

women's studies in communication

women's studies in communication is an interdisciplinary field that explores the ways gender influences communication processes, media representation, and societal interactions. This academic area examines how women's voices and experiences are expressed, silenced, or transformed within various communication contexts. It integrates feminist theories, cultural studies, and media analysis to provide a nuanced understanding of gender dynamics in interpersonal, organizational, and mass communication. Emphasizing both historical perspectives and contemporary challenges, women's studies in communication highlights issues such as gender bias, power relations, and the role of communication in promoting social change. This article delves into the origins, key themes, practical applications, and career opportunities associated with this vibrant field.

- Overview and Historical Development of Women's Studies in Communication
- Key Theoretical Frameworks and Concepts
- Applications in Media and Interpersonal Communication
- Challenges and Contemporary Issues
- Career Paths and Academic Opportunities

Overview and Historical Development of Women's Studies in Communication

The field of women's studies in communication emerged during the feminist movements of the 1960s and 1970s, when scholars began critically analyzing the representation and participation of women in communication processes. Initially rooted in feminist theory, this discipline sought to challenge the male-dominated narratives prevalent in media and academic research. Over time, it expanded to include diverse perspectives addressing race, class, sexuality, and cultural identity, contributing to a more inclusive understanding of gendered communication. The development of this field reflects the broader social transformations advocating for gender equality and social justice.

Foundational Milestones

Several key events and publications marked the establishment of women's studies in communication as a recognized academic discipline. Early feminist scholars critiqued traditional communication theories for their androcentric biases and introduced alternative frameworks emphasizing women's experiences and voices. The creation of dedicated university programs and research centers further institutionalized the field, fostering interdisciplinary collaboration and expanding its scope.

Evolution Over Time

As the field matured, it incorporated intersectional analyses that consider how overlapping identities impact communication. Technological advancements and digital media have also influenced the study of women's communication, prompting examination of online activism, gendered digital spaces, and media production roles. This evolution underscores the dynamic nature of women's studies in communication and its responsiveness to societal changes.

Key Theoretical Frameworks and Concepts

Women's studies in communication employs a variety of theoretical frameworks to analyze gender and communication. These perspectives provide tools for understanding how communication practices reinforce or resist societal norms related to gender. Central concepts include power dynamics, representation, identity construction, and discourse analysis.

Feminist Communication Theories

Feminist communication theories challenge traditional communication models by centering women's experiences and highlighting systemic inequalities. These theories explore how language and media perpetuate gender stereotypes and marginalize women's perspectives. They also emphasize the role of communication in empowerment and social change.

Intersectionality

Intersectionality is a critical framework that examines how multiple social identities—such as race, class, gender, and sexuality—intersect to shape individual experiences and communication patterns. This approach helps scholars understand the complexity of women's communication in diverse contexts and resists one-dimensional analyses.

Discourse and Representation

Discourse analysis in women's studies investigates how language and media construct meanings about gender and power. Representation studies assess how women are portrayed in various communication channels and the implications of these portrayals for public perception and identity formation.

Applications in Media and Interpersonal Communication

The insights gained from women's studies in communication have practical applications across multiple communication domains. These applications contribute to more equitable and effective communication practices in media, organizations, and personal interactions.

Media Criticism and Production

Scholars and practitioners use feminist critiques to analyze gender bias in news, advertising, film, and digital media. They advocate for inclusive media production practices that amplify women's voices and challenge stereotypical depictions. This work supports the creation of content that reflects diverse experiences and promotes gender equity.

Interpersonal Communication

In interpersonal communication, women's studies highlight how gender influences conversational styles, conflict resolution, and relational dynamics. Understanding these differences can improve communication competence, foster empathy, and reduce misunderstandings in personal and professional relationships.

Organizational Communication

Within organizations, this field examines gendered power structures and communication climates. It addresses issues such as gender discrimination, workplace harassment, and leadership communication styles, aiming to create inclusive environments where all voices are valued.

Challenges and Contemporary Issues

Despite significant progress, women's studies in communication continues to confront various challenges and evolving issues in the contemporary landscape. These challenges reflect broader societal tensions and technological developments.

Gender Bias in Digital Communication

Online platforms have amplified both opportunities and risks for women's communication. While digital media enable new forms of expression and activism, they also expose women to harassment, misinformation, and exclusion. Addressing these issues requires ongoing research and policy interventions.

