teacher pay teacher sign in: *How to Create World Class Teacher Compensation* Allan Odden, 2008 This presentation is based on the following principles: 1. The key accountability for schools is to improve student performance. 2. Teachers in the classroom (including those in hard-to-staff fields such as math and special education) and their instructional practice are the single most important factors that will lead to improved student performance. 3. Teacher compensation is the single biggest part of the education budget (often more than 60%). 4. Therefore, linking pay to teacher performance â instructional practice that produces student learning gains is the best way to expend money in a way that ultimately improves student performance. teacher pay teacher sign in: *A Lousy Start* Jacobaris, 2010-11 Prior to the stock market crash in 1929, Holland was a prosperous country where its people enjoyed secure futures-or so they thought. After the world's economic collapse, millions were forced into a poverty-stricken existence where every day was a struggle to survive. *A Lousy Start* shares one family's vivid impressions of living in Holland during the Great Depression and the lasting impact those experiences had on their lives. At the beginning of the twentieth century, Arie Demerwe worked hard and was paid very little, but still managed to put food on his table. Sent to fight in the war of 1918, Arie finally returned to his hometown where he began working again-only to see everything change again after the end of World War I. As the people of Holland enjoyed wealth they assumed would last forever, dark changes loomed ahead. When the sun rose on October 23, 1929, no one had a clue that tragedy would strike by day's end. For the next ten years, a hostile world would transform even the most religious people into thieves and liars. As one family fought to stay alive in a bleak existence, each of

them learned valuable life lessons they would carry with them forever.
