- How to Get Involved with the Council

Overview of Women's Business Council Southwest

The women's business council southwest is an influential organization committed to supporting women-owned businesses and female professionals across the southwestern region of the United States. Established to empower women entrepreneurs, the council provides a platform for advocacy, networking, and professional growth. Its mission revolves around increasing business opportunities for women while promoting diversity and inclusion within the corporate and public sectors.

Mission and Vision

The council's mission is to drive economic growth by advancing women-owned businesses through access to capital, contracts, and connections. Its vision is to create a thriving business environment where women entrepreneurs can compete fairly and contribute significantly to the economy. The women's business council southwest is dedicated to fostering leadership, innovation, and sustainable business practices among its members.

Geographic Reach and Membership

Serving the southwestern states, the council includes members from various industries such as

technology, healthcare, manufacturing, and professional services. The membership base ranges from startups to established enterprises, reflecting a diverse community of women business leaders committed to growth and excellence.

Key Initiatives and Programs

The women's business council southwest implements a variety of initiatives and programs designed to enhance the capabilities of women entrepreneurs. These efforts focus on education, certification, networking, and advocacy to ensure members have the tools and opportunities needed to succeed.

Certification Programs

One of the cornerstone offerings is the certification program, which helps women-owned businesses attain formal recognition that can open doors to government and corporate contracts. This certification validates business ownership and management by women, boosting credibility and marketability.

Educational Workshops and Training

The council hosts a range of workshops and training sessions that address critical business skills such as financial management, marketing strategies, leadership development, and digital transformation. These programs equip members with the knowledge to navigate complex business environments and drive growth.

Networking Events and Conferences

Regular networking events and annual conferences provide members with invaluable opportunities to connect with peers, industry leaders, and potential clients. These gatherings foster collaboration, mentorship, and partnership development among women business owners.

Membership Benefits and Opportunities

Joining the women's business council southwest offers numerous benefits that facilitate business success and professional advancement. Membership provides access to exclusive resources and a supportive community dedicated to women's economic empowerment.

Access to Contracting Opportunities

Members gain priority access to contracting opportunities with corporations and government agencies seeking to diversify their supplier base. This access can result in significant revenue growth and increased market exposure.

Business Development Resources

The council offers tailored business development resources, including market research, bid assistance, and mentorship programs. These resources help members refine their business strategies and improve operational efficiency.

Visibility and Advocacy

Membership also enhances visibility through promotional platforms and advocacy efforts aimed at influencing policies that support women-owned businesses. The council actively represents its members' interests at local, state, and federal levels.

Summary of Membership Benefits

- Certification support and guidance
- Exclusive networking events
- Educational workshops and seminars
- Access to government and corporate contracts
- Mentorship and business coaching
- Advocacy for women's business interests

Impact on Women Entrepreneurs and Regional Economy

The women's business council southwest has made a measurable impact by empowering women entrepreneurs and contributing to the economic vitality of the southwestern region. Its programs have helped increase the number of women-owned businesses that are competitive and sustainable.

Economic Empowerment

By facilitating access to capital and contracts, the council enables women entrepreneurs to scale their operations, create jobs, and generate wealth within their communities. This economic empowerment supports broader societal benefits such as poverty reduction and increased household incomes.

Promoting Diversity and Inclusion

The council's advocacy efforts promote diversity and inclusion in business procurement and leadership. This focus helps break down barriers for women and minority-owned businesses, fostering a more equitable marketplace.

How to Get Involved with the Council

Women interested in joining the women's business council southwest can start by exploring membership options that align with their business goals. The application process typically involves providing documentation to verify business ownership and participating in an orientation session.

Steps to Join

1. Review membership categories and determine eligibility.
2. Complete the application form with required business information.
3. Submit supporting documents for certification, if applicable.
4. Attend an orientation or introductory event to learn about council offerings.
5. Engage with the council's programs and networking opportunities.

Additional Involvement Opportunities

Beyond membership, women can contribute by volunteering for committees, sponsoring events, or serving as mentors. These roles help strengthen the council's community and expand its reach across the southwest.

women s business council southwest: Going Local Yvonne Bosson, 2013-10-19 Companies have long accepted the high cost of expatriate assignments as the price of doing business in the global arena. Now, companies are increasingly considering expatriate localization in response to increased pressures to trim costs within global mobility programs. Expatriate assignments cost an average of \$1 million over a three-year period, so converting an expatriate to a local package can save a company hundreds of thousands of dollars, if done correctly. Localization involves changing the expatriates total compensation (including base salary, incentive compensation, risk benefits, perks, social security, and retirement plans) into one that is identical to that available to locally hired employees. This is done with the understanding that the employee does not intend to return to their home country. The benefits of localization for cost containment, peer equity, and business imperatives are evident. However, developing and implementing an effective localization policy is a challenge that most employers find too daunting to undertake alone. From handling changes in retirement benefits to salary differentials, local labor law and tax compliance, the complexities of this conversion are enormous. Now, corporate employee mobility expert Yvonne Bosson has developed a comprehensive handbook to address the issue in a way that is clear and easy to understand. This invaluable resource guides human resources professionals and relocation administrators through the multifaceted process of examining their current localization policy and identifying areas for improvement. This book is also ideal for companies just beginning to transfer employees globally. It provides an in-depth examination of the structure and components of a successful relocation and localization program along with pertinent advice on communicating policies.

women s business council southwest: Women Are Creating the Glass Ceiling and Have the Power to End It Nancy E. Parsons, 2021-05-21 "I love the candor in Nancy Parsons's *Women Are Creating the Glass Ceiling and Have the Power to End It*. It's time to start having real conversations about the years of ineffective measures to break the glass ceiling, and Nancy Parsons's data-driven approach to uncover its true root cause is the critical first step toward achieving actual change. Every executive team needs to read this book and rethink their current D&I initiatives. We simply can't have another 40 years at this rate of progress. Nancy's passionate, insightful words are igniting the right conversations and will help accelerate us to a place where the entire concept of the glass ceiling is obsolete."

women s business council southwest: The Engine of America Hector V. Barreto, 2007-12-14 Winning business strategies from CEOs of 50 successful small businesses (some of which are now large corporations) who share their experiences to help those starting or growing their own business Small business is the engine that drives America's new economy. In *The Engine of America*, former administrator of the Small Business Administration (SBA), Hector Barreto and veteran journalist Bob Wagman reveal the winning business strategies of CEOs from 50 companies. For all those starting or growing their own small business, the wisdom, experience, and counsel of these successful leaders provides inspirational and thoughtful advice on making it as an entrepreneur. In this book, Barreto shares details of business success, and the insights he gained while administering the nation's largest small business loan, training, and counseling organization. Some of those sharing their stories in *The Engine of America* have grown their businesses from the most humble of beginnings into corporate giants whose brands are household names and whose operations are integral parts of the national economy. Others may not be instantly recognizable, but what they have in common is success. Hector Barreto believes if you can teach a small business owner something he or she doesn't know, but which is critical to the growth of their small business or which allows them to avoid a critical mistake, you have helped put them on the road to success. That's what *The Engine of America* will do. Hector V. Barreto (Los Angeles, CA) is the former five-year administrator of the U.S. Small Business Administration where he directed a \$60 billion support system for American entrepreneurs. He has lived and worked in all regions of the country, and is currently the Chairman of the Latino Coalition and a frequent speaker on small business topics. Robert Wagman (Washington, DC) is the former Capitol bureau chief for Scripps Howard's Newspaper Enterprise

Association. He is also a former field producer for 60 Minutes, editor of the World Almanac on Politics, and author of many business and political nonfiction books.