Global Perspectives and Cultural Diversity

Women's communication experiences vary widely across cultures and geopolitical contexts. Contemporary scholarship emphasizes the importance of incorporating global perspectives to understand the intersection of gender with cultural norms, colonial histories, and economic conditions.

Advocacy and Social Justice

Women's studies in communication plays a vital role in advocating for social justice by analyzing and

promoting communication strategies that challenge oppression and support marginalized groups. This includes work on media literacy, public policy, and community engagement.

Career Paths and Academic Opportunities

Studying women's studies in communication opens diverse career opportunities in academia, media, public relations, advocacy, and beyond. Graduates develop critical thinking, research, and communication skills applicable to various professional settings.

Academic and Research Careers

Many pursue advanced degrees to engage in teaching, research, and scholarship in women's studies, communication, gender studies, or related fields. Academic careers often involve interdisciplinary collaboration and contribute to the development of new theories and methodologies.

Media and Public Relations

Professionals with expertise in women's studies in communication work in journalism, media production, and public relations to promote inclusive storytelling and gender-sensitive messaging. They play crucial roles in shaping public discourse and organizational communication strategies.

Advocacy and Nonprofit Work

Careers in advocacy organizations, nonprofits, and governmental agencies benefit from knowledge of gendered communication to design effective campaigns, conduct outreach, and influence policy. These roles focus on advancing gender equality and social justice.

- Critical analysis and research skills
- Media literacy and production knowledge
- Interpersonal and organizational communication expertise
- Advocacy and public policy understanding
- Cross-cultural competence and global awareness

Frequently Asked Questions

What is women's studies in communication?

Women's studies in communication is an interdisciplinary field that examines the roles, representations, and experiences of women in various communication contexts, including media, rhetoric, and interpersonal communication.

Why is women's studies important in the field of communication?

Women's studies is important in communication because it highlights gender biases, challenges stereotypes, and promotes gender equity by analyzing how communication shapes and reflects women's social positions.

How does women's studies in communication address media representation?

It critically analyzes how women are portrayed in media, uncovering patterns of underrepresentation, stereotyping, and objectification, and advocates for more diverse and accurate representations.

What methodologies are commonly used in women's studies in communication research?

Researchers often use qualitative methods such as discourse analysis, ethnography, interviews, and feminist content analysis to explore women's communication experiences and media portrayals.

How does intersectionality relate to women's studies in communication?

Intersectionality examines how overlapping identities like race, class, sexuality, and gender affect communication experiences, providing a more nuanced understanding of women's diverse realities.

What role does feminist theory play in women's studies in communication?

Feminist theory provides the foundational framework for analyzing power dynamics, gender norms, and inequalities in communication practices and media representations.

Can women's studies in communication contribute to social change?

Yes, by raising awareness about gender issues in communication and media, it empowers individuals and organizations to challenge discrimination and promote gender justice.

How are women's voices amplified through communication

studies?

The field emphasizes giving space to women's narratives, promoting inclusive dialogue, and critiquing dominant discourses that marginalize women.

What career opportunities are available for graduates of women's studies in communication?

Graduates can pursue careers in media, public relations, advocacy, education, research, and organizations focused on gender equity and social justice.

How has digital media impacted women's studies in communication?

Digital media has expanded platforms for women's expression and activism, while also introducing new challenges such as online harassment, which women's studies critically examines.

Additional Resources

1. Gender and Communication: A Critical Introduction

This book explores the intersection of gender and communication, offering a comprehensive overview of how gender shapes interactions in various contexts. It delves into theories and research that highlight the role of societal norms and power structures in communication practices. The text is ideal for students seeking to understand the complexities of gendered communication.

2. Feminist Communication Theory: Selections in Context

A collection of seminal essays, this volume presents feminist perspectives on communication theory and practice. It examines how feminist thought challenges traditional communication models and introduces concepts of power, identity, and resistance. The book is essential for readers interested in the evolution of feminist approaches within communication studies.

3. Women and Language: Essays on Gendered Communication

This anthology gathers research on how language use varies between genders and the social implications of these differences. Topics include conversational styles, language and power, and the role of language in constructing gender identities. It provides valuable insights into the linguistic dimensions of women's communication experiences.

