and new pedagogical exercises and featured interviews with journalists, bloggers, and media advisers.

politics is who gets what when how: The Saturday Review of Politics, Literature, Science and Art, 1909

politics is who gets what when how: Doing Politics Jacqui Briggs, 2014-11-27 Aimed at politics students in their final year of secondary education or beginning their degrees, this highly readable book is the ideal introduction to politics. *Doing Politics* is a detailed guide to both the study and the activity of politics, which explores why we study politics, what is involved in a politics degree, and the skills and mindset that are needed to tackle the subject. Key questions are answered, including: • Just what is politics and how does it affect us? • Why does politics, and why do politicians, get a bad press? • How do we study non-traditional forms of politics? Assuming no prior knowledge, this lively and engaging guide is the perfect introduction to the academic study of politics.

politics is who gets what when how: The Gospel According to the Fix Chris Cillizza, 2012-07-10 A divine guide to deciphering the sinful world of American politics, from the author of the Washington Post's *The Fix* The political world is full of acronyms, shortcuts, and lingo that stand as a barrier to entry for anyone not in the business. The onset of social media has only made that barrier higher, as insiders tweet furiously to one another in a language most of us can't even understand. Everyday Americans and even political junkies need a how-to manual for understanding what words matter in this arena and why. Enter Brother Chris Cillizza and *The Gospel According to the Fix*--an essential guide to the wonderfully odd religion of politics. Based on his highly popular blog, *The Gospel According to the Fix* will teach you something new about politics, no matter who you are and whom you know. In our torturous political climate, this Gospel is the one true source for comprehending what the heck is going on in DC. Chapter and verse, this political Gospel will include parables the likes of: • Why Ron Paul's candidacy is a lot like the TV show *Friday Night Lights* • What it takes to be Richard Ben Cramer and write the political classic *What It Takes* • The top ten negative campaign ads of all time • The top ten issues candidates should be discussing but aren't because of the economy • The dos and don'ts of surviving a political sex scandal

politics is who gets what when how: On Being a Language Teacher Norma López-Burton, Denise Minor, 2014-03-11 *On Being a Language Teacher* provides an innovative, personal approach to second-language teaching. Through illustrative personal anecdotes, this text guides new and aspiring language teachers through key pedagogical strategies while encouraging productive reflection by classroom veterans. An ancillary website provides online videos to complement the text by showing an experienced teacher applying the book's lessons. In a market dominated by dense theoretical approaches to language pedagogy, this text provides an instantly accessible, practical set of teaching tools for educators at all levels. Its accessible style and affordability give it the flexibility to serve as either a primary or a supplemental text for teaching assistants, students in credential programs, or undergraduates in applied linguistics courses.

politics is who gets what when how: Technocracy and the Epistemology of Human Behavior Paul Gunn, 2022-11-10 In *Power Without Knowledge: A Critique of Technocracy* (2019), Jeffrey Friedman presented a sweeping reinterpretation of modern politics and government as technocratic, even in many of its democratic dimensions. Building on a new definition of technocracy as governance aimed at solving social and economic problems, Friedman showed that the epistemic demands that such governance places on political elites and ordinary people alike may be overwhelming if technocrats fail to attend to the ideational heterogeneity of the human beings whose control is the object of technocratic power. Yet a recognition of ideational heterogeneity considerably complicates the task of predicting behavior, which is essential to technocratic control—as Friedman demonstrated with pathbreaking critiques of the homogenizing strategies of neoclassical economics, positivist social science, behavioral economics, and populist democratic politics. In *Technocracy and the Epistemology of Human Behavior*, thirteen political theorists, including Friedman himself, debate the implications of *Power Without Knowledge* for social science, modern governance, the politics of expertise, post-structuralism, anarchism, and democratic theory; and Friedman responds to his critics with an expansive defense of his vision of contemporary politics and his political epistemology of ideationally diverse human beings. This book was originally published as a special issue of the *Critical Review*.

politics is who gets what when how: Inside the Political Mind Greg Power, 2024 Why have efforts to strengthen quality of governance so often failed in some of the world's most troubled states? Because they almost always ignore the human side of politics.

politics is who gets what when how: Gender and Politics Jane H. Bayes, 2012-07-10 This timely collection offers a fresh look on the impact of gender perspectives in the discipline of political science at the beginning of the 21st century. Jane Bayes combats the Eurocentric focus that has characterised both fields and suggests viable alternatives for the future of the disciplines.

