- Comprehensive Services Offered
- Expert Healthcare Providers and Staff
- Patient-Centered Care and Facilities
- Women's Health Education and Support
- Community Outreach and Wellness Programs

Comprehensive Services Offered

The women's health center Eden NC offers an extensive array of medical services designed to address the full spectrum of women's health needs. These services encompass preventive care, diagnostic testing, treatment options, and specialized programs that cater to women at every age and stage of life.

Gynecological Care

Routine gynecological services include annual pelvic exams, Pap smears, HPV testing, and breast exams. These screenings are essential for early detection of conditions such as cervical cancer, breast abnormalities, and other reproductive system disorders. Additionally, the center provides management for menstrual disorders, contraception counseling, and treatment for infections.

Prenatal and Obstetric Services

The center offers comprehensive prenatal care, ensuring both mother and baby receive expert monitoring throughout pregnancy. Services include ultrasound imaging, prenatal testing, nutritional counseling, and labor and delivery planning. Obstetricians collaborate closely with patients to provide personalized birth plans and postpartum care.

Menopause and Hormone Therapy

Addressing the challenges of menopause, the center provides hormone replacement therapy (HRT) and symptom management tailored to individual needs. This includes treatment for hot flashes, bone density loss, mood changes, and other menopausal symptoms, promoting quality of life during this transitional phase.

Specialized Diagnostic Testing

Advanced diagnostic tools, such as mammography, bone density scans, and pelvic ultrasounds, are available on-site. These technologies support early detection and accurate diagnosis of various conditions, enabling timely and effective interventions.

Additional Health Services

Other services include sexually transmitted infection (STI) testing and treatment, infertility evaluations, and counseling for lifestyle factors affecting women's health such as nutrition, exercise, and mental wellness.

Expert Healthcare Providers and Staff

The women's health center Eden NC is staffed by a multidisciplinary team of board-certified physicians, nurse practitioners, midwives, and support personnel dedicated to delivering high-quality care. Their collective expertise ensures comprehensive evaluation and treatment tailored to each patient's health needs.

Experienced Obstetricians and Gynecologists

Obstetricians and gynecologists at the center possess extensive knowledge in women's reproductive health, enabling management of complex pregnancies, minimally invasive surgeries, and chronic gynecologic conditions.

Certified Nurse Practitioners and Midwives

These healthcare professionals provide personalized patient education, routine screenings, and support for natural childbirth options, enhancing patient comfort and satisfaction throughout care.

Support Staff and Patient Navigators

Administrative and nursing staff facilitate smooth appointment scheduling, billing, and patient navigation through the healthcare system, ensuring a seamless and stress-free experience.

Patient-Centered Care and Facilities

The women's health center Eden NC emphasizes a patient-centered approach, fostering a welcoming environment where privacy, respect, and individualized attention are paramount. Modern facilities are designed to accommodate patient comfort and accessibility.

State-of-the-Art Medical Equipment

The center is equipped with cutting-edge diagnostic and treatment technologies to provide accurate assessments and advanced therapeutic options.

Comfortable and Private Consultation Rooms

Consultation and examination rooms are designed to ensure confidentiality and comfort, promoting open communication between patients and providers.

Flexible Appointment Scheduling

Understanding the busy schedules of women, the center offers flexible hours, including evening and weekend appointments to accommodate working professionals and families.

Insurance and Payment Options

A variety of insurance plans are accepted, and financial counseling services are available to assist patients in understanding coverage and payment plans.

Women's Health Education and Support

Education plays a crucial role in empowering women to take charge of their health. The women's health center Eden NC provides numerous resources and programs aimed at increasing awareness and promoting healthy lifestyle choices.

Workshops and Seminars

Regularly scheduled educational sessions cover topics such as reproductive health, nutrition, breast health, mental wellness, and chronic disease management.

Support Groups

The center facilitates support groups for women dealing with issues like infertility, postpartum depression, menopause, and chronic illnesses, fostering community and emotional support.

Personalized Health Counseling

One-on-one counseling sessions are available to address specific health concerns, provide risk assessments, and develop individualized wellness plans.

Community Outreach and Wellness Programs

The women's health center Eden NC actively participates in community outreach initiatives designed to increase access to care and promote overall wellness among women in the region.

Health Screenings and Mobile Clinics

Periodic community events offer free or low-cost health screenings, including blood pressure checks, diabetes testing, and cancer screenings, to underserved populations.

Collaborations with Local Organizations

The center partners with schools, workplaces, and nonprofit organizations to deliver educational programming and health promotion activities.

Wellness Programs

Programs focused on smoking cessation, weight management, stress reduction, and physical activity encourage healthy habits and disease prevention.

- Comprehensive gynecological and obstetric care
- Advanced diagnostic testing and treatment
- Experienced and compassionate healthcare providers
- Patient-friendly facilities and flexible scheduling
- Robust health education and support services
- Active community engagement and outreach

