Understanding the nature of these discounts and when they are available is crucial for educators intending to leverage them effectively.

Background of Teacher Discounts in Retail

Teacher discounts are common across various retail sectors as a way to acknowledge the contributions of educators. Many clothing brands, including Banana Republic, participate in these initiatives either through direct offers or collaborations with educational organizations. These discounts aim to make stylish, professional-grade clothing more accessible to teachers, reflecting their need for versatile and durable wardrobe options. Banana Republic's focus on modern designs and quality fabrics makes it an attractive brand for educators seeking to balance style with

teacher discount banana republic: Disrupting Secondary STEM Education Margery Gardner, 2024-12-19 This volume brings into focus the pivotal educational years during adolescence, when many learners are exposed to implicit and explicit messages that STEM is not a viable educational pathway for them. Challenging this notion, Disrupting Secondary STEM Education brings together a collective of critical educators who share what disruptive STEM teaching looks and feels like from an insider perspective, as well as the ways they purposefully create curriculum to subvert existing structures that can confine learning. Through disruptive STEM teaching, a joy for learning is kindled, as well as a sense of empowered criticality in students that can support their development as global citizens facing complex futures. The collection shares stories across a spectrum of educators, from those beginning their teaching journey to those who've stood up against narrow curriculum and standardized testing for years in the capacity of both P-12 teachers and teacher educators. The voices of these educators illustrate how the work of disruptive STEM teaching can be actualized within cohorts of future teachers, achieved through early engagement with critical theories and generative field experiences that support and affirm a wide array of identities. This book provides multiple theoretical and practical access points for the reader to understand the work of disruptive STEM teaching and offers a way forward for those interested in developing more critical curriculum in their own classrooms. As such, it will be important reading for postgraduate students and researchers in Social Justice Education and STEM Education, as well as for in-service educators.

It relates in full the GDR's attempt to create a new Marxist nation by means of educational reform. The book goes beyond previous investigations of the subject to include topics outside the scope of education per se; Rodden looks not only at the changing institution of education but also at what the Germans call *Bildung*-the formation of character and the cultivation of body and spirit. The book's sociological reach likewise extends to questions of nation-building, as Rodden carries his historical narrative up to the present environment of post-unification Germany.

teacher discount banana republic: A Chuckle Of Jokes S.M. Mathur, 2009-05-04 Humour is a stress buster playing a pivotal role in breaking the barriers of monotony, lethargy and passivity in life. It is the lifeline of human society, practised since time immemorial. All the ancient monarchs

employed professional humorists to enliven their court life. The Shakespearean plays are replete with humorous characters such as Falstaff and other fools like Touchstone adding new dimension to the plays. Similarly, in India, our epics and stories highlight the role played by these humorists and storytellers. Chuckle of Jokes brings to you a string of jokes, touching all facets of modern society – politicians, lawyers, doctors, drunkards, and modern gizmos like computers. teacher discount banana republic: *Stories of Four Decades* Glenn Meeter, 2009-09 A number of the stories in Glenn Meeter's *Stories of Four Decades* have been reprinted (most frequently *Hard Row* and *A Harvest*), but they all made their first appearance in publications as diverse as *The Atlantic Monthly*, *Redbook*, *Epoch*, *The Literary Review*, and *The Reformed Journal*. Each story has its own individual appeal. Each has its own style, theme, mood, its own plot and setting, and its own cast of characters who come fully to life only within its boundaries. Even Peter Heitz, in *The Oppressor*, has different problems and preoccupations from the slightly older character with the same name in *The Convert*. But set with others in a collection that touches major points in life-stories of Youth followed by those of Marriage and Parenthood and finally *New Journeys*-each story takes on new dimensions. Together they form a tableau of life in the American Midwest (and California, a mid-century Mecca for Midwesterners) from the forties through the seventies. One thinks of the slow clank clank of tire chains on mall-town winter streets in the first story; the visitors to Grandmother's house paying Chicago tolls in the last; and, in between, *Lost Angeles* freeways and South Dakota gravel roads. Another dimension is as ancient as Joseph in Egypt: the clash of rural and village culture with urban modernity. Some characters need to break away from the village culture (faith, family, community); some lose it and re-create it. Some seek it out. All need to re-interpret it. And all struggle to maintain and pass on some aspects of that culture, if only the awed thankfulness of the traveler in *A Harvest*, who exclaims about his own journey, but my God what a delight, just to travel through!
