wisconsin badgers bowl history: *Great Pages in History from the Wisconsin State Journal, 1852-2002* Frank Denton, 2002 This fascinating collection reproduces the most important front pages in the history of the Wisconsin State Journal newspaper, from its first publication under that name on September 30, 1852, to the current War on Terrorism. See what Wisconsinites first read about Abraham Lincoln's election and assassination, Custer's last stand against the Sioux, the first votes by women, Henry Ford's \$5 daily wage, the Saint Valentine's Day mob massacre in Chicago, the disappearance of Amelia Earhart as she attempted to fly around the world . . . and the wars, elections, crimes, and social revolutions that have defined the past century and a half. Each front page, reproduced from the original, is readable down to the smallest type. In 2002 the Wisconsin State Journal celebrates its Sesquicentennial, marking one hundred and fifty years of service to the people of Madison and the State of Wisconsin. The newspaper had an earlier inception as the Madison Express in 1839, when Madison was a territorial town on the frontier and statehood was still nine years away. Readers will notice the newspaper's appearance has changed nearly as much as have the methods of gathering the news and producing the paper. But readers' fascination with and hunger for the news of each day remain strong.

wisconsin badgers bowl history: *The Psychedelic Sixties: a Social History of the United States, 1960-69* Richard T. Stanley, 2013-05-28 The Psychedelic Sixties were turbulent times filled with periods of ecstasy and despair. Who could have predicted that President Kennedy's Camelot would end with his televised assassination? Or that Harvard psychologist Timothy Leary's Concord Prison Project would evolve into his becoming the pied piper of LSD, the Psychedelic Revolution, and the Hippie Movement? To the credit of many Americans, a key characteristic of the Psychedelic Sixties was the search for solutions to society's social problems. But who could have predicted that President Johnson's Great Society would soon fall victim to race riots, student protests, and an increasingly unpopular war in Vietnam? Throughout the sixties, regular folks tried to find relief by watching TV comedies, motion picture musicals, and major sports events. And music --- from The Beatles to The Rolling Stones. Despite all the decade's chaos and bloodshed, public and private schools at all levels grew at unprecedented rates. And corporate America and our schools were more in cahoots than ever: Want a good job? Get a college degree! And, in 1969, as some Hippies still exclaimed, Tune in, turn on, drop out!, an American named Neil Armstrong WALKED ON THE MOON!
