pray for daughter health: Sheikha Mona's Daughter Marinda J. Hochadel, 2016-07-12
Sheikha Mona's Daughter By Marinda J. Hochadel Sheikha Mona's Daughter is the personal travel

log of author Marinda J. Hochadel's many world travels and her experience with people. This book stresses three points, which intersect with each other and are of great interest and importance to her. Her first point is the unnecessary of wars and conflicts. The hypocrisy of the world leaders creates anger, hatred, and intolerance among their respective citizens and political groups. The second point is that human-trafficking, child slave labor, and child sex should be abolished, as they are a disgrace to humanity. Rich nations have the responsibility to see that human rights and social systems are enforced. Marinda believes ensuring all women and children in the world are educated will decrease poverty and stabilize nations. We all should join our hands against corruption that leads to the abuse of the poor. Last, but not least, we should respect the religions and cultures of our co-citizens and tolerate other nationalities. Marinda encourages her readers to think positively and respectfully about those whom we meet during our lives. She wishes that her feelings and thoughts are read all over the world.

The importance of cultural sensitivity and diversity are explored because it is recognised that these are themes that have been neglected in discussions about spiritual assessment. It provides nurses and other healthcare professionals with a valuable resource that will assist them with identifying and meeting their patients' and clients' spiritual needs. The book, as previously, commenced by providing an overview of what is meant by spirituality, this operational definition is derived from the authors' research and experiences in teaching these subjects to a wide range of healthcare professionals. The updated and expanded text will assist readers to engage with the conceptual and theoretical challenges and developments associated with spirituality and spiritual care. The book offers very practical insights and steps for introducing and advancing spiritual assessment in a wide range of healthcare settings. The adoption of a life span approach means that concepts such as spirituality, spiritual care and assessment can be better understood by healthcare professionals working in specialist fields of practice. Each chapter will draw upon up to date evidence to demonstrate the development of both the art and science of spiritual assessment. The book will continue to challenge contemporary thinking, asking for healthcare professionals working within a diverse range of care settings, organisations/institutions, educational contexts to evaluate their practice in relation to spiritual assessment. A primary goal of this 2nd Edition is to continue to advance thinking and practice in spiritual assessment by using a lifespan approach that offers insight into the dilemmas, obstacles, deficits that inhibit or prevent nurses and other allied healthcare providers from supporting clients and patients with their spiritual needs.

pray for daughter health: *The Care of Nuns* Katie Ann-Marie Bugyis, 2019-04-01 In her ground-breaking new study, Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225. By applying innovative paleographical, codicological, and textual analyses to their surviving liturgical books, Bugyis recovers a treasure trove of unexamined evidence for understanding these women's lives and the liturgical and pastoral ministries they performed. She examines the duties and responsibilities of their chief monastic officers--abbesses, prioresses, cantors, and sacristans--highlighting three of the ministries vital to their practice--liturgically reading the gospel, hearing confessions, and offering intercessory prayers for others. Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests, Bugyis shows that, in fact, these women continued to exercise primary control over their spiritual care. Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes, copyists, correctors, and creators of texts, attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality, counsel, instruction, healing, forgiveness, and intercession.

pray for daughter health: Women's Authority and Leadership in a Hindu Goddess Tradition Nanette R. Spina, 2017-02-28 This book investigates women's ritual authority and the common boundaries between religion and notions of gender, ethnicity, and identity. Nanette R. Spina situates her study within the transnational Melmaruvathur Adhiparasakthi movement established by the Tamil Indian guru, Bangaru Adigalar. One of the most prominent, defining elements of this tradition is that women are privileged with positions of leadership and ritual authority. This represents an extraordinary shift from orthodox tradition in which religious authority has been the exclusive domain of male Brahmin priests. Presenting historical and contemporary perspectives on the transnational Adhiparasakthi organization, Spina analyzes women's roles and means of expression within the tradition. The book takes a close look at the Adhiparasakthi society in Toronto, Canada (a Hindu community in both its transnational and diasporic dimensions), and how this Canadian temple has both shaped and demonstrated their own diasporic Hindu identity. The Toronto Adhiparasakthi society illustrates how Goddess theology, women's ritual authority, and "inclusivity" ethics have dynamically shaped the identity of this prominent movement overseas. Based on years of ethnographic fieldwork, the volume draws the reader into the rich textures of culture, community, and ritual life with the Goddess.