4. Communication and Gender: A Reader

Designed as a comprehensive reader, this book compiles foundational texts and contemporary studies on communication and gender. It addresses topics such as media representation, interpersonal communication, and organizational dynamics from a gendered lens. The reader supports critical engagement with ongoing debates and research findings.

5. Voices of Women in Media: Representation and Resistance

This book investigates the portrayal of women in various media forms and the ways women use media to resist stereotypes. It combines theoretical analysis with case studies to explore media's role in shaping and challenging gender norms. The work is pertinent for understanding the dynamics of women's visibility and agency in media landscapes.

6. *Intersections of Gender, Race, and Communication*

Focusing on the interconnected nature of identity, this title examines how gender and race influence communication experiences and practices. It highlights the importance of intersectionality in analyzing communication patterns and power relations. The book is a critical resource for studying diversity and inclusion within communication scholarship.

7. *Women's Narratives and Digital Media*

This text explores how digital platforms provide spaces for women to share stories and build communities. It discusses the impact of social media, blogs, and online activism on women's communication and empowerment. The book offers a contemporary perspective on the evolving landscape of women's voices in digital communication.

8. *Communication, Feminism, and Social Change*

Examining the role of communication in feminist movements, this book highlights strategies for social justice and activism. It discusses how communication practices can challenge oppression and promote gender equality. The text is valuable for understanding the link between feminist theory and practical communication efforts.

9. *Negotiating Gender in the Workplace: Communication Strategies for Women*

This book addresses the challenges women face in professional communication and offers strategies for effective negotiation and leadership. It covers topics such as gender bias, assertiveness, and organizational communication dynamics. The work provides practical advice grounded in research to support women's career advancement.

Bonnie J. Dow, Julia T. Wood, 2006-07-19 Publisher Description

women s studies in communication: Black Pioneers in Communication Research Ronald L. Jackson II, Sonja M. Brown Givens, 2006-01-13 Black Pioneers in Communication Research is a pathbreaking book that displays a refreshingly joyful and critical spirit. Here, communication theory is shown to be the work of real persons living real lives, asking real questions of real problems. By celebrating and evaluating the lives of Black scholars as they have sought to advance communication studies, readers are introduced to perhaps the first truly foundational text our field has to offer! By tracing pioneers' life histories up to their current contributions to the field of communication, students will not simply be exposed to a concept and its definition, but rather invited to explore the evolution of both the concept and its progenitor. This illuminates and enlivens the study of communication while helping readers to be conscious of the conditions that have helped to shape our current state of knowledge. Black Pioneers in Communication Research is fully edifying: It lifts

all communication scholars higher by being courageous enough to teach us as intellectuals that when we lay bare some of the intricacies of our lives, our students are better able to understand the complex canvases upon which our paradigms are built. --Eric King Watts, Wake Forest University

Black Pioneers in Communication Research is the only book in the field of communication that—through personal interviews—systematically explores the lives, careers, and profound conceptual contributions of the men and women who have helped shape the contours of humanistic and social scientific inquiry within communication studies and beyond. The personal lives and careers of eleven leading scholars are profiled: Molefi Kete Asante, Donald E. Bogle, Hallie Quinn Brown, Melbourne S. Cummings, Jack L. Daniel, Oscar H. Gandy, Jr., Stuart Hall, Marsha Houston, Joni L. Jones/Iya Omi Osun Olomo, Dorothy L. Pennington, and Orlando L. Taylor. These pioneers have had an indelible impact on Black Studies, sociology, communication, political science, film studies, rhetoric, sociolinguistics, and cultural studies. *Black Pioneers in Communication Research* presents a penetrating look into the circumstances that shifted the paradigms of interdisciplinary thought. Some of the concepts covered in this book are afrocentricity, articulation theory, aphasia, oral performance and interpretation, womanism, Black English, Black oral traditions, the TrEE communication development model, chronemics, as well as the mammy, buck, mulatto, coon, and Uncle Tom images in film and television. **Intended Audience:** This is an excellent textbook for advanced undergraduate and graduate courses dealing with African American communication and/or communication research (such as intercultural communication, African American communication, African American studies, African American rhetoric, communication research, and communication theory~

