women who mean business 2024: Unveiling Developmental Disparities in the Middle East Al Mokdad, Mohamad, 2024-10-30 Unveiling developmental disparities in the Middle East is essential for understanding the complex socio-economic landscape of the region, often containing critical inequalities and varied economic growth. Despite being rich in resources and cultural heritage, many countries in the Middle East face significant challenges, including political instability, economic volatility, and social unrest, which hinder equitable development. Examining these factors contributing to inequality may help scholars and government officials better address the barriers to sustainable development. Understanding present disparities in the region is crucial for policymakers, international organizations, and communities aiming to promote inclusive growth and improved quality of life. Unveiling Developmental Disparities in the Middle East examines the role of international relations and domestic policies in shaping Middle Eastern economic outcomes, with a particular focus on how governance and institutional development have diverged across these regions. By examining the influence of oil wealth, geopolitical dynamics, and historical legacies, the book offers a comprehensive understanding of why these nations have evolved so differently despite geographical proximity and cultural ties. This book covers topics such as sustainability, gender studies, and political governance, and is a useful resource for government officials, policymakers, gender scientists, healthcare professionals, environmental scientists, academicians, and researchers.

women who mean business 2024: Mean Business on North Ganson Street S. Craig Zahler, 2014-09-30 A hardened city detective is sent to a hellhole rust belt town in Missouri where violent crime is skyrocketing and police officers are showing up dead in S Craig Zahler's crime thriller Mean Business on North Ganson Street. A distraught businessman kills himself after a short, impolite conversation with a detective named Jules Bettinger. Because of this incident, the unkind (but decorated) policeman is forced to relocate himself and his family from Arizona to the frigid north, where he will work for an understaffed precinct in Victory, Missouri. This collapsed rustbelt city is a dying beast that devours itself and its inhabitants...and has done so for more than four decades. Its streets are covered with dead pigeons and there are seven hundred criminals for every law enforcer. Partnered with a boorish and demoted corporal, Bettinger investigates a double homicide in which two policemen were slain and mutilated. The detective looks for answers in the fringes of the city and also in the pasts of the cops with whom he works—men who stomped on a local drug dealer until he was disabled. Bettinger soon begins to suspect that the double homicide is not an isolated event, but a prelude to a series of cop executions...

women who mean business 2024: The Business of Women Hannah Barker, 2006-08-31 This study argues that businesswomen were central to urban society and to the operation and development of commerce in the late eighteenth and early nineteenth centuries. It presents a rich and complicated picture of lower-middling life and female enterprise in three northern English towns: Manchester, Leeds, and Sheffield. The stories told by a wide range of sources - including trade directories, newspaper advertisements, court records, correspondence, and diaries - demonstrate the very differing fortunes and levels of independence that individual businesswomen enjoyed. Yet, as a group, their involvement in the economic life of towns and, in particular, the manner in which they exploited and facilitated commercial development, force us to reassess our understanding of both gender relations and urban culture in late Georgian England. In contrast to the traditional historical consensus that the independent woman of business during this period - particularly those engaged in occupations deemed 'unfeminine' - was insignificant and no more than an oddity, businesswomen are presented here not as footnotes to the main narrative, but as central characters in a story of unprecedented social and economic transformation. The book reveals a complex picture of female participation in business. It shows that factors traditionally thought to

discriminate against women's commercial activity - particularly property laws and ideas about gender and respectability - did have significant impacts upon female enterprise. Yet it is also evident that women were not automatically economically or socially marginalized as a result. The woman of business might be subject to various constraints, but at the same time, she could be blessed with a number of freedoms, and a degree of independence that set her apart from most other women - and many men - in late Georgian society.

