who did cody for cheat with: Horizons West Jim Kitses, 2019-07-25 When first published in 1969, Horizons West was immediately recognised as the definitive critical account of the Western film and some of its key directors. This greatly expanded new edition is, like the original, written in a graceful, penetrating and absorbingly readable style. It provides definitive critical analysis of the six greatest film-makers of the Western genre: John Ford, Anthony Mann, Budd Boetticher, Sam Peckinpah, Sergio Leone and Clint Eastwood. And it offers illuminating accounts of such classic Westerns as The Searchers, Pat Garrett and Billy the Kid, Once Upon a Time in the West, Shane and many more. Among the completely new material in this edition is Kitses's magisterial account of the work of the greatest of Western directors, John Ford. Kitses also assesses how the Western has been challenged by revisionist historical accounts of the West and the Western, and by movement such as feminism, postmodernism, multiculturalism and psychoanalysis. The product of a lifetime's labour and love, Horizons West is a landmark of scholarship and interpretation devoted to, what is for many, Hollywood's signature genre. It provides a compelling account of the powerful mythology of America's past as forged by Western films and the men who made them.

who did cody for cheat with: 100 Silent Films Bryony Dixon, 2019-07-25 100 Silent Films provides an authoritative and accessible history of silent cinema through one hundred of its most interesting and significant films. As Bryony Dixon contends, silent cinema is not a genre; it is the first 35 years of film history, a complex negotiation between art and commerce and a union of

creativity and technology. At its most grand – on the big screen with a full orchestral accompaniment – it is magnificent, permitting a depth of emotional engagement rarely found in other fields of cinema. Silent film was hugely popular in its day, and its success enabled the development of large-scale film production in the United States and Europe. It was the start of our fascination with the moving image as a disseminator of information and as mass entertainment with its consequent celebrity culture. The digital revolution in the last few years and the restoration and reissue of archival treasures have contributed to a huge resurgence of interest in silent cinema. Bryony Dixon's illuminating guide introduces a wide range of films of the silent period (1895–1930), including classics such as *The Birth of a Nation* (1915), *The General* (1926), *Metropolis* (1927), *Sunrise* (1927) and *Pandora's Box* (1928), alongside more unexpected choices, and represents major genres and directors of the period – Griffith, Keaton, Chaplin, Murnau, Sjöström, Dovzhenko and Eisenstein – together with an introductory overview and useful filmographic and bibliographic information.