women s studies in communication: *The SAGE Encyclopedia of Communication Research Methods* Mike Allen, 2017-04-11 Communication research is evolving and changing in a world of online journals, open-access, and new ways of obtaining data and conducting experiments via the Internet. Although there are generic encyclopedias describing basic social science research methodologies in general, until now there has been no comprehensive A-to-Z reference work exploring methods specific to communication and media studies. Our entries, authored by key figures in the field, focus on special considerations when applied specifically to communication research, accompanied by engaging examples from the literature of communication, journalism, and media studies. Entries cover every step of the research process, from the creative development of research topics and questions to literature reviews, selection of best methods (whether quantitative, qualitative, or mixed) for analyzing research results and publishing research findings, whether in traditional media or via new media outlets. In addition to expected entries covering the basics of theories and methods traditionally used in communication research, other entries discuss important trends influencing the future of that research, including contemporary practical issues students will face in communication professions, the influences of globalization on research, use of new recording technologies in fieldwork, and the challenges and opportunities related to studying online multi-media environments. Email, texting, cellphone video, and blogging are shown not only as topics of research but also as means of collecting and analyzing data. Still other entries delve into considerations of accountability, copyright, confidentiality, data ownership and security, privacy, and other aspects of conducting an ethical research program. **Features:** 652 signed entries are contained in an authoritative work spanning four volumes available in choice of electronic or print formats. Although organized A-to-Z, front matter includes a Reader's Guide grouping entries thematically to help students interested in a specific aspect of communication research to more easily locate directly related entries. Back matter includes a Chronology of the development of the field of communication research; a Resource Guide to classic books, journals, and associations; a Glossary introducing the terminology of the field; and a detailed Index. Entries conclude with References/Further Readings and Cross-References to related entries to guide students further in their research journeys. The Index, Reader's Guide themes, and Cross-References combine to provide robust search-and-browse in the e-version.

women s studies in communication: The SAGE Handbook of Gender and

Communication Bonnie J. Dow, Julia T. Wood, 2006-07-19 The SAGE Handbook of Gender and Communication is a vital resource for those seeking to explore the complex interactions of gender and communication. Editors Bonnie J. Dow and Julia T. Wood, together with an illustrious group of contributors, review and evaluate the state of the gender and communication field through the discussion of existing theories and research, as well as through identification of important directions for future scholarship. The first of its kind, this Handbook examines the primary contexts in which gender and communication are shaped, reflected, and expressed: interpersonal, organizational, rhetoric, media, and intercultural/global. Key Features: Brings together the expertise of leading scholars: Esteemed scholars edit each section and leading researchers in the field author each chapter. The distillation of scholarship in each area by seasoned scholars clarifies what is and is not known in that area of research. Offers historical and theoretical perspectives: Authors discuss the development of gender and communication research during the past three decades and examine the theories, questions, and issues about gender and communication that are ascending to define the next stage of work in the area. Provides comprehensive reference lists: Each section summarizes existing theory and research related to an area of gender and communication scholarship and guides readers to the central works in the field, as well as directs future scholarship toward the most urgent, important, and promising topics, methodologies, and/or perspectives.

women s studies in communication: *Methods of Rhetorical Criticism* Bernard L. Brock, Robert Lee Scott, James W. Chesebro, 1989

women s studies in communication: *Transforming Visions* Sheryl Perlmutter Bowen, Nancy Wyatt, 1993 Offering an introduction to feminist theory and scholarship in the major areas of speech communication, this book includes, amongst others, chapters on interpersonal communication, small group communication, performance studies, organisational communication, and intercultural communication.

women s studies in communication: *Women's Studies Serials* Kristin H Gerhard, 2020-09-23 Women's Studies Serials: A Quarter-Century of Development examines the history, growth, and present status of women's studies collections available in the United States and around the world. This text investigates the accessibility to women's studies periodicals, how they are used and by whom, and identifies areas where further research is needed to help collection managers and librarians make the best selection decisions for their serials collections. Women's Studies Serials will help you choose serials that meet the needs of your patrons and that comply with the limitations of your budget. Offering you charts, tables, and statistical data, Women's Studies Serials covers many topics that will help you build a thorough and accessible women's studies collection or renovate an existing collection, including: the problems, influences, and expectations involved in women's studies faculty's daily work with magazines and journals choosing the best CD-Rom products for women's studies research based on cost, coverage, content, and recommendations for acquisition techniques and insights for teaching cataloging in an interdisciplinary, dynamic, and evolving information environment examining academic women's studies serials on the World Wide Web and determining whether they are helpful to students and faculty suggestions that may alleviate the inadequacies of subject description and access to current periodical literature concerning African-American women and Latinas in the United States how women's studies serials published in Ireland are adding support and recognition to the discipline of women's studies examining popular women's periodicals in the Popular Culture Collection at Bowling Green State University and how they help reveal and document the history of women's roles in society the management and collection methods of the International Centre and Archives of the Women's Studies Movement located in the Netherlands Providing you with information on how other academic libraries choose their collection material, Women's Studies Serials will help you determine what journals in your library are most widely read and if they are meeting the informational and research needs of faculty and students. The information in Women's Studies Serials will help make your women's studies serials current, cost-efficient, and relevant to your patrons' needs.

