technology in chemical engineering: *One Hundred Years of Chemical Engineering* Nicholas A. Peppas, 2012-12-06 One hundred years ago, in September 1888, Professor Lewis Mills Norton (1855-1893) of the Chemistry Department of the Massachusetts Institute of Technology introduced to the curriculum a course on industrial chemical practice. This was the first structured course in chemical engineering taught in a University. Ten years later, Norton's successor Frank H.
