women s history month books for kids: Culturally Responsive Standards-Based

Teaching Steffen Saifer, 2011 Teaching children from diverse backgrounds begins with simple questions: What is my culture? What are my students' cultures? How does culture affect how I teach and how my students learn? Can I learn to value and honour the unique experiences and cultures of my students? These are essential questions for educators with a sincere desire to help all students succeed. This comprehensive guide provides detailed examples that show why and how to create culturally responsive, standards-based (CRSB) instruction in the classroom, schoolwide, and at the district level. Results of effective programs include: increased academic success for all learners; engaged and motivated students; development of critical thinking skills necessary for higher learning; and strengthened partnerships between students, families, and communities. This new edition is enhanced with nationwide examples, up-to-date resources, and tools that can be implemented immediately. Principals, administrators, K - 12 teachers, curriculum and staff developers, and college instructors will find this handbook a valuable and powerful tool for promoting student engagement and improving struggling schools.

women s history month books for kids: Turning the Page Rachel Slaughter, 2021-03-05

There is a dearth of multicultural literature in schools since few schools offer a curriculum that promotes multicultural education. However, by the year 2050, ethnic minority children will make up the majority of the United States public school classrooms. Multicultural literature is the building block of a multicultural education which reflects our nation's diversity and helps all students learn by providing help to bridge the cultural gap, and promote racial awareness. Teachers often find it difficult to identify or find quality multicultural literature that adheres to the standard curriculum. Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature helps educators find and evaluate multicultural books that are suitable for the classroom and align with the standard curriculum. The book includes a peer-reviewed metric that shows teachers how to substitute biased books with multicultural literature that endorse the same themes. Second, the book includes reviews, lesson plans, and curated book lists of multicultural books. Finally, the book offers a stepwise plan on how to create a task force of school stakeholders who can implement a comprehensive, multicultural program. In 2018, The National Association for Multicultural Education released standards for multicultural education to encourage school staff to become culturally competent and linguistically diverse. Turning the Page: The Ultimate Guide for Teachers to Multicultural Literature moves educators in that direction.

women s history month books for kids: The Book of Gutsy Women Hillary Rodham

Clinton, Chelsea Clinton, 2019-10-01 Now an eight-part docuseries on Apple TV+ Hillary Rodham Clinton and her daughter, Chelsea, share the stories of the gutsy women who have inspired them—women with the courage to stand up to the status quo, ask hard questions, and get the job done. She couldn't have been more than seven or eight years old. "Go ahead, ask your question," her father urged, nudging her forward. She smiled shyly and said, "You're my hero. Who's yours?" Many people—especially girls—have asked us that same question over the years. It's one of our favorite topics. HILLARY: Growing up, I knew hardly any women who worked outside the home. So I looked to my mother, my teachers, and the pages of Life magazine for inspiration. After learning that Amelia Earhart kept a scrapbook with newspaper articles about successful women in male-dominated jobs, I started a scrapbook of my own. Long after I stopped clipping articles, I

continued to seek out stories of women who seemed to be redefining what was possible. CHELSEA: This book is the continuation of a conversation the two of us have been having since I was little. For me, too, my mom was a hero; so were my grandmothers. My early teachers were also women. But I grew up in a world very different from theirs. My pediatrician was a woman, and so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends' moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there's a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historian Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women was fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it's that the world needs gutsy women.

women s history month books for kids: Evaluating and Promoting Nonfiction for Children and Young Adults Don Latham, 2025-01-07 Evaluating and Promoting Nonfiction for Children and Young Adults isn't another bibliography that will quickly become outdated. Instead, it situates nonfiction resources within the recent emphasis on reading nonfiction as a way of enhancing critical thinking and combating susceptibility to "fake news." Donald Latham offers strategies for evaluating nonfiction for the purposes of collection development, providing readers' advisory, and developing programs using nonfiction for children and young adults. The book includes lists of professional resources as well as recommended nonfiction titles.

women s history month books for kids: *LGBTQIA+ Inclusive Children's Librarianship* Lucy Santos Green, Jenna Spiering, Vanessa Lynn Kitzie, Julia Erlanger, 2022-05-16 This book breaks new ground, offering school and public librarians serving children in grades K-8 a roadmap for implementing and upholding queer-inclusive programs, policies, and services. School and public librarians are serving ever greater numbers of LGBTQIA+ children and families. Transgender children may begin to express a strong sense of gender identity as early as 2-3 years of age. Children are also identifying as gay much sooner than earlier generations—often between the ages of 7 and 12. Additionally, more children than ever before are living with LGBTQIA+ caregivers. In seeking to make our programs and services inclusive and equitable for these growing populations, librarians may court controversy and face community backlash from patrons who feel queer-inclusive content is inappropriate for young children. This book codifies a set of best practices for librarians as they rise to this challenge, defining queer-inclusive programs, identifying potential barriers to implementation, and offering strategies and resources to overcome them.