women s studies in communication: *Mothering Rhetorics* Lynn O'Brien Hallstein,

2020-03-03 Once only a topic among women in the private sphere, motherhood and mothering have become important intellectual topics across academic disciplines. Even so, no book has yet devoted a sustained look at how exploring mothering rhetorics – the rhetorics of reproduction (rhetorics about the reproductive function of women/mothers) and reproducing rhetorics (the rhetorical reproduction of ideological systems and logics of contemporary culture) expand our understanding of mothering, motherhood, communication, and gender. *Mothering Rhetorics* begins to fill this gap for scholars and teachers interested in the study of mothering rhetorics in their historical and contemporary permutations. The contributions explore the racialized rhetorical contexts of maternity; how fixing food is thought to fix families, while also regulating maternal activities and identity; how Black female breastfeeding activists resisted the exploitation of African-American mothers in Detroit; how women in pink-collar occupations both adhere to and challenge maternity leave discourses by rhetorically positioning their leaves as time off and (dis)ability; identifying verbal and nonverbal shaming practices related to unwed motherhood during the mid-twentieth century; and redefining alternative postpartum placenta practices. This book was originally published as a special issue of *Women's Studies in Communication*.

women s studies in communication: Introduction To Library Research In Women's Studies Susan E. Searing, 2019-02-26 This annotated bibliography evaluates the traditional reference aids available in most college libraries in terms of their usefulness in women's studies research, highlighting issues and problems of central concern to researchers in women's studies.

women s studies in communication: The Routledge Handbook of Gender and Communication Marnel Niles Goins, Joan Faber McAlister, Bryant Keith Alexander, 2020-11-29 This volume provides an extensive overview of current research on the complex relationships between gender and communication. Featuring a broad variety of chapters written by leading and upcoming scholars, this edited collection uses diverse theoretical frameworks to provide insight into recent concerns regarding changing gender roles, representations, and resources in communication studies. Established research and new perspectives address vital themes in this comprehensive text, including the shifting politics of gender, ethical and technological trends in gendered media, and gender in daily life. Comprising 39 chapters by a team of international contributors, the Handbook is divided into six thematic sections: • Gendered lives and identities • Visualizing gender • The politics of gender • Gendered contexts and strategies • Gendered violence and communication • Gender advocacy in action These sections examine central issues, debates, and problems, including the ethics and politics of gender as identity, impacts of media and technology, legal and legislative battlegrounds for gender inequality and LGBTQ+ human rights, changing institutional contexts, and recent research on gender violence and communication. The final section links academic research on gender and communication to activism and advocacy beyond the academy. The Routledge Handbook of Gender and Communication will be an invaluable reference work for students and researchers working at the intersections of gender studies and communication studies. Its international perspectives and the range of themes it covers make it an essential and pragmatic pedagogical resource.

women s studies in communication: Quantitative Research Methods in Communication Erica Scharrer, Srividya Ramasubramanian, 2025-04-17 This fully updated second edition offers an advanced introduction to quantitative methods that focuses on why and how to conduct research that contributes to social justice. Providing both inspiration and step-by-step guidance on how to conceive, design, and carry out a quantitative study, the book shows how research can be used to work toward a more just and equitable world. The authors provide a detailed guide to quantitative methods and statistical analysis, showing how researchers can engage with social justice issues in systematic, rigorous, ethical, and meaningful ways. This new edition includes a new chapter on writing literature reviews and better aligns with the stages of quantitative research as well as the changing technologies that are available for researchers to both study and use in their work. It includes updated real-world case studies, interviews with scholar-activists, and definitions of key concepts as well as a deeper focus on ethics, social media, computational social sciences, data

analytics, and data visualization techniques. Attuned to questions of access, equity, justice, diversity, and inclusion, this textbook is ideal for graduate and advanced undergraduate courses in research methods for communication and the social sciences. It will also be of interest to researchers who wish to engage with the transformation of structures, practices, and understandings in society through community and civic engagement and policy formation. Online resources for instructors include a test bank, PowerPoint slides, sample dataset, and YouTube tutorials. They are available online at www.routledge.com/9781032599878.

