tears are a language god understands: *Martyr's Manual* Wayne Brouwer, 2019-05-28

“Faith” gets its most powerful definition from the New Testament book of Hebrews. Yet this anonymous treatise tantalizes with both its lack of contemporary precision about faith’s definition and its shrouded original context. There are, however, sufficient clues in Hebrew’s text to guide astute investigators toward a strange and yet familiar world of religious challenge in which the deeply significant rituals of ancient Israel, the attractive moral character of first-century Jews in Rome, a crowd of disaffected righteous Romans, and a purported Palestinian messiah converge to produce one of the world’s most thoughtful, courageous, and brilliant calls to martyrdom. In this careful pilgrimage along the author’s meticulous development of a holy challenge to remain faithful to Jesus (precisely because there are no meaningful alternatives), Brouwer helps us find an inspiring and ever-relevant call to faith—we become the persons we are through the daily choices we make about Jesus and others.

tears are a language god understands: Out of the Deep Noel Davidson, 2017-03-02 They looked like the typical, happy family. David and Helen Runcie had brought their three sons up to fear the Lord and honour His Name. When they sang together as a quintet audiences were moved to tears. In their teenage years the boys became heroin addicts. It was then that the whole atmosphere in the home changed. Tensions rose, money disappeared, and the telltale signs of drug addiction began to appear around the house. Every day seemed to present the perplexed Christian parents with some new dilemma. Why was this all happening in their family? they found themselves asking. Could God not deliver them from their addiction? Yes. He could. And He did, intervening in each life in a different way, but with the same result. It is an inspirational story of deliverance, and of hope. This updated edition brings us the latest on the family that had been rescued from the depths of despair and records how God blessed the original book in many lives.” The three boys are all now in steady employment, married men with families. This means David and Helen have entered a new phase in life. Grandparents!

tears are a language god understands: The Divine Inquiry Sanford Zensen, 2023-01-10 Jesus had a lot to say about the way we live out our daily lives. In the process, he asks a lot of questions that are insightful, penetrating, and thought-provoking, all demanding an honest appraisal of oneself and an appropriate, life-changing response. He asks the same questions today. For example, Why are you so afraid? What do you want me to do for you? What good will it be for a man if he gains the whole world, yet forfeits his soul? This book explores a sampling of the questions Jesus asked, as he walked the streets of the ancient world. Every divine inquiry was/is designed to confront, convict, challenge, conform, and/or comfort (cf John 16:7-13) His listeners. His intention has always been the same - to give us a fresh, new set of eyes with which to assess our individual lives, address areas of personal weakness, encourage spiritual and emotional maturity, and press us to apply practical life-principles that actually work in everyday living. His purpose is discipleship, Christlikeness. His objective is to move us to consider the deepest of truths regarding the person I am, the person I could be, and the person I must be.

tears are a language god understands: Singing the Gospel along Scotland’s North-East

Coast, 1859-2009 Frances Wilkins, 2018-01-17 Following three years of ethnomusicological fieldwork on the sacred singing traditions of evangelical Christians in North-East Scotland and Northern Isles coastal communities, Frances Wilkins documents and analyses current singing practices in this book by placing them historically and contemporaneously within their respective faith communities. In ascertaining who the singers were and why, when, where, how and what they chose to sing, the study explores a number of related questions. How has sacred singing contributed to the establishment and reinforcement of individual and group identities both in the church and wider community? What is the process by which specific regional repertoires and styles develop? Which organisations and venues have been particularly conducive to the development of sacred singing in the community? How does the subject matter of songs relate to the immediate environment of coastal inhabitants? How and why has gospel singing in coastal communities changed? These questions are answered with comprehensive reference to interview material, fieldnotes, videography and audio field recordings. As one of the first pieces of ethnomusicological research into sacred music performance in Scotland, this ethnography draws important parallels between practices in the North East and elsewhere in the British Isles and across the globe.