women who mean business 2024: Strategic Corporate Social Responsibility Debbie Haski-Leventhal, 2025-09-10 In today's world, being the best in the world is no longer enough. Businesses are now expected to be the best for the world: socially and environmentally responsible, sustainable, and ethical. This updated edition of Strategic Corporate Social Responsibility offers a comprehensive approach to CSR, presenting key concepts, theories, and practical tools for real-world application. The book is divided into three parts: theoretical background, CSR approaches and implementation, and measuring and communicating CSR. New to this edition is a chapter on social and global issues, along with three new case studies from Africa, Asia, and Latin America. The content has been extensively revised, adding summary questions at the end of each chapter and highlighting cutting-edge technology, including AI, machine learning, virtual reality, and blockchain. Featuring case studies from globally recognized brands like Ben & Jerry's, Google, H&M, and Unilever, this book is an essential resource for students on Corporate Social Responsibility modules. Debbie Haski-Leventhal is Professor of Management at Macquarie Business School and an expert on corporate social responsibility (CSR), responsible management education (RME) and volunteerism. Detailed updates for the 3rd edition: Nearly half the book is rewritten. The book is restructured for a better flow, as are many of its chapters. It now has many new images and figures too New cases from outside the US, such as Fairphone (The Netherlands), Sony (Japan), and Lush (The UK) and many new mini cases from around the globe, including Egypt, Bangladesh, and China A new and more holistic definition of Strategic CSR, with six original components An emphasis on how cutting-edge technologies, such as AI, machine learning, virtual reality and blockchains, can serve responsible and sustainable business Each chapter now ends with summary questions that be used in class or for assessment A new and powerful Foreword by Professor David Cooperrider, a CSR leader and the father of appreciative inquiry, and several new endorsements Additional exercises and questions for interactive learning together with revised online materials, such as a teaching guide and PowerPoint presentations Updated references and links after each case study and chapter, with up to date literature and thinking

women who mean business 2024: Developing an Innovative Marketing Model Eli Hani, 2024-01-24 Throughout the world, approximately 100 million new businesses start every year, 305 companies were established by 472 million entrepreneurs. Countries participating in the Global Entrepreneurship Monitor (GEM) comprise about 300 million people trying to establish approximately 150 million businesses. About 50 million new companies start every year. However, statistical data and research have shown that 50% of businesses with employees survive five years and 44% of businesses in the U.S.A. fail during their first five years. Statistical studies have shown that companies that have survived for more than five years act and relate to customer service and marketing as if they had established their businesses the day before. Each one has a different and changing marketing strategy according to market dynamics, but they all invest in digital marketing and exploit the free resources available to them on social networks. Entrepreneurs lead companies and always find solutions to cope with challenges. This study identified the most important factors which are most influential on business success and examines how and to what extent each relates to business success so that company managers can wisely invest resources at their disposal and increase the chances of business success. With the research aim to develop an innovative marketing model guiding those entrepreneurs and company leaders to invest resources available to them in each component according to its level of influence on business success and thus increase companies' chances of business success.

women who mean business 2024: Women and Sustainable Development Agata Niemczyk,

Zofia Gródek-Szostak, Renata Seweryn, Urszula Grzega, 2024-12-31 Sustainable development has been recognized as a paradigm for considering a future in which environmental, social, and economic concerns are balanced in the pursuit of improving quality of life. The ideals and principles behind this paradigm are based on the concepts of generational and gender equality, social tolerance, poverty reduction, environmental protection and restoration, natural resource conservation, and the building of fair and peaceful societies. This book identifies and characterizes selected aspects of women's functioning in modern societies, in the context of the goals, assumptions and challenges of sustainable development. It offers an innovative, multidimensional perspective on the potential and role of women in the context of sustainable development. The book is divided into five chapters. The first is dedicated to the role of women in the modern economy and their demographic and social characteristics in the European Union. The second focuses on the role of women in meeting the Sustainable Development Goals (SDGs), including the perspective of EU horizontal policies. The third offers an analysis of women's living conditions in the EU, in terms of their social, professional and economic situation and leisure time management. The next chapter considers female entrepreneurship in the EU in terms of social and geopolitical changes, while the final one is devoted to the analysis of the situation of women in selected industry markets. The book summarizes interdisciplinary research questions, focusing on sustainability, gender, human rights and the economy and the trends, tendencies, dependencies and results will be an important source of comparison for academic researchers and a starting point for further in-depth analyses.

