team physical therapy rancho: Melodies of My Life Denedria Banks, 2005-09 Melodies of My Life shares a no-holds-barred coming of age portrait of a young woman who refuses to let a chronic and debilitating illness define who she is or what she can achieve. At thirty-one, author Denedria Banks wears many hats-from daughter to sister to friend; from public speaker to single, fun-loving, independent Black woman; and from medical social worker to woman with a disability. Each chapter samples the complex chords, harmonies, and disharmonies of her life's passions. Banks explores various stages that impacted her search for self, including self-love and happiness. She ultimately discovers the true love that comes from putting yourself first, loving your every imperfection, and literally taking each day one step at a time. In her own words, Denedria provides a rare glimpse into living with a debilitating disease. Doctors, nurses, physical and occupational therapists, students, people with disabilities and their loved ones, and those interested in the human condition will appreciate the journey of this young woman's life-its darkest hours and brightest successes.

team physical therapy rancho: Explorations of a Mind-Traveling Sociologist Renée C.

Fox, 2019-11-15 *Explorations of a Mind-Traveling Sociologist* is a book of thematically interconnected ethnographic essays by the internationally esteemed sociologist Renée C. Fox, who employs a participant observer outlook to provide unique insight on such enduring—and pressing—issues as the lived experiences of physicians and patients, including patients who are physically challenged, elderly, mortally ill or beyond the reach of medical care; the origins and consequences of epidemic outbreaks of old and new plague-like infectious diseases that occur and recur, despite the impressive advances of medicine; the concomitants and challenges of aging; the wellsprings, dynamics and significance of medical humanitarian action; engagement with a “beyond borders” world view; the occurrence of national and international events of major moral as well as political and legal import and repercussions; and the meaning and meaningfulness of teaching, exploring, questing and writing. Latently associated with these themes are the author’s social values and social conscience. Composing these essays from a participant observer outlook heightens and enriches the author’s observations over the course of her daily life, enabling her to engage in “mind travel” to places and people she has intimately known in the past and to places she has yearningly hoped to visit but never has.
