women s business summit: Women Rocking Business Sage Lavine, 2021-08-03 Women are rocking the world of business, changing the face of commerce, and bringing our talents to the marketplace with fervor, commitment, and passion. Over the last 15 years, women have stepped into entrepreneurship in significantly greater numbers than men, but we're also failing at those businesses even faster than men. This book is going to change that. *Women Rocking Business* provides a revolutionary approach to building a business that honors innate feminine values. The book is full of practical how-to's that will help women become thriving entrepreneurs from a place of empowering others rather than powering over them, a place of collaboration rather than competition and contribution rather than greed. Sage Lavine has seen firsthand through working with thousands of emerging female entrepreneurs that when women learn about marketing and entrepreneurship through this lens, they are better positioned to implement effective strategies and create success. Sage is the CEO of Women Rocking Business, a consulting and coaching organization that has touched and inspired over 75,000 aspiring women entrepreneurs around the globe to build businesses that change the world. In this practical guidebook, she lays out a specific plan for building a business that honors work-life balance to a degree readers may not have thought possible (or practical). They will discover how, by working just 12 days a month or less, they can have a career that both supports them financially and fits into their lives, rather than having to settle for a life that fits around an overwhelming work schedule. It's a new day and the opportunity for women is great. This book will be an answered prayer for women who hope to unleash their life's potential and make their mark upon the world.