women who mean business 2024: *The Proverbial Woman* Amy J. Chase, 2024-10-15 Female identity is fraught and fetishized, commercialized and contested--so potent a weapon in contemporary cultural warfare that a sitting US senator had no shame in asking a nominee to the Supreme Court to define 'woman.' But the battle over female identity is not of modern invention. Its roots are ancient. And in the Hebrew Bible, one text has served as the focal point of both classical and fashionable conceptions of female identity: Proverbs 31. A timeless pattern of femininity for some and a punchline for others, the poems themselves have received wildly differing levels of analysis, with too much ink spent on the ideal woman, and far too little on political rebukes and economic displacement. The Proverbial Woman offers a comprehensive narrative and dialogical approach to the text that unearths the poetry's social, sexual, and political silences and silencings. It highlights the forgotten characters: the women who destroy kings, the silenced poor, displaced peasants, and foreigners. It examines the text's conflict, setting, characters, and dialogue. It encourages the reader to recognize the drama taking place in the text's world and to explore how these features enabled an ancient community pondering these sapiential lines to process their cooperation with empire in an economic system that benefited some and exploited others. The Proverbial Woman excavates the power dynamics that promote elite ideologies even as gaps, ambiguities, and contradictions enable marginalized perspectives within the text to resist them. The interpretive approach demonstrated in this study can be replicated among communities today wanting to use biblical texts to construct for themselves a more just and prosperous world.

women who mean business 2024: *Diana's Outdoor Sports* Lost Century of Sports Collection, Mary J. Lagen, 2024-05-04 Diana's Outdoor Sports is one of 4 volumes in the Sports She Wrote series written by the first woman with her own weekly sports column in a major American newspaper, The Philadelphia Inquirer, from 1898 to 1901. Her real name (which she never revealed in print) was Mary Lagen, a prolific writer and bicycling pioneer, who inaugurated her "Athletic Woman" column at the age of 46. Diana was a passionate outdoorswoman and many of her articles are based on personal experiences. She was an excellent creative writer with a sparkling sense of humor and ability to turn a clever phrase. This volume features 217 article segments (110,000 words) about field sports, equestrianism, wheel sports, water sports and winter sports, excerpted from longer columns that veered among many topics which are included in the other three volumes. Field sports include 54 articles related to hunting, fishing, camping, guns, nature, dogs and birds. 48 articles on equestrianism focus on horseback riding, driving carriages, and attending horse shows. Cycling is featured in 67 articles, including 20 articles predating her "Athletic Woman" column,

establishing her pivotal role in the evolution of the bicycle, invention of the bifurcated riding skirt, and a lawsuit against an athletic club that expelled her due to her gender. She also introduced the automobile to her readers and describes the excitement of her first ride. 48 articles describe her adventures with water sports (swimming, boating), and winter sports (ice skating and sledding). The other three volumes presenting Diana's column are Diana's Ball Sports, Diana's Fitness Fashion & Beauty, and Diana's Anecdotes & Aphorisms. *Sports She Wrote* is a 31-volume time-capsule of primary documents written by more than 500 women in the 19th century.

women who mean business 2024: Harnessing Business Intelligence for Modern Talent Management Seremeti, Lambrini, Liargovas, Panagiotis, Papademetriou, Christos, Anastasiados, Lazaros, Anastasiadou, Sofia, 2025-06-13 In an era where talent drives organizational success, effectively managing the workforce has become increasingly complex and vital. The shift toward data-driven strategies empowers business to better understand employee needs, predict workforce trends, and optimize human resource practices. Business intelligence (BI) enables organizations to make informed, strategic decisions that align talent management with broader business goals. By leveraging BI, companies can enhance recruitment, engagement, and retention in ways that traditional methods cannot. This integration not only strengthens organizational resilience but also fosters a more adaptive and competitive business environment. *Harnessing Business Intelligence for Modern Talent Management* delves into the ways BI is reshaping the talent management sector, from revolutionizing hiring practices to boosting employee engagement and retention. It explores not only the technology but also the shifts in mindset required to adopt a data-driven culture within human resources. Covering topics such as data-driven workplaces, talent equity, and workforce development, this book is an excellent resource for professionals, researchers, educators, students, academicians, managers, business leaders, and more.