women s studies in communication: *Communication Yearbooks Vols 6-33 Set* Various, 2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse, state-of-the-discipline literature reviews that advance knowledge and understanding of communication systems, processes, and impacts across the discipline. Topics dealt with include Communication as Process, Research Methodology in Communication, Communication Effects, Taxonomy of Communication and European Communication Theory, Information Systems Division, Mass Communication Research, Mapping the Domain of Intercultural Communication, Public Relations, Feminist Scholarship, Communication Law and Policy, Visual Communication, Communication and Cross-Sex Friendships Across the Life Cycle, Television Programming and Sex Stereotyping, InterCultural Communication Training, Leadership and Relationships, Media Performance Assessment, Cognitive Approaches to Communication.

women s studies in communication: *The History of Media and Communication Research* David W. Park, Jefferson Pooley, 2008 «Strictly speaking», James Carey wrote, «there is no history of mass communication research.» This volume is a long-overdue response to Carey's comment about the field's ignorance of its own past. The collection includes essays of historiographical self-scrutiny, as well as new histories that trace the field's institutional evolution and cross-pollination with other academic disciplines. The volume treats the remembered past of mass communication research as crucial terrain where boundaries are marked off and futures plotted. The collection, intended for scholars and advanced graduate students, is an essential compass for the field.

women s studies in communication: Adventures in Shondaland Rachel Alicia Griffin, Michaela D.E. Meyer, 2018-09-10 Shonda Rhimes is one of the most powerful players in contemporary American network television. *Adventures in Shondaland* critically explores Shonda Rhimes's meteoric rise to stardom, her reign (or cultural appointment) as television's diversity queen, and *Shondaland*'s almost-universally lauded melodramatic narratives.

women s studies in communication: Classroom Communication and Instructional Processes Barbara Mae Gayle, Raymond W. Preiss, Nancy Burrell, Mike Allen, 2009-03-04 Includes meta-analyses of communication instruction research and reviews literature on communication education/instruction. For scholars, students, and researchers in communication education.

women s studies in communication: *Silencing the Opposition* Craig R. Smith, 2011-01-01 The first edition of *Silencing the Opposition* examined major challenges to the First Amendment using illustrative case studies of the various forms of governmental suppression in our history. The essays showed that governmental forces have used rhetorical strategies in simple and sophisticated ways to silence opponents. By studying which strategies are effective, how they evolve, and how they are unmasked, the authors offered a better understanding to combat the strategies in the future. This second edition of *Silencing the Opposition* includes: a revised introduction and conclusion, updated chapters, and two new chapters, one on the Patriot Act and one on habeas corpus of 'enemy combatants.' In these revisions and additions, Smith has arranged a valuable, timely collection appropriate for its focus on the last eight years of civil liberty reforms in the United States.

women s studies in communication: *Women's Studies for the Future* Elizabeth Lapovsky Kennedy, Agatha Beins, 2005 Established as an academic field in the 1970s, women's studies is a relatively young but rapidly growing area of study. Not only has the number of scholars working in this subject expanded exponentially, but women's studies has become institutionalized, offering graduate degrees and taking on departmental status in many colleges and universities. At the same time, this field--formed in the wake of the feminist movement--is finding itself in a precarious

position in what is now often called a post-feminist society. This raises challenging issues for faculty, students, and administrators. How must the field adjust its goals and methods to continue to affect change in the future? Bringing together essays by newcomers as well as veterans to the field, this essential volume addresses timely questions including: Without a unitary understanding of the subject, woman, what is the focus of women's studies? How can women's studies fulfill the promise of interdisciplinarity? What is the continuing place of activism in women's studies? What are the best ways to think about, teach, and act upon the intersections of race, class, gender, disability, nation, and sexuality? Offering innovative models for research and teaching and compelling new directions for action, *Women's Studies for the Future* ensures the continued relevance and influence of this developing field.