politics is who gets what when how: How to Journal Through Tough Times Tom Garz, 2022-12-09 It was hard writing this book, but I'm so glad I did. I've journaled for many years to help sort myself out. I rarely share my journaling with others, since my thoughts and feelings are very private to me. The Tough Times I chose to write/journal about in this book were my experiences from 2015 to the Present – with the Political Turmoil, the Pandemic, and now with the Economy. I didn't realize I had so much in me, bottled up, over recent events – until I started writing. I am sharing My Story now, as an example of how I journal. In reading my book, you will get: A Brief Overview of Journaling, especially how I do it; My Story including My Personal Advice to Self's to get myself Through (and Out Of) Tough Times; 250 Writing Prompts to get you going on your Journaling; Internet Search String Examples for you to find your own Writing Prompts related to your specific Tough Times, e.g. sickness, loss, worry, loneliness, etc.; Encouragement all the way along for you as you journal to get better and stay better. You might find, like I did, that if you fix the insides, the outsides get better all on their own. I was going to title my book What Just Happened? Is Happening Now, and Is Probably Going to Happen Again. – But that was just way too long. I like the title How to Journal Through Tough Times better. What do you think? I hope you find my book useful. If not, I sincerely wish you find what you're looking for.

politics is who gets what when how: British Politics Richard S. Grayson, 2016-04-07 No one saw it coming. No pundit, no pollster and no political leader predicted David Cameron's Conservative Party would win a majority of seats in Parliament and his three main opponents would resign as party leaders. The consequences of the coalition also became clear as the Liberal Democrats fell dramatically from grace, and lost their spot as Britain's third party. And despite Scotland voting 'NO' to independence in 2014, the election result also threatens the Union, with the Scottish National Party winning all but three of the country's seats. In this timely edition, Richard S. Grayson analyses Britain's changing political landscape, and explores the role of the media, the European Union and the UK's 'special relationship' with the US. Thorough and incisive, *British Politics: A Beginner's Guide* is the perfect introduction to the structure, parties and personalities of British Government today.

politics is who gets what when how: The Electrician , 1924

politics is who gets what when how: Temperance , 1908

politics is who gets what when how: How Democracy Ends David Runciman, 2018-06-05

How will democracy end? And what will replace it? A preeminent political scientist examines the past, present, and future of an endangered political philosophy Since the end of World War II, democracy's sweep across the globe seemed inexorable. Yet today, it seems radically imperiled, even in some of the world's most stable democracies. How bad could things get? In *How Democracy Ends*, David Runciman argues that we are trapped in outdated twentieth-century ideas of democratic failure. By fixating on coups and violence, we are focusing on the wrong threats. Our societies are too affluent, too elderly, and too networked to fall apart as they did in the past. We need new ways of thinking the unthinkable -- a twenty-first-century vision of the end of democracy, and whether its collapse might allow us to move forward to something better. A provocative book by a major political philosopher, *How Democracy Ends* asks the most trenchant questions that underlie the disturbing patterns of our contemporary political life.

politics is who gets what when how: The Labour Magazine , 1928

politics is who gets what when how: The Journal of Education , 1915

politics is who gets what when how: The Palgrave Handbook of Australian and New Zealand Criminology, Crime and Justice Antje Deckert, Rick Sarre, 2017-11-03 This handbook engages key debates in Australian and New Zealand criminology over the last 50 years. In six sections, containing 56 original chapters, leading researchers and practitioners investigate topics such as the history of criminology; crime and justice data; law reform; gangs; youth crime; violent, white collar and rural crime; cybercrime; terrorism; sentencing; Indigenous courts; child witnesses and children of prisoners; police complaints processes; gun laws; alcohol policies; and criminal profiling. Key sections highlight criminological theory and, crucially, Indigenous issues and perspectives on criminal justice. Contributors examine the implications of past and current trends in official data collection, crime policy, and academic investigation to build up an understanding of under-researched and emerging problem areas for future research. An authoritative and comprehensive text, this handbook constitutes a long-awaited and necessary resource for dedicated academics, public policy analysts, and university students.

politics is who gets what when how: Crime Control, Politics and Policy Peter Benekos, 2014-09-25 This book reviews concepts, information and points of view that help to explain the context and constraints of the criminal justice system. The chapters summarize developments in public policy and crime control, and interweave themes central to the discussion: the impact of ideology, the role of the media, and the politicization of crime and criminal justice.
