teacher prime day deals: *Empowering Teachers Across Europe to Deal with Social, Emotional and Diversity-Related Challenges* Ana Kozina, 2024-02-20 The increase in reported levels of stress and burnout in teachers across Europe highlights the importance of teachers' social and emotional competencies and diversity awareness (SEDA). Since teaching is an extremely social and emotional process where diversity, if recognised, is embraced at every step, we believe that supporting teachers to develop SEDA competencies is the key to shaping not only the positive relationships of living and learning together in classrooms, but also, in living and learning together in society. Once SEDA competencies are supported, a positive shift can occur at the level of individual teacher, classroom, school and society level. The book is our way of experimentally demonstrating how teachers' SEDA can be supported across Europe (Volume I) and how policy can support these processes (Volume II). Volume I focuses on the innovative conceptual overlap of social and emotional competencies and diversity awareness and experimentally test it across European countries - with an emphasis on conceptualisation, implementation and evaluation processes.

teacher prime day deals: *The Sunday School Movement* Stephen Orchard, John H. Y. Briggs, 2007-06-01 Today's Sunday schools are a pale shadow of what they were in the past. Churches have found other ways of serving children and young people and carrying out adult education. From a historical point of view the Sunday schools have immense significance. As late as the 1950s approximately half the children in Great Britain were associated with Sunday schools. In the nineteenth century Sunday schools were part of general educational provision. With National, British, and Ragged schools, Sunday schools represented the Christian philanthropic impulse to provide a basic education to the public at large and at low cost. The role of the churches in educational provision is again a topic of public interest and the time is right to reflect on some of the lessons of the past. A range of experts have been asked to assess different aspects of the history of the Sunday school movement: Clyde Binfield, Faith Bowers, John H. Y. Briggs, Grayson Ditchfield Hugh McLeod, Stephen Orchard, Jack Priestley, Geoff Robson, and Doreen Rosman. They provide a remarkable survey of many aspects of Sunday schools, from their origin to their reinvention, from teaching the catechism to promoting sport.
