Overview of the Praxis Examination in Speech Language Pathology

The praxis examination in speech language pathology is a standardized assessment developed by the Educational Testing Service (ETS) to measure the knowledge and skills of candidates seeking to enter the field of speech-language pathology. It serves as a benchmark for academic and professional readiness, ensuring that candidates possess the foundational understanding necessary to provide high-quality clinical services. The exam is widely recognized by state licensing boards, certification agencies such as the American Speech-Language-Hearing Association (ASHA), and employers.

The praxis exam evaluates core competencies in areas such as speech and language development, assessment techniques, intervention strategies, and professional ethics. Its comprehensive nature requires candidates to demonstrate proficiency across a broad spectrum of topics relevant to speech-

language pathology practice. Success on this exam is often a prerequisite for state licensure and for obtaining the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) from ASHA.

Eligibility and Registration Process

To be eligible for the praxis examination in speech language pathology, candidates typically must be enrolled in or have completed an accredited graduate program in speech-language pathology. Accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) ensures that the academic curriculum meets the standards required for professional practice.

Registration for the praxis exam is conducted through the ETS website, where candidates select their preferred test dates and locations. It is advisable to register well in advance due to limited testing slots and to allow sufficient preparation time. Candidates should verify specific state requirements, as some states mandate the praxis exam for licensure, while others may have additional criteria.

Steps to Register

1. Create an ETS account on the official Praxis website.
2. Select the Speech-Language Pathology test under the Praxis Subject Tests category.
3. Choose the desired test date and test center location.
4. Pay the examination fee using an accepted payment method.
5. Receive confirmation and admission ticket via email.

Exam Content and Format

The praxis examination in speech language pathology consists of approximately 132 multiple-choice questions that assess a candidate's knowledge across several key content areas. Scoring and Passing Criteria

The praxis examination in speech language pathology is scored on a scale, with the passing score varying by state and certifying body. Typically, a scaled score of 162 out of 200 is required to pass, but candidates must confirm the passing score specific to their jurisdiction or certification program.

Scores are usually available within two to three weeks after the test date. Candidates receive a detailed score report that outlines their performance in each content area, allowing them to identify strengths and areas for improvement. Retakes are permitted, but candidates should be aware of any waiting periods or additional fees associated with multiple attempts.

Role of the Praxis Exam in Certification and Licensure

The praxis examination in speech language pathology plays a pivotal role in the pathway to professional certification and state licensure. It serves as a standardized measure that validates a candidate's capability to deliver competent and ethical speech-language pathology services.

Many states require passing the praxis exam as part of their licensure requirements, ensuring that practitioners meet minimum standards of knowledge and skill. Additionally, the American Speech-Language-Hearing Association (ASHA) mandates successful completion of the praxis exam for awarding the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP), a credential recognized nationwide.

Holding the CCC-SLP credential and state licensure enables speech-language pathologists to practice in a variety of settings, including schools, hospitals, rehabilitation centers, and private clinics. The praxis exam thus
