Biblical Worldview and Its Impact

Christian education instills a biblical worldview that shapes how students perceive the world and make decisions. This perspective encourages students to view life through the lens of Scripture, fostering a sense of purpose and ethical responsibility. The integration of biblical principles into daily learning helps students navigate challenges with faith-based guidance.

Teaching Moral Discernment

Christian education emphasizes the development of moral discernment, enabling students to distinguish right from wrong based on Christian ethical standards. This aspect of education promotes accountability and encourages students to act in ways that reflect Christian teachings, both in and outside the classroom.

Academic Excellence and Christian Education

Christian education is not only about spiritual growth but also about achieving academic excellence. Many Christian schools prioritize a rigorous curriculum that meets or exceeds national educational standards while integrating faith-based perspectives.

The curriculum in Christian education often balances traditional academic subjects with religious studies, promoting intellectual growth alongside spiritual understanding. This holistic approach encourages critical thinking and a deeper appreciation of the interconnectedness of knowledge and faith.

why christian education is important: *Against the Tide* Carl Herbster, Randy Hurst, 2011-09
Young people are surrounded by media militantly attacking biblical virtue and values. The goal of Christian education is still to present every man perfect in Christ, but postmodernism declares that there is no one right way to live. In the midst of this conflict, many Christian school leaders are surrendering, lowering their expectations in order to bring in more students, tolerating an atmosphere which works against the basic purpose for which the schools were founded. Against the Tide calls the Christian education movement back to its mission. The ideas offered in this book are thoroughly practical. The authors have effectively implemented these principles in their Christian schools. More important, these ideas are thoroughly biblical in their understanding of the role of Christian education and, in particular, of the Christian school, in helping parents to develop Christlike character in young people.

why christian education is important: **Christian Education: Its History and Philosophy** Kenneth O. Gangel, Warren S. Benson, 2002-03-05
A history of Christian education must not be confused with a record of the achievements of the Sunday School. Ó So Drs.

Gangel and Benson have written this book, a historical flow of philosophical thought from a Christian point of view. Its focus is cultural-biographical, discussing each philosophy in its particular socio-historical setting, and giving special attention to significant individuals.