women s health center eden nc: **Maternity and Women's Health Care - E-Book** Kathryn Rhodes Alden, Deitra Leonard Lowdermilk, Mary Catherine Cashion, Shannon E. Perry, 2013-12-27 With comprehensive coverage of maternal, newborn, and women's health nursing, *Maternity & Women's Health Care*, 10th Edition provides evidence-based coverage of everything you need to know about caring for women of childbearing age. It's the #1 maternity book in the market -- and now respected authors Dr. Deitra Leonard Lowdermilk, Dr. Shannon E. Perry, Kitty Cashion, and Kathryn R. Alden have improved readability and provided a more focused approach! Not only does this text emphasize childbearing issues and concerns, including care of the newborn, it addresses wellness promotion and management of common women's health problems. In describing the continuum of care, it integrates the importance of understanding family, culture, and community-based care. New to this edition is the most current information on care of the late preterm infant and the 2008 updated fetal monitoring standards from the National Institute of Child Health and Human Development. A logical organization builds understanding by presenting wellness content first, then complications. Critical Reasoning exercises offer real-life situations in which you can develop analytical skills and apply their knowledge. Teaching for Self-Management boxes offer a guide to communicating follow-up care to patients and their families. Signs of Potential Complications boxes help you recognize the signs and symptoms of complications and provide immediate interventions. Procedure boxes offer easy-to-use, step-by-step instructions for maternity skills and procedures. Emergency boxes may be used for quick reference in critical situations. Medication Guide boxes provide an important reference for common drugs and their interactions. Cultural Considerations boxes stress the importance of considering the beliefs and health practices of patients from various cultures when providing care. Family content emphasizes the importance of including family in the continuum of care. Nursing Care Plans include specific guidelines and rationales for interventions for delivering effective nursing care. Community Activity exercises introduce activities and nursing care in a variety of local settings. Student resources on the companion Evolve website include assessment and childbirth videos, animations, case studies, critical thinking exercises with answers, nursing skills, anatomy reviews, a care plan constructor, review questions, an audio glossary, and more.

women s health center eden nc: Kotch's Maternal and Child Health Russell S. Kirby, 2021-03-15 The 4th edition of *Maternal and Child Health* will continue to offer a comprehensive,

trusted introduction to the field of Maternal and Child Health, however this new edition, with a new author team and new MCH expert contributors, will present the traditional MCH topics in a modern context that addresses race/ethnicity, an expanded family focus (including fathers), and a broadened approach that will appeal not only to public health professionals, but also to health professionals outside public health practice--

women s health center eden nc: Women's Recovery Programs , 1990

women s health center eden nc: *Management of Unintended and Abnormal Pregnancy* Maureen Paul, Steve Lichtenberg, Lynn Borgatta, David A. Grimes, Phillip G. Stubblefield, Mitchell D. Creinin, 2011-08-24 Access to high quality abortion care is essential to women's health, as evidenced by the dramatic decrease in pregnancy-related morbidity and mortality since the legalization of abortion in the United States, and by high rates of maternal death and complications in those countries where abortion is still provided under unsafe conditions. The past two decades have brought important advances in abortion care as well as increasing cross-disciplinary use of abortion technologies in women's health care. Abortion is an important option for pregnant women who have serious medical conditions or fetal abnormalities, and fetal reduction techniques are now well-integrated into infertility treatment to reduce the risks of multiple pregnancies resulting from assisted reproductive technologies. *Management of Unintended and Abnormal Pregnancy: Comprehensive Abortion Care* is the textbook of the National Abortion Federation, and serves as the standard, evidence-based reference text in abortion care. This state-of-the-art textbook provides a comprehensive overview of the public health implications of unsafe abortion and reviews the best surgical and medical practices for pregnancy termination, as well as managing ectopic and other abnormal pregnancies. *Management of Unintended and Abnormal Pregnancy: Comprehensive Abortion Care* is the leading source for a comprehensive understanding of issues related to unintended and abnormal pregnancy. This textbook: is authored by internationally-known leaders in women's health care; addresses unintended pregnancy and abortion from historical, legal, public health, clinical, and quality care perspectives; includes chapters on pregnancy loss, ectopic pregnancy, gestational trophoblastic disease, and multifetal pregnancy reduction; covers treatment of pregnancies in the first and second trimester by both medical and surgical techniques; and provides resources for clinical, scientific, and social support for the abortion provider and patient.

women s health center eden nc: The Directory of Hospital Personnel 2006 Grey House Publishing, Inc, 2005-12

women s health center eden nc: Chronic Illness Care Timothy P. Daaleman, Margaret R. Helton, 2018-02-24 This book offers a comprehensive overview to chronic illness care, which is the coordinated, comprehensive, and sustained response to chronic diseases and conditions by a range of health care providers, formal and informal caregivers, healthcare systems, and community-based resources. Using an ecological framework, which looks at the interdependent influences between individuals and their larger environment, this unique text examines chronic illness care at multiple levels and includes sections on the individual influences on chronic illness, the role of family and social networks, and how chronic care is provided across the spectrum of health care settings; from home to clinic to the emergency department to hospital and residential care facilities. The book describes the organizational frameworks and strategies that are needed to provide quality care for chronically ill patients, including behavioral health, care management, transitions of care, and health information technology. The book also addresses the changing workforce needs in health care, and the fiscal models and policies that will be required to meet the needs of this population, with a focus on sustaining the ongoing transformation in health care. This book acts as a major reference for practitioners and students in medicine, nursing, social work, allied health, and behavioral medicine, as well as stakeholders in public health, health policy, and population health.

women s health center eden nc: The Cost of Choice Erika Bachiochi, 2004 A collection of

essays that examine the physical and mental impact of abortion, arguing that legal abortion has done more harm than good for modern women.

women s health center eden nc: *Gender and Identity around the World* Chuck Stewart, 2020-11-09 This book provides an indispensable resource for high school and college students interested in the history and current status of gender identity formation and maintenance and how it impacts LGBTQ rights throughout the world. *Gender and Identity around the World* explores a variety of gender and LGBTQ experiences and issues in countries from all the world's regions. Guided by more than 50 recognized academic experts, readers will examine how gender and LGBTQ identities are developed, fought for, perceived, and policed in countries as diverse as France, Brazil, Russia, Jordan, Iraq, and China. Each chapter opens with a general introduction to a country or group of countries and flows into a discussion of gender and identity in terms of culture, education, family life, health and wellness, law, work, and activism in that region of the world. A section on contemporary issues specific to the country or group of countries follows this discussion.
