perspectives. The work contains studies from the four major language families of South Asia (Indo-Aryan, Dravidian, Austroasiatic, Tibeto-Burman) and covers domains in semantics, morphosyntax, and phonotactics. It also includes studies from literature and film that show how expressive form and function are embedded in performative contexts. Finally, the volume also contains first of its kind data from several small endangered languages from the region. Proposing an innovative methodology that combines structural and semiotic analysis, the volume advances a more holistic understanding of areal phenomena that departs from previous studies of the South Asian linguistic area.

princess in hindi language: Innovation as Social Change in South Asia Minna Säävälä, Sirpa Tenhunen, 2017-10-02 This book examines innovation as social change in South Asia. From an anthropological micro-perspective, innovation is moulded by social systems of value and hierarchy, while simultaneously having the potential to transform them. Peterson examines the printing press's changing technology and its intersections with communal and language ideologies in India. Tenhunen explores mobile telephony, gender, and kinship in West Bengal. Uddin looks at microcredit and its relationship with social capital in Bangladesh. Jeffrey surveys imbalanced sex ratios and the future of marriage payments in north-western India. Ashrafun and Säävälä investigate alternative dispute resolution as a social innovation which affects the life options of battered young wives in Sylhet, Bangladesh. These case studies give insights into how the deeply engrained cultural models and values affect the forms that an innovative process can take. In the case of some South Asian societies, starkly hierarchical and holistic structures mean that innovations can have unpredictable sociocultural repercussions. The book argues that successful innovation requires taking into account how social hierarchies may steer their impact. This book was originally published as a special issue of Contemporary South Asia.

princess in hindi language: While the Gods Play Alain Daniélou, 1987-08-01 According to the early writings of the Shaiva tradition--still alive in India and dating back at least 6,000 years--the arbitrary ideologies and moralistic religions of modern society signal the last days of humanity heading toward destruction. This prediction is only a fragment of the vast knowledge of Shaiva wisdom, author Alain Danielou as assimilated and reviewed essential concepts of the Shaiva philosophy and its predictions. Clearly expressed in the ancient teachings, these concepts are in accord with, yet surpass, the boldest scientific speculations about consciousness, time, the nature of life and matter, and the history and destiny of the human race. Inherent in this body of knowledge is an understanding of the cycles of creation and destruction which, in conjunction with astronomical phases, determine the life span of the species. Since 1939, humankind has been in the twilight of the Kali Yuga age, or at the end of a cycle. The impending cataclysm, Danielou explains, is brought on by our own errors, and its date will be determined by our present and future actions. While the Gods Play examines how the visionaries of ancient times defined our role in creation. It explains why and how we have abandoned this role, and reflects on what action can be taken to consciously and creatively influence our own destiny. Included are chapters on The Religion of Nature and The Religion of the City, The Transmigrant Body, Sexual Rites, the Castes, Sacrifice, Magical Powers, Monastic Orders, and Forestalling the Final Day.

princess in hindi language: The Sejarah Melayu Revisited Ahmat Adam, 2022-12-06 "In a period where no native scholars of equal repute existed, where no one possessed similar levels of extensiveness and depth in terms of understanding Malay culture and literature, it must be admitted that the Orientalist stand taken by scholars like Winstedt was unavoidable. As a matter of fact, even today one can still find Malay scholars echoing his and other European Orientalists' opinions..." Ahmat Adam * The Sejarah Melayu has been known by many names, and its text has changed too. Interpolations, recensions and revisions over the centuries have resulted in dozens of variants, which brings up many questions. Was Tun Seri Lanang the author of the text? Can the manuscript be regarded as an authoritative historical source? How entrenched are Orientalist views in contemporary scholarship of the Sejarah Melayu? The answers, as well as digressions into mystic letters and Portuguese loan words, can be found in this new collection of essays.
